ARE the most perfect purgative which we are able to produce or which we think we ever yet heard from anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have become such which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is placed in Lowell's hands gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an efficacious medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they may offer for profit on. Demand AYER'S, and take no others. The sick want the best and there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

WOODEN LEGS.

"A surgeon in Milan has written to Garibaldi, offering to supply wooden legs gratis to all who stand in need of them."—*English Exchange.*

Well meant, perhaps, but badly said, O surgeon of Milan!
As wooden as your legs, must be your head, you stupid man:
How can they *stand* in need of legs?—come, answer me, I pray,
Or, if in need of legs they stand, what need of legs have they?

Among those volunteers was one, who left his native home
To fight in Garibaldi's ranks, for Venice and for Rome;
As forth he went, on glory bent, he cried "Leghorn, adieu!"
And to the fight, with all his might and both his legs, he flew.

His left leg in the front he placed; 'twas shattered by a shot;
"Leg gone," he cried, "Leghorn, *Harra!*" but didn't care a jot.
And when a random shell came by, and took the right one too,
He gazed upon his stumps and said: "Leg gone again—adieu!"

Sore subject this to joke upon, O surgeon of Milan!
Your inn you should not poke upon a maimed or wounded man:
Had you but both your legs in fight, you would not jeer or scoff,
But mourn the deep damnation of their sudden "taking off."
—[N. O. Times.

— The virtue of prosperity is temperance; the virtue of adversity is fortitude.

— "John Brown" bids fair to become the most popular song in the world. It is sung by the English volunteer regiments as they march through the streets of London, and the Fenians in Ireland prefer it to the "Wearing of the Green."

— John Shults of Pleasant Mills, N. J., is one hundred and seventeen years old.—He has been blind seventeen years, but is otherwise unimpaired in his mental and physical faculties. He constantly attends the Methodist church, of which he has been a member almost a century.

— The Richmond Enquirer is responsible for the statement that there is an old gentleman in Pocahontas county who has on his hands the blood of twenty-one hundred deer, seventeen hundred of whom he shot with the same gun. He has also been the death of many bears, panthers and other wild beasts.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of Dr. L. Lyon, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. *Price $1.50 per bottle.*

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (and subject to their and inferior subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents; and yet our canvassers will see the advantages of dealing directly with the publishers.

Our agents have about the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our books with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to completion, three years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including over twenty colleges; is equally interesting and useful to all classes; is written more than its weight in gold to every family or young man. We can sell books faster than any one Subscription Publisher, yet our subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the largest commission, we pay freights, and do not tax our personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S

MUSIC, PICTURE FRAME, AND VARIETY STORE,

10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Pictures, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, and will be returned and approval of Prof. Day. Also, the selection of SHEET MUSIC will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

BUSINESS IS BUSINESS.—The undertaker's business is a monopoly in Paris, and it is farmed out by the city to a joint stock company. In his last annual report the manager is said to have commenced in the following real and business-like strain:

Gentlemen, the year opened badly; the general health of the public was, unfortunately, excellent; a change for the better took place in September; we are happy to say the cholera made its appearance in Paris, and proved fatal in a majority of cases.

AN AFFECTIONATE BROTHER. — A minister, on meeting with a parishioner who recently came into the possession of a handsome property by the death of his brother, inquired how he was getting along with the settlement of the estate. "Oh," said he, "I am having a dreadful time; what with getting out letters of administration, and attending probate court, and settling claims, I sometimes almost wish he hadn't died."

— Nuremburg, once the 'Gothic Athens,' is now the toy manufactory of the world.

— During the past year one cotton factory in Augusta, Ga., has turned out over six million yards of cloth.

— The coal fields of the United States cover an area equal to twenty-eight such States as Massachusetts.

— An Irishman who has heard it stated that all flesh is grass, wishes to know whether bay is beef *a la mowed*.

— In winter it is sometimes difficult to understand the clerk of the weather: but when it snows violently you can always see his drift.

— "How odd it is," said Pat, as he trudged along on foot one hot, sultry day, "that a man never meets a cart going the same way he is."

— A doctor's wife attempted to move him by her tears. "Ann," said he, "tears are useless. I have analyzed them. They contain a little phosphate of lime, some chlorate of sodium, and water."

The Grand Secret.
The Grand Secret in medication is to help Nature. SUSTAIN AND REGULATE—these are the Alpha and Omega of the only theory of cure that has common sense for its basis. If the nervous system is shattered, the muscles weak, and the mind, like the body, in a state of partial collapse—what is it best to do? Reason teaches us the answer:
BUILD UP YOUR MAN.
Brace him up as you would brace a tottering edifice. The pabulum he needs is a Tonic Alterative. Bring him up out of the depths of Debility and Despondency
WITH HOSTETTER'S BITTERS.
They cannot injure. A child may take them in doses suited to its years, without the possibility of harm. The enfeebled vital powers are as sure to respond energetically to their action, as the wilted grass is to erect its blades under the vivifying and refreshing rain. In all cases of debility the Bitters are absolutely required. There is no substitute or succedaneum that will fill their place. Resort to this most wonderful of Modern Tonics,
AND ALL WILL BE WELL.
Bear in mind that in Dyspepsia, Intermittent Fevers, Bilious Disorders, and Affections of the Nerves, no other medicine will produce one tithe of the good effect that invariably follows the use of this excellent Invigorator and Corrective. Sold everywhere.—*N. Y. Tribune, Oct. 27, 1866.*

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotics, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, DECEMBER 15, 1866.

THE COMPLIMENTS OF THE SEASON.—The Exeter News Letter, in speaking of President's message says:—"The President's plan of bringing about a fraternal feeling between the Northern and Southern States might have been very good at the commencement of the rebellion, but now Andrew Johnson is behind the times in which he lives. Five years ago we would advocate the placing of a guard over the slave holders' property. Afterwards Gen. Pope proposed to live upon the substance of the enemy. Then came Emancipation, and the dark clouds that obscured the bright sky beyond cleared away. But we progressed so rapidly that we were not prepared for coming emergencies. After we gave the negro his liberty, it became necessary to provide for him, to legislate for him, and amend our previous rules of conduct, to suit the wants of the future.—Hundreds of issues have arisen from our difficulties, and we must meet them.

President Johnson ignores this, and his policy is five years behind the present, according to the almanac, and twenty-five in point of progress. He is joined to his idols."

The N. Y. Herald gives the following hit:—"Upon the great issue of Southern reconstruction it reads like a chapter from 'The World before the Deluge.'.....It may be compared to a history of France, omitting the revolution which overthrew the Bourbons—as a trivial matter not worth mentioning in pleading their claims to the throne."

THE U. S. SENATE, Thursday, Dec. 13, passed the Suffrage Bill for the District of Columbia;—the first question being on Mr. Dixon's amendment to attach the qualification of reading and writing to the name of the voter. This was rejected, 11 to 34.

Next, the Senate adopted an amendment, prescribing, "For offering a bribe the punishment a fine of two thousand dollars, or two years' imprisonment, or both. For accepting a bribe the punishment to be one year's imprisonment and disfranchisement thereafter."

Verbal amendments were adopted, after which the bill was passed by yeas 32, nays 13, as follows:

YEAS—Messrs. Anthony, Brown, Cattell, Chandler, Conness, Creswell, Edmunds, Fessenden, Fogg, Frelinghuysen, Grimes, Haines, Henderson, Howard, Howe, Kirkwood, Lane, Merrill, Morgan, Poland, Pomeroy, Ramsey, Ross, Sherman, Sprague, Stewart, Sumner, Trumbull, Wade, Willey, Williams and Wilson—32.

NAYS—Messrs. Buckelew, Cowan, Davis, Dixon, Doolittle, Foster, Hendricks, Nesmith, Norton, Patterson, Riddle, Saulsbury and Van Winkle—13.

Messrs. Yates and Johnson were absent—paired.

Absent, or not voting—Messrs. Cragin, Fowler, Guthrie, Johnson, McDougall, Nye and Yates.

The bill now goes to the House.

The *House* passed the Deficiency Bill:—also passed the concurrent resolution to take a recess from Thursday, Dec. 20, to Thursday, Jan. 3.

Resolutions were passed calling on the President for all documents, &c., in relation to the New Orleans riots, and the reprieve of Crawford, Keys and others, convicted of the murder of three U. S. soldiers in South Carolina.

Mr. Stevens introduced a bill to establish civil government in North Carolina, to enable it to resume its former relations as one of the constituent States of the American Union. He stated that he did so at the request of several gentlemen from North Carolina. Referred to the Committee on Territories and ordered to be printed. It recites that whereas, certain persons have been appointed to assist the President in maintaining peace and order, whereas, it is the duty of Congress to preserve North Carolina as one of the States of the Union, it provides for a sovereign convention of the loyal citizens of the district formerly composed of the State of North Carolina, composed of 120 delegates, the same as to the State House of Commons prior to 1861, to frame a State Constitution which shall be submitted to Congress for approval, modification or rejection.

All male resident citizens, without distinction of race or color, who can read and write, or who may own in fee real estate of one hundred dollars, may vote for delegates.

The delegates are to be sworn that they complied with the President's proclamations, and since March 4, 1864, have opposed the continuence of the rebellion.

Mr. Ashley opposed the resolution to adjourn over the holidays.

A vote was taken to lay it on the table—yeas 46, nays 112.

The previous question was then called—yeas 34, nays 112.

—"How does that look?" said Mr. Cramp, holding out his brawny hand.—"That," says Ames, "looks as though you were out of soap."

NEW HAMPSHIRE ITEMS.

—— P. S. Batcheller is appointed Post Master at Fitzwilliam, *vice* G. N. Whittemore, removed. Chas. C. Kimball, Post Master at Charlestown *vice* Jas. Stebbins, removed.

—— We understand that the Christian Reporter, now published at Concord, by Rev. Dr. Stone, is to be merged in the Congregationalist, at Boston. New Hampshire articles are also published in the Boston Recorder. The chance for a paper of that kind published in New Hampshire is very poor, in these days of costly printing.

—— A dispatch from Littleton Thursday evening states that the horse and wagon of the murdered man, George Maxwell of Franconia, have been found at Gorham, where the murderer stopped over Sunday with an acquaintance. From there he went on Monday morning by a freight train on the Grand Trunk Railroad to a station about six miles from Island Pond, where he left the cars and struck for the woods. His pursuers were at Island Pond, and have very nearly ascertained his whereabouts. Intelligence of the murderer's capture was hourly expected at Littleton.

GOV. SMYTH ON TEMPERANCE.—Toward the close of the late State Temperance Convention, Gov. Smyth, who is well known to be a thorough tetotaller, and who had been sitting back near the door, was discovered and called on to the stage amidst the most flattering applause. He spoke briefly in support of the present Prohibitory law, although he did not believe that this or any other law would entirely suppress the traffic in intoxicating liquors.—The present intemperance in high places he considered the greatest obstacle in the way of total abstinence reform. With Judge Morrison of Manchester, he believed that more than one-half of the men of New Hampshire used intoxicating spirits to some extent as a beverage. It is hard to enforce a law where more than half of those concerned are direct or indirect violators of it. Let us bring these men over to us. You must not abuse them. We can lead men better than we can drive them. The present law should be executed, but we ought to use kind and moral means beside.—There are honest differences among true temperance men as to the best course to be pursued in forwarding this great reform. I am myself a temperance man in principle, yet I do not agree with you in all things you have said and done here to-day. In concluding, the Governor was again made the recipient of marked applause.

Correspondence of Chronicle.

CORDOVA, Illinois, Dec. 10th.

We are having quite mild weather thus far this fall, until yesterday, which was very cold, as also is to-day. The farmers here most of them have got their corn gathered, it is not over one-half or two thirds of a crop, on account of the wet weather during the latter part of summer, and of an early frost Sept. 21st and 22d which stopt its growth. A great deal of it is soft and of poor quality. The wheat crop of this section was good, as also oats, barley and rye. Potatoes troubled with rot; apples good. F. M. B.

HEAVY ROBBERY.—Cabel Lyons, who has been Governor of Idaho, has returned, and says that he was robbed in the sleeping car, while coming from Philadelphia, of forty thousand dollars, which he had drawn as Indian Agent, but had refused to turn over to his successor. He says he had it in a money belt in greenbacks, but took it off and put it under his head before he went to sleep. In the morning he says it was gone.

FISHING BOUNTIES.—The Barnstable Patriot, announces that all vessels which took out licenses previous to the passage of the law repealing the Fishing Bounties, July 28, 1866, will be entitled to receive the bounty. As most of the licenses bear date previous to the repeal, but few vessels will be deprived of the bounty this year.

THE PRESIDENT'S APPOINTMENTS.—President Johnson is promptly sending to the Senate, for confirmation or rejection, the appointments made by him during the recess, which he might have held back until near the close of the session.

☞ The President has declined to order the Court of inquiry demanded by Hon. Joseph Holt to investigate the charges made against him in connection with his official conduct as Judge-Advocate General, the former not deeming such a course necessary for the vindication of Mr. Holt.

☞ The Richmond Whig is in favor of the plan of holding a National Constitutional Convention, because it would secure the recognition of the Southern States, and enable them to *defeat any amendment proposed*. That is a very honest way of stating the case.

☞ The Penobscot river at Bangor, was closed by ice Thursday night, and navigation suspended for the winter, except a steamer once a week as far up as Winterport.

GOLD, Friday, 137 1-2.

WHEN DID THE REBELLION END?—In the U. S. District Court in the State of Delaware, a decision has been rendered by Judge Hall, releasing from imprisonment in Fort Deleware four persons, who had been arrested, tried and convicted by the military authorities of the United States in South Carolina, in December, 1865. The prisoners had been found guilty before a court-marshal, of which General Devens was President, of having voluntarily aided in the assault made on the United States troops stationed at Brown's Ferry, South Carolina, in October, 1865.

Judge Hall ordered the discharge of the prisoners on a writ of habeas corpus, on the ground that the Military Commission was without jurisdiction in the case; declaring it as his opinion, that the rebellion had ceased in April, 1865; and, inasmuch as the President's proclamation, issued in June, appointing a Provisional Governor for South Carolina, ordered "the District Judge for the district in which that State is included, to proceed to hold courts," the State was in the exercise of all its civil functions before the issuing of the order for the organization of the Commission by which the prisoners had been tried and condemned. The points of greatest interest in the decision of Judge Hall are, that the Rebellion had ceased and the authority of the United States was acknowledged in South Carolina in April, 1865; and that, after the appointment of a Provisional Governor for any State, by the President, the military forces of the United States were without authority to arrest and try persons before military commissions. The practice of the Government officers in all of the Southern States during the past year and a half, both under the Freedmen's Bureau bill and General Grant's order, are decidedly against the position taken by the Delaware Judge. It is not likely, therefore, says the Tribune, that he will be sustained.

FROM ENGLAND by Cable, Dec. 13, we learn that a second explosion took place in the same colliery at Barnsley, while a large number of the miners were trying to save the survivors of the former disaster. Thirty additional lives were lost. Another terrible explosion has taken place in a colliery in Stafford, attended with great loss of life.

The Paris *Moniteur* has a telegram dated Mexico, Dec. 3, and signed by Bazaine and Castelnau, which says that Maximilian is still in Mexico, though there has been as yet no decision as to his future movements. As the evacuation must be completed in March, it is urgent that there should be no delay in the arrival of the transports.

The mission of General Sherman and Minister Campbell, who left Vera Cruz on the 3d instant, appeared to be of a most conciliatory character.

☞ The bill passed by the House on Monday providing that Congress shall meet on the 4th of March, contained a provision "that no Senator or Representative in Congress who has been a member of the Congress next immediately preceding, shall be entitled to receive any allowance for mileage for traveling to the place of meeting to attend such additional session." The Democratic papers which have been accusing the House of a desire to rob the Treasury by securing mileage for this additional session, have "wasted their powder."

WASHINGTON ITEMS.—General Nelson A. Miles has gone to South Carolina to inspect the recruiting depots of the 40th U. S. Infantry (colored), which he is to command.

Sir Frederick Bruce has had nearly all his silver spoons stolen. They bear his crest and motto.

The Secretary of War has ordered one hundred cords of wood to be distributed to the poor at Alexandria, Va.

NEW BOOKS.

THE FAIRE GOSPELLER, Mistress Anne Askew,—is a Historical Tale of the times of Henry the Eighth, 1536: by the Author of Mary Powell. It is well printed in the old-style-revived, and bound in a modern elegant volume of 237 pages. Published by M. W. Dodd, New York City; and for sale in this city by J. H. Head. The tale is in the form of quaint narrative, and gives a life-like view of those times.

THE DRAYTONS AND THE DAVENANTS, a story of the Civil Wars:—by the author of the Chronicles of the Schonberg-Cotta Family, &c. This is a volume of over 500 pages, published by M. W. Dodd, New York, and for sale in this city by J. H. Head. This is also a Historical Novel of rare excellence, relating to a period of great interest.

☞ Wm. D. Edson, the swindler, who obtained goods in Boston by false pretences, is living in good style at a hotel in Montreal, where he confronts his creditors with great impudence, as he says the laws will not touch him.

☞ About thirty members of Congress who are professors of religion have organized a Congressional prayer meeting, which will be held once a week.

☞ In Portland, the members of the Second and Third Parishes, (congregational) are considering the question of uniting, for the purpose of building a church. The Third Parish has the control of $10,000, and it is thought it will be impossible for either to build alone. Baring Bros. & Co., of London, cordially consent to furnish a clock and bell whenever a building is ready.

DIRECTIONS FOR
MAKING YOUR OWN SOAP
WITH YOUR WASTE GREASE!
Penn'a Salt M'fg Co.'s Renowned
SAPONIFIER:
(Patents of 1st and 8th Feb., 1859,) on
CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Beware of Counterfeits.—*Be particular in asking for PENN'A SALT MFG CO'S SAPONIFIER.* d1—eowdawly

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was dangerously ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used one of his, and were cured in a short time. Since then I lost my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

ALLCOCK'S POROUS PLASTERS.
LAME BACK.

New York, Nov. 23, 1859.

T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CRICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a severe lame back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1863, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

CITY COUNCIL.—In Board of Aldermen Thursday evening, George E. Sides was dismissed from the office of Assistant Marshal, Constable and Police Officer, and Edwin Underhill appointed in his place.

A heap of bills were approved, and ex-City Marshal Dresser's account to Feb. 22d.

Both Boards passed in concurrence, the following Resolutions:—

That the sum of $2273.27 be transferred from the appropriation contingent, and applied as follows: For expenses prior to '66, $1481.03, for roads $25, bridges $54.79, City Watch $319.44, rebuild House Correction $200, Celebration of Independence $161.76, sidewalks $31.25.

Also that the Joint Committee on Finance be requested to report in one week, as to expediency of adopting a system by which some part of the annual receipts shall be laid aside in the form of a sinking fund or otherwise, to be used in any year when the amount of city debt maturing shall be considered too large to be raised that year.

☞ Mr. Wm. Isley, the survior of the garrison of Fort McClary in 1812, states that 20 men went from Portsmouth, (and not 12 as we had it,)—and gives us the following roll of their names: they left Jefferson Hall Monday morning July 6, 1812, for the fort, and staid till Nov. 30 of the same year.

Saml. Shackford, Captain.
Matthew S. Clark, Lieutenant.
John H. Ham, Ensign.
John Henley, David C. Foster, Samuel Neal,—Sergeants.
Saml. Childs, John Bazin, Saml. Fowler, Thomas Webb, Daniel Davis, Wm. Isley, John Stover, Wm. Smith, David A. Lyel, Mark Nutter, Wm. Barker, George Coleman, Wm. Ham, —— Parker,—privates.

The remainder of the company were from other towns.

☞ It seems indeed like old times—and "high old times," or heigho times, at that—for Mr. Shores to hang out his banner of Christmas Presents, at his old stand of the No. 1 Congress Block Bookstore, where but a few weeks ago was a dreary heap of ruins. Mr. Shores' new quarters are doubtless the best he ever had for his business, and probably excel anything of the sort ever opened in the city; and we hope that so fair and square a man, and so energetic and enterprising a merchant, may find the new arrangement to work to his advantage. His stock of fancy goods is all new and fresh, and selected with his usual good taste.

Mr. Shores has also just issued a new Catalogue of his Circulating Library, which is large and good, and constantly being added to.

☞ One of the best labor-saving machines ever introduced into a household, is a good Washing Machine. No class of patented machines so much interest the good housewife, as the washing machine and wringing attachment. The terrors of washing day exist no longer, where a good one is in use; and any of our readers in want of a first class machine—one that has no rival, to our knowledge—are advised to send to Mr. John A. Haradan the manufacturer, in this city, or to Mr. Stevens' housefurnishing establishment, for one of Preble's Tireless Washers, which is no harder to run than a piano. A moderately strong woman, or man, can wash and wring as fast as two can hang out,—and get the clothes clean too, and not hurt them either.

☞ Mr. Shores has removed his Bookstore, &c., to the elegant new store in the new Congress Block. Mr. Preston is rapidly fitting and filling up his splendid new apothecary store also, and Mr. Batchelder likewise his beautiful news room and fruit saloon. The whole block will be open and thus occupied in a few days, by three of our best tradesmen; surpassing in beauty of stores and richness of stocks, any such triple block ever built in the city.

CITY MISSION MEETING.—The Annual Meeting of the City Missionary Society, will be held at the Middle street church tomorrow (Sunday) evening, at 7 o'clock.—The Missionary's Report will be read, and addresses made by several gentlemen. At the meeting a collection will be taken up for the benefit of the poor of the city.

☞ Rev. L. Willis, formerly pastor of the Universalist Church in this city, will occupy his old pulpit to-morrow.

☞ A fire in Kittery, Friday afternoon, caused a slight alarm this side the river.

☞ Auct. Wendell will sell the balance of the City Hotel furniture, at his store, this morning.

Sale of varieties by Betton & Co.

THE NEW ORLEANS MASSACRE.—The New Orleans Investigating Committee have taken the testimony of E. P. Brooks, the correspondent of the New York Times, and Mr. Weed, of the New Orleans Times. Messrs. Elliot and Shellaberger, of the Committee, not only inquire into the massacre, but the loyalty of the people of Louisiana and their fitness to govern themselves, while Mr. Taylor seeks to elicit facts excusing the people of New Orleans. The Committee will go Southward on Monday.

☞ A New Orleans dispatch states that, although a financial crisis has been feared, there on account of the comparative failure of the cotton crop and other depressing influences, there had been no failures of any consequence, one cotton factory and a few small dry goods merchants only having suspended, making no impression in business circles.

— Col. Forney withdraws from the contest for United States Senator from Pennsylvania, and declares his preference for Thad. Stevens.

— Want of patronage is the occasion of the sale of the steamers of the New York and Havre Steamship Company. It is the only line of American steamers between this country and Europe. All the other lines are owned in Europe.

— An accidental explosion of a coal oil lamp occurred Wednesday at Mount Clare Station, on the Baltimore and Ohio Railroad where workmen were engagd in repairing cars used for the shipment of coal oil. One man, named Robert McIlwaine, was instantly killed, and another, Francis Thompson, shockingly burned.

Business Notices.

ALLIANCE.—We deem it our duty to say to our readers, that the most implicit reliance can be placed on Coe's Cough Balsam. It will cure your children of croup, and yourself of any cough, cold, sore throat or pulmonary affection. It is the cheapest and best preparation in the market.

Dyspepsia can be surely and permanently cured by Tic Doloureux. Thousands of dyspeptics are sending in their testimonials to the proprietors, saying it has cured them. We say to those who are suffering from dyspepsia, constipation, sour stomach, or any disorder of the stomach or bowels, give it a trial.
d10—1w daw

Holloway's Pills and Ointment.—Neuralgia—Tic Doloureux.—The doctrine that quinine and carbonate of iron were the only remedies for tic doloreux and nervous disorders, is now exploded. Holloway's Ointment will procure the speediest alleviation of pain, and a few application suffice for a permanent cure. Thousands who have experienced a radical benefit from its use are prepared to vouch for the correctness of this statement. In gout, rheumatism, lumbago and sciatacs, it is equally efficacious. Sold by all Druggists. d15—dawlw

LADIES AND GENTLEMEN

will find a very large and complete assortment of every description of Boots and Shoes, made in fashionable styles, of the best materials, at the extensive Boot and Shoe Store of T. E. MOSELEY & CO., Summer st., Boston. 29

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity or has had extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw lm

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street,** Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, but they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Ayer Almanac, which we are pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, *Dropsy, Heartburn, Headache arising from foul stomach,* Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction in the functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

MY CREED.

As other men have creeds, so have I mine;
I keep the holy faith in God, in man,
And in the angels ministrant between.
I hold no one true church of all true souls;
Whose churchly seal is neither bread nor wine,
Nor laying on of hands, nor holy oil,
But only the anointing of God's grace.

I hate all kings, and caste, and rank of birth;
For all the sons of man are sons of God;
Nor limps a beggar but is nobly born;
Nor wears a slave a yoke, nor czar a crown,
That makes him less or more than just a man.

I love my country, and her righteous cause;
So dare I not keep silent of her sin;
And after Freedom may her bells ring Peace!

I love one woman with a holy fire,
Whom I reverence as priestess of my house;
I stand with wondering awe before my babes,
Till they rebuke me to a nobler life.
I keep a faithful friendship with my friend,
Whom loyally I serve before myself;
I lock my lips too close to speak a lie;
I wash my hands too white to touch a bribe;
I owe no man a debt I cannot pay,
Save only of the love men ought to owe.

Withal, each day, before the blessed Heaven
I open wide the chambers of my soul,
And pray the Holy Ghost to enter in.

Then reads the fair confession of my faith;
I am crowned with contentedness of my life;
That now may God forgive the written lie!
Yet still, by help of Him who helpeth men,
I turn my words into deed and live or death.
O Father, lead me by the hand! Amen.
—THEO. TILTON, in the Herald of Health.

☞ In San Francisco they have ten grist mills, one salt mill, one rice mill, twenty-one breweries, two sugar refineries. They grind 1600 tons of salt a year; 130 tons brew 61,825 barrels of beer; 180 men manufacture 25,000,000 pounds of refined sugar. They have a match factory, two glass factories, a wire rope factory, and a hemp rope factory employing fifty men.—they have thirteen soap factories, employing thirty-nine men, consuming 750,000 pounds of tallow and making 1,000,000 pounds of soap annually. They have five saw mills cutting 6,250,000 feet of lumber a year; and thirty-eight machine shops and foundries, employing 1,200 men.

RATS.—It has been discovered that rats can be got rid of by covering the floor near the rathole with a thin layer of moist caustic potash; when the rats walk on this it makes their feet sore; these they lick with their tongues; it makes their mouth sore, and the result is that they shun this locality not alone, but appear to tell all the neighboring rats about it, and eventually the house is entirely abandoned by them, notwithstanding the neighborhood may be teeming with rats.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the old World,) to obtain the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under Control of the Doctor's Medicines, and have been tested in more than 20,000 cases successfully with Unmeaned Success.

YOUNG MEN.

Young Men addicted to secret habits, which have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel a Physician who has had extensive experience in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling Disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—290 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hyp, py. NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other concern. Our Books do not come through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., 118 Water St., Boston, Mass.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were engaged in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and other men in the country, including ever twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more than a library of gold to every family or young man. We have sold books faster than any one subscription Publisher, yet more subscribers have agents for this work, per agent, than any book we ever sold. In addition to the largest commission, we pay freights, leaving nothing but pocket expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

L. STEBBINS, Hartford, Ct.

Choice Imported Books.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Steels, Covers, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last two years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

TOBACCO SMOKING.

Come young and old, and hear me tell
How strong tobacco smokers smell,
Who love to smoke their pipes so well
That for tobacco they would sell
Their rights to social union.

They clean their pipe stems with a wire,
Then fill the bowl and put in fire,
And smoke till it does quite expire;
And they are never satisfied to tire
☞ In this tobacco union.

Sometimes the old and young you'll see
Collected in one company,
And every fellow, in full glee,
Is out upon a smoking spree,
And talking of the union.

And then the nauseous fumes will rise—
Like morning mists—towards the skies,
And woe to him who the weak eyes,
Unless he takes his leave, and flies
From a tobacco union.

They fondly scent the atmosphere,
And you may know when they are near,
Though not a word from them you hear—
Their breath grows stronger every year
From this tobacco union.

Some keep their money from the poor,
And send them hungry from their door,
Then hasten to some grocery store,
Of foul tobacco purchase more
To burn in smoking union.

Often within a church you'll view
Some people who'll sit there and chew,
And spit on carpet, floor and pew,
Until it spreads a foot or two;
Yet sing of heavenly union.

Sometimes, the quid so large within,
The juice runs down and stains the chin;
Yet youngsters, when they first begin
To smoke and chew, think there's no sin
In this tobacco union.

The ladies, they are sweet, 'tis true;
Yet they have learned to love it, too.
'Tis seldom that they smoke or chew,
But snuff it up, till all look blue—
Then talk of marriage union.

Now let each mortal being shun
This habit, which, when once begun—
Stern and relentless as the grave—
Will make you all through life the slave
Of a tobacco union.

CLOSE OF A STRIKE.—For nearly five months past the iron-workers on the river Tyne, in the north of England, embracing a very large number of men, have been on a strike against a reduction of ten per cent. on their wages, and the personal suffering which has ensued is stated to be terrible. Most of the workmen have been compelled to submit to terms of the employers, to save their families from utter starvation. The leading men—who always contrive somehow or other to get pretty well paid—stand out, but discussions of the matter indicate an inclination, even on the part of these, to give in. It is said that, owing to derangements caused by the strike, there will be only half work during the winter.

—The Philadelphia Loyal League, previous to the October election, distributed eight hundred and sixty-seven thousand and fifty-eight documents, consisting of eighteen millions and sixty four thousand eight hundred and seventeen pages of sound Union doctrine.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions, specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth N. H.

MONDAY, DECEMBER 17, 1866.

THE FINANCES.—In reply to a letter from a president of a New York bank, expressing the opinion that the currency could be moderately contracted "so as to preserve a tolerably easy money market, in order to be able to fund the compound Sixes and Seven-Thirties into long gold bearing bonds, between this and the 15th of July, 1868; and that the specie standard could be reached with at least $250,000,000 of plain legal-tender United States notes still outstanding," Mr. McCulloch, under date of Dec. 7, says: "You will receive a copy of my report through the Comptroller of the Currency. It was very hastily written, but is, I think, sound in doctrine. What we need is an increase of labor. If we could have the productive industry of the country in full exercise we would return to specie payments without any very large curtailment of United States notes. My object has been to keep the market steady, and to work back to specie payments without a financial collapse. I shall act in the future as I have in the past, with great caution, and attempt no impracticable thing."

THE COLLIERY EXPLOSIONS in England are fearfully destructive of life.—A dispatch from Barnsley, Thursday night, Dec. 13 says, a third explosion took place at Oaks' Colliery at ten o'clock this morning. There is no longer any hope for those in the pit. They must all be dead.—It is estimated that three hundred and fifty have lost their lives by this terrible catastrophe. The mine is now on fire and the flames have burst from the mouth of the main shaft with great violence. The work of drawing out the bodies of the dead has been suspended and the mine is to be flooded with water. The cause of the accident will probably remain a perpetual mystery.

A dispatch of the same date, from Hanley, says, there was a fearful explosion at noon to-day at Fox-under-the-Hill, near this town, in a coal pit belonging to the North Straffordshire Coal and Iron Company. Two hundred men went into the mine this morning, of whom only thirten have been taken out alive, and they are badly injured. The rest, it is believed, are dead. Up to the present moment forty dead bodies have been brought out. The excitement among the inhabitants is intense. The awful calamities excite the most painful interest througout the Kingdom.—A subscription has been opened in London, by the Lord Mayor, for the suffering families of the victims.

PARIS FASHIONS.—A Paris letter says a great revolution is spoken of in the fashions for the winter. No crinolines, large bonnets, short dresses, are of some of the measures of this proclaimed *coup d' etat!* At present there are still crinolines to be seen, but they are of the most modest dimensions; there are short dresses in the streets, but there are sweeping trains in salons. As to bonnets—there *are* bonnets, and that is all that can be said of the smallest objects that ever have poised on the top of the largest possible chignons! To replace these by large, advancing-fronted bonnets seems an impossible attempt, but from that very reason it will doubtless be attempted.

THE NEW ORLEANS TROUBLES.—The question of the punishment of the rioters of July will come before the Congressional Commission, and the official correspondence between Gov. Wells and Gen. Sheridan will be sustained. In August Governor Wells verbally asked Gen. Sheridan for military assistance to make arrests. Gen. Sheridan did not act. Governor Wells then wrote to Gen. Sheridan requesting a military force. Gen. Sheridan answered that he had no force at his command, but when he had he would comply. The Governor waited, and no action being taken by the General he renewed his request, and stated that unless the General complied he (Wells) would raise six regiments of colored militia to enforce arrests. Gen. Sheridan replied on the 12th of September that "General Orders No. 44 and No. 3, emanating from Gen Grant, are and will be enforced in my command when properly brought before me for the purpose of satisfying the ends of justice." This assurance of Gen. Sheridan has prevented action by Gov. Wells.

☞ In retaliation for the talk of certain leading Paris papers about the downfall of the Pope, the Unita Catholica newspaper of Rome has a few words to say of the fall of the second Napoleonic Empire. It says: "Napoleon the Third has fallen back; he is lost. He has retreated from Poland from fear of Russia; he has retreated from Germany from fear of the needle gun; he has retreated from Mexico from fear of the United States; he has retreated from Rome from fear of Orsini and Mazzini."

GOLD, Saturday, 137 1-2,—sent to Europe $1,025,000.

IN THE U. S. SENATE, Dec. 14, the House bill making appropriations for the fiscal year ending June, 1867, was read three times and passed with amendments.

The Senate voted 22 to 11, to take up the bill admitting Nebraska as a State.

The joint resolution concerning the survey of the Istmus of Darien, Passed.

The yeas and nays were taken on adjournment from December 20 to January 3 for the holidays. Yeas 27, nays 16.

In the HOUSE, Mr. Shellabarger presented a memorial from the loyal people of Louisiana, asking Congress to establish a government under care of U. S. Government for that State. The memorial is signed by the Governor and several thousand electors of Louisiana. Referred to the Select Committee on New Orleans riots.

Mr. Julian introduced a bill providing for civil governments for the Districts lately in revolt against the Government of the United States. The bill provides for temporary territorial governments for all the late rebel States, except Tennessee, suffrage being given to all males without respect to color; and all who have born earms against the United States, or held civil or military office under the Confederacy, are to be inelligible either to hold office or to vote. Referred to the Committee on Reconstruction.

The Committee on Claims reported a joint resolution to pay Ober Nausen & Co., merchants of New York, $60,000 for compound interest notes lost at s a. After discussion the joint rerolution was passed, 76 to 67.

The House proceeded to business on the Speaker's table, and concurred in the Senate amendments to the deficiency bill.

The House took up the Senate bill giving negro suffrage in the District of Columbia, and passed it without discussion under the previous question, by a vote of 118 to 46.

THIRD REGULAR SESSIONS OF CONGRESS.—"The threat of a refusal to recognize the new Congress, on its coming together a year from this time, which the friends of the Presiden were so impudent as to make in his name, before his blatherumskite oratory had destroyed his party, disclosed a weak spot in our system, which Congress are very properly hastening to correct. On Monday a bill was passed by the House which simply provides that each Congress, beginning with the 40th, shall hold three sessions each,—two as now, and another beginning on the 4th of March next and every second year thereafter. It was put through by a vote of 123 to 29, the negative vote being entirely made up of Democrats."

The objection, that New Hampshire, and some other States, choose their Representatives afterwards, is not of great consequence. In the case of New Hampshire it can be altered, after this year, for it is only Statute Law, and not Constitution.—Besides, the Constitution of the U. S. authorizes Congress "to make and alter such regulations at any time,"—and we might be empowered to choose our Representatives on the 22d of February, if Congress so ordain.

THE SHOE TRADE.—The Haverhill Gazette says that there has been an almost entire suspension of the shoe business there during the month of November, the whole sales amounting to only about $265,000.—Government tax assessed is the smallest for any month for three or four years, and the prospect now is that of December will be less. Manufacturers have curtailed their business very materially. There does not appear to be a large stock on hand, but the increased facilities for manufacturing by machinery will enable manufacturers to furnish all that may be needed at short notice. The wages of workmen are somewhat reduced, and they are not much in demand. A reduction of from 15 to 25 per cent. in the wages of the workmen has been made by the shoe manufacturers in North Bridgewater, but not so much in Haverhill.

THE MORMONS TO BE TAKEN IN HAND. On Thursday, a bill of last session, in relation to the Territory of Utah, was called up for reference. Under the simple title of a bill to provide for the selection of grand and petit jurors, it proposes really to abolish polygamy. Among other things, it prohibits the solemnation of matrimony by mormon priests, and commits that office to the Judges of the United States Court in the District. It also annuls a number of laws of the Territory, under which Brigham Young claims possession of lands, watercourses, &c., belonging to the United States. Mr. Howard (Mich.) offerred very important amendments to it, and intends to address the Senate at an early day, in favor of such legislation as will lead to the total abolishment of polygamy.

☞ A Concord (N. C.) correspondent says old California miners pronounce the North Carolina gold mines far superior in wealth to those of California. A number of capitalists had arrived from the North, and many of the mines were being prepared for re opening and working.

For the Chronicle.

THE COMING NOMINATIONS. — The struggle for Congressional nomination in this District waxes warm; candidates multiply, "feelers" abound—and delegates are "sounded" as soon as elected. Of the Delegates thus far elected, Hon. Jacob H. Ela seems to have a large majority, and it is the general impression among well-informed men, that he will receive the nomination. The complexion of the canvas has been materially altered of late, by the announcement of their respective friends, that Gen. Marston and E. A. Rollins will enter the race and complete for the prize.

And let me ask, right here, why is not Gen. Marston in his seat at Washington? The present Congress is one of most important ever assembled, and every republican should be at his post. Gen. Marston will best gain future honors, by performing present duties; and the people who have thrice honored him with a seat in Congress, expect him to fulfill his present obligations, before he asks for more.

Again, how can he consistently ask for re-nomination? His friends said at the last convention "Give us Gen. Marston this time, and we won't ask it again." Had the opponents of Marston been then united on one good strong man, Marston would not have been nominated—a nomination that tested the party fealty and machinery to its utmost—thousands voting for the party candidate under protest. Most judicious men think it hazardous to try that experiment again. The writer was a member of that convention, and knows whereof he affirms.

The plan now is—so I am informed by the *friends of Marston and Rollins*—to get all the delegates possible, and try to hold the balance of power in the convention; and then, by truck and dicker, attempt to cheat the people again. This plan ought to, and I think will, fail—the people will manage their own affairs. Ela and Wheeler are both running on the same platform, and have friends enough to control the convention.

Of the other conventions, the candidates are quite numerous. It is possible that Humphries of Concord may be nominated for Councillor, although according to the old rule, it belongs to Rockingham for another term. For Senators in the 1st District, we have heard mentioned Hon John H. Bailey and E. A. Stevens, Esq., of Portsmouth, Capt. Sanborn of Seabrook, Hon. Wm. B. Small of Newmarket, and G. H. Jenness of Rye—with the chances in favor of Portsmouth, and outside about equal. At the County Convention,—one of the most important—the present incumbents will probably be renominated.

ROCKINGHAM.

NEW YORK CITY ITEMS. —Three of the victims of the fearful fire which occurred Thursday on the 2d avenue, died Friday morning. Their names are Margaret Webb who jumped from a fourth story window, Mr. Wm. T. Sanford and one of his children named Mary.

Business is stagnant. The charge is seen in the prices of freight. Three months ago freight on a barrel to Mobile was a dollar. Now barrels are carried for from twenty five to thirty cents. In the spring the trade opened brisk with the South, but it was a short trade. Those who had ready money bought what they wanted. There is now little money, and few goods are sent South. Vessels go out loaded with gravel and stone as they can get no cargo. The retail trade continues high. But wholesale prices are down. Men who control the retail market prefer to have their goods rot on their hands, rather than sell them at reasonable prices. During the early part of this month the weather was so warm that meats and vegetables perished. The Board of Health on Friday, Dec. 7, went to Washington market and condemned and sent to the dumping ground two tons of poultry. A day or two before the lot could have been sold at a low price to the poor, and made many a family comfortable.

LIVELY TIME ON A STEAMER.—A lively scene occurred on steamer Sorento, at New Orleans from Havre, the other day, the custom house officers having discovered that many passengers had gone into the smuggling business extensively. Some of the females owned up at once, and brought out laces, silks and such other articles of light weight as had been stored away beneath the ample folds of their crinoline, in the depths of capacious side pockets, and not unfrequently from what at first appeared to be the most faultlessly rounded busts. Others, however, were quite stubborn, and had to be talked to rather plainly before they would disgorge. One "palpitating" contained a good-sized piece of silk, a piece of broadcloth, 10 dozen socks, and 6 knives and forks. Several gentlemen were relieved of expensive wrappings. Several thousand dollars worth of goods were confiscated.

A MODEL PAPER.—The Watchman & Reflector, of Boston, has an enviable reputation for ability and enterprise. It has not been surpassed in merit by any religious journal in the country. But it aspires to higher excellence, and proposes to become, with the opening of the New Year, one of the most comprehensive family papers in the world. It will be greatly enlarged, and published on a double sheet: one sheet devoted, as hitherto, to religious matter; the other to literary, social, monetary and agricultural articles. This latter department will be new and peculiar, with a rich variety of contents, embracing articles on current moral, social and political questions; on the leading men of the age in thought and action; reviews of important books; tales for the family circle; agricultural and gardening matters for farmers; and monetary articles and reports of the markets for business men.

No Journal in the world certainly has a more comprehensive plan to meet the wants of all families, and of all the members in a family; and as the editorial staff will consist of nine men, all able and experienced in the several departments, who will be assisted by thirty contributors, many of them having a national reputation, the Watchman & Reflector must become a model family paper, unequalled in merit and in circulation. Its enterprising conductors deserve the largest success. We refer our readers to advertisement in another column.

☞ A Jeremy Diddler, who calls himself Frederic M. Hewitt, M. D. (which in his case means Meanest Dog,) has been stealing instruments from the M. D's. on whom he calls, running up board bills he did not pay, and finally has got into jail in Boston. He is one very ingenious rascal, with a capital—of brass and lies, which will probably give him a home in the State Prison.

MAKING YOUR OWN SOAP

WITH YOUR WASTE GREASE!

Penn'a Salt M'fg Co.'s Renowned

SAPONIFIER:

(Patents of 1st and 8th Feb., 1859,) OR

CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold, cut into bars, which will be fit to use in about ten days.

ALLCOCK'S POROUS PLASTERS.

LAME BACK.

New York, Nov. 23, 1859.

T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CHICK IN THE BACK AND LUMBAGO.

Lyons, N. Y., July 4, 1862.

Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.

Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and cured her in two days of a most distressing pain in her back and loins.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned by every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against patent (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria, and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then, I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

SKATING.—The excessive cold weather which has prevailed for the past few days, caused the ponds to throw off their peaceful and tranquil state of Summer, and don a clear coating of ice, which is hailed with joy by thousands who indulge in skating.—Each afternoon last week might be seen hundreds of both sexes, notwithstanding the intense cold, improving the first for the season. But alas! while the skaters throng to the ponds, so also go the few men with their poles and axes, to cut up the ice for the purpose of spearing a few eels—thus endangering the lives of many people.—Cannot there be a stop put to this nuisance, so that, whether by night or day, we can glide over the ice, and not fear going into eel holes, which, provokingly enough, are generally cut where the best skating is. T.

THE MAGAZINES.—With the incoming year the publishers are offering additional attractions for their readers.

The Holiday number of *Godey's Lady's Book* for January 1867, has a splendid Winter Plate title page; a frontispiece "the First Party;" Fashions for January, six figures; Skating; and patterns in great variety; with a good table of contents.—$3 a year.

ASSAULT AND ROBBERY. — Monday night last Mr. Chapman, a grocer on High street, New Haven, missed his door key. He concluded something was wrong, and having barricaded the door inside he sat down to keep watch. Immediately he was stunned by a blow upon the head from some one who had concealed himself inside, and who, after robbing the store, threw down the barricades and stepped out.

NEW HAMPSHIRE ITEMS.

—— At South Newmarket Saturday morning, Mr. Wm. Stratton was badly hurt by jumping from a freight train in motion.

IMMIGRANTS RETURNING. — Notwithstanding the large number of foreign immigrants who have arrived in this country during the current year, it is stated that considerable numbers are leaving every week for their old European homes. Most of those returning are Irish, who are unable to find satisfactory and remunerative employment in the large cities where they land, and are unwilling to go into the interior. The German immigrants are of a better class and generally have some money, so that they are able to take time in looking for a place to settle. They mostly seek the agricultural regions of the far West, and foreigners who choose to do that will be under no necessity of returning to Europe. There is land enough and employment enough there for all who may come, but the great cities are more than supplied with common and unskilled laborers.

☞ A public house in New York city, called the Compton House was set on fire Friday evening, by an explosion of *gasolene*, and seven persons were badly burnt, some of whom will probably die of their burns.—The fire was soon put out.

☞ The American Ship Owner, Merchant & Planter, is a new weekly advertising paper in New York city, whose object and character are explained by the title.

THE BOARD OF HEALTH IN NEW YORK.—The power of this Board seems to be illimitable. It has been brought before the Courts repeatedly to test the constitutionality of its acts, and in all cases has been sustained. The recent burning of the ferry boat in the East river (says Burleigh) has called the attention of the public to the peril of travelling on our ferry boats as they are now managed. The Board of Health have commenced an investigation into the cause of that disaster. The Ferry Company demurred at that examination, regarding the Board as meddling with what did not belong to them. But an examination of the law showed that they had jurisdiction over the case. It gives the Board power over all that touches the health, the safety or the lives of the people. Badly managed ferry boats, illy conducted steamboats, over-crowded horse cars, are to be overhauled and a new order of things inaugurated.

PRESIDENT JOHNSON IMMORTALIZED. Mr. Rodgers (Dem.) of New Jersey furnished the House an hour's rare entertainment on Wednesday in his speech on the bill in regard to trials for treason. The following figure of speech convulsed the House and galleries with laughter. Pointing to Kelley, Thayer and Wilson, and a few other Radicals, who had been annoying him with interruptions, he said: "Hereafter, in eternity, we will find that God Almighty has written in golden letters, upon the front of the altar of Chistianity, the name of Andrew Johnson—the man who stood by his country in her peril." After he had announced, to quote his words, "the position of the Democratic side of the House to be the position everybody knew it to be," the orator sat down, with the perspiration rolling down his face, amid loud cries of "Go on! Give us several hours more!"

WASHINGTON ITEMS, Saturday Dec. 15.—Perley says "There are indications that Senator Wade will accept amendments to the bills for the admission of Nebraska and Colorado, providing that the inhabitants of these territories shall so change their constitutions that no one shall be deprived of citizenship on account of race or color.

If these amendments are accepted, the Republican Senators will vote solid in favor of the bills. But otherwise there will not be the two-third vote in favor necessary to secure their passage if they are vetoed.

☞ An English farmer was recently sued for wages due a laborer. The farmer—a wealthy land-owner—said he was willing to pay the sum due: but as portions of his field crops, ready for harvest, were burnt because of the pipe the laborer smoked, and which practice had been forbidden on the farm, the jury gave judgement for the farmer; to which the judge said the thanks of insurance companies were due the defendant for testing the question.

☞ It was rumored in London, last Saturday, that the Pope's temporal power has been brought to an end, by an agreement made between the Emperor Napoleon of France and Victor Emanuel the King of Italy.—This must be taken with some grains of allowance. The Pope used to bestow crowns, and depose princes. The has passed away.

Holloway's Pills and Ointment.—Neuralgia—Tic Doloureux.—The doctrine that quinine and carbonate of iron were the only remedies for tic doloreux and nervous disorders, is now exploded. Holloway's Ointment will procure the speediest alleviation of pain, and a few applications suffice for a permanent cure. Thousands who have experienced a radical benefit from its use are prepared to vouch for the correctness of this statement. In gout, rheumatism, lumbago and sciatacs, it is equally efficacious. DR. SCHENCK'S

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 39 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease tending to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an inflamed throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the remotest, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed, by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over half a million bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining the reason why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

NAVY YARDS.

Hon. E. H. Rollins, in the U. S. House of Representatives, on the 10th inst., submitted the following resolution, which was read, considered, and agreed to :—

Resolved, That the Committee on Naval Affairs be instructed to report a bill making the appointment of heads of the different mechanical departments of the various navy yards to be subject to the approval of the Senate.

The power of the Administration to remove faithful, competent and loyal masters at our Navy Yards will be prevented by the bill ordered to be reported.

Several changes have been made at this Naval station, which has a tendency to affect the employees in those departments, and has caused the discharge of Republicans and the employment of men heretofore notorious for their disloyalty.

Congress will protect to its utmost the truly loyal men of this nation, and we are gratified at the timely action of the ever vigilant, and most faithful Representative from the second District, for this movement in this matter.

QUICK WORK.—One afternoon last week, Messrs T. S. Nowell & Co. at their shoe manufactory in this city, were informed by their Boston office that a particular new style of shoe would suit the California market. The senior partner soon drafted patterns, entirely new, and at 11 o'clock the next forenoon, samples of the shoes neatly finished were sent to Boston. A response came next mail in the shape of an extensive order for such shoes for the Pacific coast.

The Kearsage Mills contemplate building a large wing to their establishment in the spring, and are now preparing the plans. The addition will be about 150 feet long and four stories high. These mills will soon commence the manufacture of such goods as will probably enable the directors to declare an annual dividend.

THE FIRST DISTRICT.—We learn that the delegates elected so far stand as follows :

	Ela.	Wheeler.	Marston and others.
Rockingham,	25	3	6
Strafford,	22	19	5
Belknap,	7	1	
Carroll,	4	10	

The Christmas Fair by the Young Ladies of the North Church, resulted in the receipt of about $400—net proceeds about $300. This with what had been previously raised in a similar way, makes a fund of about $1000, which is well invested, and kept in reserve for furnishing a new Vestry for the North Society, when it may be built.

THE NAVAL OFFICE at our Custom House is to be abolished by the Secretary of the Treasury, from and after December 31st, under a law of the last session of Congress vesting that power in him. We know from personal experience that the office is not needed for the public good ; and it might have been abolished twenty-five years ago without loss to anybody but the incumbent, if indeed it was ever needed. There are thousands of offices in this country that should follow this.—*Newburyport Herald.*

It has been abolished at the Portsmouth Custom House. John Knowlton, Esq., who received the appointment three or four months since, will therefore close his term on the 1st of January, 1867.

INTERESTING NATIONAL FACTS.

For the benefit of those who have not had time to wade through the numerous public documents presented to the present session of Congress, we make use of a compilation from the Boston Journal, which facts will be found worth perusing :

The aggregate area of the public lands of the United States, surveyed and unsurveyed, is 1,465,468,800 acres—which is seventeen times the whole surface of Prussia, including her territorial increase since the war with Austria.

Only one of the old Revolutionary pensioners is now living—SAMUEL DOWNING, of Edinburg, Saratoga county, N. Y. He is more than a hundred years old. Of the widows of revolutionary pensioners, who were married before the close of their husband's military service, only two are now living.

The present strength of the regular army is only 38,545, which is nearly 17,000 short of the minimum strength contemplated by law. The volunteer force is now 11,043, colored and white, mostly colored. During the last four years the Government has supplied to disabled soldiers about 4000 legs, 2,240 arms, 9 feet and 55 hands—and it has about 1,000 limbs more to distribute.

We have now an iron-clad fleet of 54 vessels, and there are 7 more to be completed.

The incomes last year paid a revenue of $60,694,135, which was nearly three times the revenue of the year before from the same source. The cigar smokers contributed for the support of the Government $3,474,438, and the chewers and tobacco smokers nearly four times as much. Distilled spirits gave a revenue of $29,196,578 ; and the Commissioner thinks that the Government loses more by evasion under this head than under any other, except possibly that of income.

It is estimated that 150,000 freedmen and their children are now attending school in the Southern States. The issue of rations, on the last of June, to whites and blacks were about equal. The Freedmen's Bureau has now in its possession for distribution 272,251 acres of land besides 228 tracts in Tennessee, and 1119 parcels of town property.

The Government sold during the past year $12,204,729 worth of postage stamps and envelopes. We sent abroad 4,886,916 letters, and received from abroad 4,543,680. We sent nearly three millions of newspapers, and received a little over one million. The number of post offices is 23,828; of which there have been re-opened in the rebellious States 2778. Forty-six cities have the free delivery system, and the plain gives excellent satisfaction.

The number of money-order offices now in operation is 766—about double that of the previous year. Nearly four millions of dollars were thus safely passed through the mails. The average amount of each order was $16,32.

The expenses of Congress last year were $4,034,583 ; of the Executive Department, $5,921,050 ; of the Judiciary, $1,627,349.

Accounts from Buffalo state particularly that several companies of Fenians meet daily or nightly for drill and preparation, and so in other cities. Is another Canada raid resolved upon ? The English have now a formidable regular force, independent of provincial aid ; and a second unsuccessful movement must be more disastrous than the first, as by our neutrality laws we are bound to interfere at the signal of the first *overt* act. The threatening here can only be regarded more troops to Canada, and so weaken the force for the suppression of the home effort. But all appears hopeless—while, though unsuccessful, England may become convinced that all causes,—short of Irish Independence,—of discontent, had better be done away : as by being perpetually obliged by a most expensive armed force to keep a people in subjection, it costs more than the good, in such circumstances, ever to be realized.

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published !

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other house.

Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass., Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

Book Agents Wanted.

Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly recommended by the most celebrated literary and scientific men in the country, including over twenty Presidents of Colleges; is equally interesting and useful to old and young; sells more than its weight in gold to every family or young man. We have sold books faster than any one dare advertise. Publisher, yet more agents are taken for this work, per Agents sent out, than any book we ever sold. In addition to the largest commissions, there are other profits, not to mention personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Worthless agents and successful Agents wanted; others need not apply. For full description and terms, address

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out !

URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference :

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, in the above place, and keeps a variety of Melodeons, Steels, Covers, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, is a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of this community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

CURRENCY CONTRACTION.—Although the new bill proposed by the Ways and Means Committee inclines to a contraction of the currency and agrees generally with the views of Mr. McCulloch as expressed to the members of the Committee, it is still considered very doubtful whether Congress will adopt it. The temper of the House upon the subject of interfering with the present status of the National Banks was plainly seen on Monday, when it voted down summarily several attempts of the kind that were then made. The proposition to add twenty five millions to the currency is not approved by the Currency Committee, and the present belief is that neither contraction nor an equitable distribution of the currency can succeed.

☞ The Salem Gazette says the people of Colorado, in making their constitution, have gone out of their way to establish a system of partial suffrage, founded on color; by that instrument, people of color are forever deprived of the elective franchise. A population which inserts such a clause in its fundamental law, may be left in a territorial condition a little longer to try the ameliorating influence of time in softening prejudices.

BRUTAL.—The shipwreck of a cargo of rum near the mouth of the Mersey, England, a few days ago, led to hideous consequences. The cargo was beached at New Brighton,—a well known bathing place. As the barrels were washed ashore they were broached on the beach, and the bystanders drank till they dropped. One young man died on the spot. Nearly a hundred others suffered desperately from the effects of their debauch. A scene of violence and debauchery ensued such as has never blotted the annals of civilization, and even as described in the most respectable English papers, are utterly unfit for publication in detail.

SUGAR MAKING.—A New Orleans editor has seen a sample of sugar made by the vacuum process, without boneblack.—The granulation is superb.

—A school for poor children having read in the Bible the denunciation against hypocrites who "strain at a gnat and swallow a camel," were afterward examined by the very benevolent patroness, Lady ——, as to their recollections of the chapter.—"What, in particular, was the sin of the Pharisees, children?" asked the lady.—"Atein' camels, my lady," was the prompt reply.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of the unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1835, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

NEW IRONSIDES BURNT.—A Philadelphia dispatch informs us that on Sunday morning, about one o'clock, the iron-plated frigate New Ironsides, lying at League Island, was discovered to be in flames. Owing to the distance from the city, considerable time elapsed before any fire engines reached the spot, and they were able to do but little toward saving the ship. She continued to burn until the afternoon, and is a total loss. No other vessels of the fleet anchored near her were injured. Naval officers are very reticent about the affair, but it is believed the fire was the work of design.

☞ Hon. P. T. Barnum has decided to give one thousand dollars to the Barnum School District of East Bridgeport, Conn., the interest of which is to be devoted annually to the purchase of four gold medals, to be given to the scholars who shall excel in reading, writing, spelling and arithmetic. The same sum, with the same provisions attached, is to be given to the public school in his native village—Bethel, Conn. It will be noticed that these prizes are given to stimulate the scholars in perfecting themselves in the common English branches, which all will agree is a sensible as well as a practical idea. We predict that the contests for the Barnum Gold Prize Medal will be well contested by the scholars each year. We also learn that Mr. Barnum, who is now engaged out West, fulfilling forty-four engagements for his lecture, is to devote the net proceeds of these lectures to beneficent purposes in his native State. As he receives $100 per lecture, the sum realized will be quite a snug one. These gifts are creditable to Mr. Barnum's generosity.

EUROPEAN ITEMS, by Cable. — The King of Italy opened the National Parliament on Saturday. In his opening speech he wished Italy joy of the freedom she had gained. He said that France, faithful to her promises, had withdrawn from Rome, and that the best understanding existed between Italy and Napoleon. He declared that he would respect the territory of the Papal States. He hoped that the moderation of the Italian people, and the wisdom of the Pope, and a spirit of conciliation on both sides, would remove all differences, and said it was his will that the Pope should remain independent in Rome. He concluded by referring to the great and glorious future Italy had before her, and declaring that she must by every means develop her resources to achieve her position as a great nation. The speech of the King was well received by the members of Parliament.

The new Envoy of the Italian Government to Rome, Signor Torelli, has been received at Rome by the Pope.

☞ In Boston, on Saturday forenoon, about 10 o'clock, a man named Edward Smith, who has been for the past nineteen years employed in the bottling department of the establishment of S. S. Pierce & Co., at the corner of Hawkins street, died in his cell in the City Prison. He was committed Friday afternoon for drunkenness and at the time was suffering from delirium tremens, but was not considered dangerously sick, and an hour before his death he appeared to be getting better. The deceased buried his wife nine months since, and leaves four children. The bottling business is a dangerous avocation, whether the bottles are to be emptied or filled.

— The last batch of emigrants at Galveston, Texas, from Bremen, over two hundred in number, were mostly Bohemians, and they are going to Middle Texas.

— The grain crops of Michigan, this year, were better in quality and quantity than ever before, and are estimated to be worth $49,000,000.

— The Evansville Journal chronicles the death of Mr. David Aiken, at the age of eighty years, who walked from New Orleans on a race with the first steamboat that ever came up the river to his place in Warwick county, beating the boat two days.

— Two weeks ago the King of the Belgians was preparing to visit Miramar to have an interview with his sister, the ex-Empress of Mexico—supposed to be dying—and to prepare for Maximilian's reception.

— A four-ox team, owned by Gen. Darius Miller, and driven by a deaf man, were run into by the cars at the Rock Crossing in Middleboro', Mass., on Thursday. Two of the oxen were killed, and another had his jaw and horn broken.

— The Joint Committee on Public Printing have commenced the consideration of a proposed law, which, if enacted, will reduce the enormous expense of printing and binding for the Executive Departments, by simply making them pay therefor from their contingent funds.—Now they order what work they please without limit.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at Fremont next Sabbath.

—— A raid on a clothes line in Rochester cost the thieves $101.80.

—— A new Free Will Baptist church was dedicated at East Rochester on the 7th inst.

—— The Rochester Courier says that the wife of John Hall, Esq, of East Rochester, met with a fall on last Tuesday, which was of quite a serious character.—She was crossing the room with a kettle of hot water, when on tripping her foot, she fell and pot her shoulder out of place, and scalded her person somewhat.

—— The County Farm for Strafford contains 170 acres. During the past season, a handsome 3 story brick house, 42 by 84 feet, has been erected, and is now being finished inside. The house will contain about forty large rooms, is slate roof, with latheran windows, finished in chestnut throughout. It contains in the second story, a large school-room, 25 by 40 feet; and in the first story the room is so divided as to possess all the modern conveniences for cooking, dining, etc. The rooms throughout are heated by two large furnaces located in the basement. The site chosen is on an elevation, somewhat back from and fronting the road, and is in all respects a commanding and healthy location. The house will probably cost $20,000, and is intended to be finished by early spring.

☞ Hon. Salma Hale, of Keene, who died recently at the age of 79, was in early life a printer and editor of the "Farmer's Museum" at Walpole, and afterwards, in 1817-19, a member of Congress from this State. New Hampshire was then entitled to six members, and his colleagues were John F. Parrott of Portsmouth, Nathaniel Upham of Rochester, Josiah Butler of Dover field, Clifton Claggett of Amherst, and Arthur Livermore of Campton—all of them long since deceased. Mr. Hale was afterward a State Senator and a representative in the Legislature from Keene. He was an able writer and in former years a frequent contributor to the press. He was an author of the History of Keene, published in the Collections of the N. H. Historical Society, and also of a premium History of the United States, for many years a popular School History.

ARREST OF AN IMPOSTER.— A confidence man who imposed upon the Episcopal clergymen of Troy, N. Y.. and officiated in their pulpits Sunday Dec. 8, and afterwards decamped with the proceds of several small swindles, was arrested in Providence last Saturday. He had introduced himself as an Episcopal clergyman, pretended to be engaged to preach at one of the churches, ordered clothes, boots and carriages, but was detected before he consummated any extensive swindle. He confesses his Troy operations. He gave the name here of Rev. James L. Dalay, but after his arrest said his real name was Dennis T. Weed, and that he belonged in Hartford, Conn. He is held to await advices from Troy. The Providence police regard him as one of the most accomplished confidence men they ever saw.

☞ A letter from New York city says, freights are so dull and so scarce that our merchants are hauling off their vessels and laying them up, discharging their officers and crew. Leading lines to New Orleans and other places are taken off as they don't pay expenses. The neccessaries of life are very high, and hands are exorbitant in their charges. Longshore men, stevedores and porters will not work under $5 a day. The steamships Fulton and Arago were offered for sale the other day, but no bid was given that justified the disposing of them, and they were withdrawn.

☞ A Toronto, C. W., dispatch says,—Col. Roberts of the Fenian Brotherhood last week sent $200 to Bishop Lynch, to be expended in procuring neccessaries for Father McMahon and other Fenian prisoners in jail here. The money was returned to the Fenian Brotherhood by his Lordship, who declined to have anything to do with the matter.

☞ It will be remembered that General Sickles issued an order in October last, prohibiting corporal punishment in North Carolina, which is within the limits of his military department. Gov. Holden and others have arrived at Washington as a delegation to ask that the laws of North Carolina may be executed, and that convicted criminals may be whipped as heretofore.

☞ Prof. Parke of Andover is to address a Christian Convention in Boston, to-day, Tuesday; the students of the Andover Theological Seminary attend in a body.

☞ Vice is making great strides in New York. An exchange says: "From one to seven abandoned infants are daily found in New York."

— The amount of property owned by negroes in Kentucky and subject to taxation, is $966,956, upon which the tax is $3661.

A LIBERAL FRIEND of the Poor and Destitute.—Burleigh writes from New York these honorable facts.

For several years the newsboys have had kind friends. A commodious room for them to lodge in has been provided in the Sun building. Good beds, warm fires, baths and other comforts await them at night. A Savings Bank has been instituted in connection with the lodgings, and quite respectable sums have been laid up for the little fellows for a rainy day. Some time since the lodging room was entered by a stranger who came to look around. He was pleased with the appearance of things. On going away he made a donation of over $50,000. The unknown donor turned out to be Mr. Rose of Iowa. His brother, just before he died, made a will in which he donated two millions to benefit the poor and neglected children of America. At once several societies claimed the immense legacy. Several at once formed to come under the terms of the will. These claimants were imperious. Had they waited for Mr. Rose he would have done generously by them all. They threw him into court. The court broke the will and threw all the claimants out, and gave Mr. Rose all the property. He resolved to carry out the humane and beneficent aim of his brother. In New York the newsboys, the Home of the Friendless, the Five Points Home of Industry, and other institutions have received large gifts at his hands. It is not every day that a man feels moved to give away $2,000,000 to benefit destitute and neglected children, especially when the property came unexpectedly into his hands.

RUM DISTILLERIES SEIZED.—Twenty distilleries of rum have been seized in New York for violation of the Internal Revenue law. The Evening Post says it is apparent that very extensive frauds are committed by a large proportion of the one to two hundred distilleries of this class in that city, inasmuch as sixty gallons of rum would cost, at the present price of molasses, (which most of them use,) and including the revenue tax of $2 per gallon, with incidental expenses, $202, while it is sold in the market at $1.60 per gallon, or $96 for 60 gallons.

The recent seizure of a large number of distilleries has had the effect of closing nearly every such establishment in the city.

HOLDERS OF STOCK IN AN EXPLODED OIL COMPANY RECOVER BACK THEIR MONEY.—In the Superior Court at Salem, the case of D. G. Batchelder against Ebenezer Seccomb, George L. Newcomb and John Howarth, was decided in favor of the plaintiff. The action was brought to recover back $2000 paid for 20 shares of the Seccomb Oil Company, on the ground that plaintiff was induced to buy the same by false and fraudulent representations of the defendants, as to the real condition of the company. The case has been on trial two days, and has excited considerable interest in Essex county, inasmuch as many of its citizens are supposed to be anxiously awaiting the result of this action as a test of the whole. Verdict for the plaintiff; damages $2,158.67.

☞ The Salem Gazette says the very first sentence of the President's Message shows a very different state of feeling from that which he exhibited when he was denouncing the national legislature as a "rump," and "a body hanging on the verge of the government," and his tools were threatening a revolutionary *coup d' etat.*— The sentence with which the Message begins is as follows: "After a brief interval, the Congress of the United States, resumes," &c. It is hardly in the power of language to give a stronger indorsement to the legality of Congress than is done by the President in this sentence.

TOBACCO PRICES TUMBLING. — The Hartford Times says "there are few sales at present of Connecticut seed-leaf. A great quantity has accumulated—many growers having held on to their stock of three years ago for higher prices. They have been offered 60 cents a pound for that, and now—they can't get half that! We doubt if there are any sales at 30 now. Prices may go up again, but it is doubtful."

AN EXPENSIVE LEG.—In the New York Supreme Court, circuit, on Wednesday, a jury rendered a verdict for Mrs. Caroline Rexford against the Seventh Avenue Railroad Company in the sum of $7500, for the loss of a limb, arising from the negligence of an employee of the Company.

☞ In Haverill, Mass., two children of the late Mr. A. G. Towle, unlocked a room in which they found a loaded carbine, which supposing it to be unloaded, they commenced playing with, and finally placed a cap upon the nipple, when one little girl snapped the cap, exploding, and sending the charge completely through the head of her sister, wounding her so shockingly that she lived but about an hour. The girl shot was nine years old. The sister who shot her was 12.

☞ On Friday night, at Oxford, Me., the new brick mill of the Robinson Manufacturing Company, was burnt. The old mill was also considerably damaged. They were owned by H. J. Libby & Co., Portland, and Mr. Robinson, the manager.—Loss $150,000; insured $145,000 on both mills, of which $110,000 was on the new mill.

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.
T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.
CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.
Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.
Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 25d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.
Sold by all Druggists. n29—dawlm

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the verdict returned from every quarter, by the customers who buy half and half bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to directions, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."
The Life Drops are carefully prepared by

CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & HODGES, Boston, Mass:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,

HOME VIEWS.—The extent to which the photographer has laid the lovers of the beautiful and picturesque in nature under obligations, is hardly to be over-rated. Penetrating the fastnesses of the wilderness, undergoing all the vicissitudes of extreme heat and cold, photographers have known every discomfort, that they might give to the public life-like images of all that is most worthy of study and admiration in the wonderful picture galleries of Nature's production.

Davis Brothers, of this city, have been especially fortunate in their happy selection of local views. Besides their numerous views in the city proper, they have gathered a full illustrated manual of our Navy Yard, a charming series of views from the quaint scenery at the Isles of Shoals, views of our harbor fortifications, and are now working up some very grand pictures of the rugged scenery in the vicinity of Cape Neddick. A set of their stereoscopic views possesses rare interest for one who has lived in this locality.

NAVAL.—The following officers have been ordered to the Pawnee, in addition to those we have mentioned heretofore:

Surgeon—T. W. Leach.
Asst. Surgeon—H. N. Beaumont.
Chief Engineer—Geo. S. Bright.
Second Asst. Engineers—John F. Bingham, George M. Greene, William H. Mintzer.
Midshipmen—George A. Norris, James E. Morse, George A. Baldy, Frank Courtis.
Boatswain—Herman Peters.
Sailmaker—B. B. Blydenburg.

☞ A French writer has recently given some account of the great markets of Paris, showing the gigantic labor of feeding that hydra-headed monster, a great city; but who shall portray the voracious, all-devouring appetite of that more insatiate creature, the news-reading public? Every morning it demands a paper well filled with gleanings from the uttermost parts of the earth,—with disaster by sea and peril by land, with man's misdeeds and man's beneficence, with fires, fairs and politics, stocks, stories and poetry, and, most of all, it demands "local."

Now, in the absence of "local," what is the reporter to do? 'Twould be easy enough to follow the example of the Irish editor, and "kill a child at Chicago" to fill one column, and "contradict the report" in the next; but to apply the same rule to the local column, would soon break the reporter. So that individual scats himself to "tell stories," in different ways, in the absence of local news of interest.

Some months since, while workmen were blasting down the ledge at Fort Constitution, made necessary by the construction of the new fortifications there, they "missed a blast," as it is technically termed. Two sons of the "ould sod" were set to draw the charge, which was supposed to be wet. While they were removing the powder, a dispute arose between them as to whether the powder would burn, and one of them, to settle the matter, lighted a match and applied it to the powder they had taken out and placed on the top of the rock. Fizzing and flashing, the fire followed the scattered grains of powder along the rock and down into the hole that had been drilled. At some point the fire found a body of dry powder (it is supposed in a seam in the rock), which it exploded with a loud report, tearing off great masses of the ledge, and throwing the investigators about twenty feet. They landed unhurt, and went to report progress, but were discharged for their carelessness.

The fact that a young gentleman of this city who essayed to kick a cat that he saw upon his steps one night not long since, was made sorrowfully aware that 'twas not a cat, reminds us of an incident that occurred in Ipswich a few years since. A couple driving home from church one Sabbath, happened to run over a skunk, and the silk dress of the lady became rather more highly perfumed than was agreeable. In those days a plurality of silk dresses was a rare luxury for a New England farmer's wife,—so when an invitation came, weeks after, for this same couple to dine at a house some miles distant, the careful wife said she would wear her silk and "air it." Arrived at the house and seated at the hospitable board, with close-shut windows and glowing fire, night blooming cereus was put to shame by the strength of the odor emitted by the unfortunate silk. The number of guests was large, and one finally plucked up courage to ask the host if he was much troubled with skunks. "Well, there," said the offender, explaining the accident that had occurred, "I do think it must be my silk; but I thought it was such a good, breezy day, I'd wear it out and air it!"

☞ Dr. Dessauer, long and favorably known in this city as an optician, is now at the Franklin House, and those wishing any thing in his line will do well to call at once, as he will only remain until Friday evening. See advertisement.

☞ Rev. E. G. Stockman will lecture at the Pearl Street Church on Wednesday evening, at half-past 7 o'clock, in behalf of the Freedmen's Mission.

POLICE COURT, Dec. 17.—Wentworth Manson, on Saturday night at 10 o'clock, made an assault on Frank Brown, stabbing him in the groin with an ugly looking knife. He was arraigned on a charge of assault with intent to kill. He was ordered to recognize in $600 for his appearance at the April term of the S. J. Court, failing of which he was committed to jail. Eight witnesses were held in $50 each.

The case of Charles E. Johnson *et als.*, on charge of infanticide, came up, and was continued to Dec. 28, at 10 o'clock A. M. The defendants were severally ordered to give bonds in $5000 for their appearance.

GOLD, Monday, 138 1-4.

☞ The official returns of Wisconsin give the Republican governor 79,323 votes, and the democratic candidate 55,416.

☞ A great snow storm occurred over a large tract of our Western and Southwestern States, on Friday and Saturday. Our share of it came along on Sunday night, and left 8 or 10 inches of snow on the ground.

☞ Philharmonic Rehearsal, Tuesday evening, at half-past 7. Both books to be used.

Holloway's Pills and Ointment.—Neuralgia—The Lieutenant.—The doctrine that quinine and carbonate of iron were the only remedies for tic doloreux and nervous disorders, is now exploded. Holloway's Ointment will procure the speediest alleviation of pain, and a few applications suffice for a permanent cure. Thousands who have experienced this result from its use are prepared to vouch for the correctness of this statement. In gout, rheumatism, lumbago and sciatica, it is equally efficacious. Sold by all Druggists. d15—dawlw

THE HOLIDAYS.—The gayest season of the entire year is now approaching, but whilst we are enjoying this festive season let us not forget that in time of health we must always be prepared for disease. Coughs, colds, sore throat, croup, asthma and whooping Cough are speedily cured by Coe's Cough Balsam. Whilst dyspepsia, constipation, sick headache, sour stomach, indigestion—the most prolific source of ill health, is certainly cured by the timely use of Coe's Dyspepsia Cure. d18—1w

IT IS OF GREAT IMPORTANCE that every one should know where to purchase superior walking dress gaiters or slippers. We know of no better place than T. E. MOSELEY & CO.'S, Summer street, Boston. 31

DR. SCHENCK'S NEW OFFICE.
☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, and for a thorough examination with his Respirometer the charge is five dollars.
Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.
His medicines have full directions, so any one can take them without seeing him, but if they live near and can well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, but some lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.
He keeps a full supply of medicines at his rooms, which can be had at all times.
Price of the *Pulmonic Syrup* and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.
GEO. C. GOODWIN & CO., 38 Hanover street, Boston, General Wholesale Agents for the New England States. W n14—dawly no2

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the bites of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, are powerful to cure Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their healthy action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any mineral drug. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.
The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache, Foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.
Prepared by DR. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o20—2m

From the Portsmouth Journal

"JEWELS FROM THE QUARRY OF THE MIND," &c. Among the many books published at this holiday season few are better adapted for presentation than the elegantly bound and gilt edged edition of Mr. James H. Head's poetical collection which the publishers have just issued. That the work is popular is evident from the fact that this is the third edition. It is a work which lying upon the centre table will be taken up and perused at any moment's leisure with all the pleasure which one feels in recalling the choice poetical tit-bits which an already stored in the memory; and the collection is so good that the book is very useful in seeking for those half forgotten quotations which one in writing sometimes vainly strives to recall at the right moment. For sale at all the bookstores.

"THE POETS OF PORTSMOUTH."—As a Christmas or New Year's present, the same may be said of this book as of Mr. Head's. They go side by sidef and with its peculiar attractions, this is particularly adapted for sending to friends abroad as a memento of the *alma mater* of thousands of wanderers from dear old Strawberry Bank; for Portsmouth is the cherished mother of children who have scattered from one extreme of the world to another, until we can look for familiar faces in all the four continents, and in the Pacific islands To those who are thus scattered, whatever relates to the scenes of childhood and youth, will be held n that estimation which can hardly be appreciated by those who have the old place always before them. The booksellers all have the work.

OTHER LOCAL PRESENTATION MEMORIALS.—The correct and nicely finished Photographs of different localities of Portsmouth, which Messrs. Davis Brothers have taken, as well as those by Mr. Meinerth have a like interest for those who are away, and commend themselves to the notice of the public. Messrs. Davis at their rooms, will be pleased to exhibit their collection, and Mr. Meinerth's may be had of Mr. J. H. Foster.

ABOUT BEEF AND OWLS.—We would call the attention of the beef loving public to the advertisement of Messrs. James B. Currier & Co. It is of the first importance in marketing that one is well served; secondly, that he is cheaply served; and thirdly that he is politely served. Indeed, politeness is so much a cardinal virtue that it hides a multitude of sins. The customers of the new store will find the new firm in the practice of the above mentioned virtues, and may well depend upon Mr. Langley for a good selection of choice bits. So much by way of introduction. For sometime past a horned owl, rejoicing in the cognomen of "Jack," has stood solitary sentinel just inside the door of this store, so still during the day as to gain the reputation of being a stuffed bird. A little investigation, however, develops the fact that his only stuffing is good fresh meat. He is a handsome fellow, with two feathery horns, which give him a sprightly appearance, and he knows pretty well who feels him. A few days ago a snow owl just taken from the woods was perched on the other side of the door. Though not fastened they make no attempt to escape, probably feeling like lucky politicians in good offices which they mean to keep if possible, whatever "policy" it may be necessary for them to adopt. The pair is quite a curiosity.

BACK AGAIN.—Congress Block is again receiving its old tenants. Mr. Simons to-day opens again his store at his old stand No. 1,—which is much improved by the fire,—and in addition to a new stock of Books and Stationary, and a new Circulating Library, he has a fine display of Christmas and New Year Presents. The whole appearance is new and fresh and in so good taste, that it does one good to look in—and then so cordial is the welcome—"*State Visitor.*"

Mr. PRESTON'S store, No. 2, is rapidly completing and will be fit for occupancy before Christmas. The style of finish is a model, unsurpassed by that of any store in New Hampshire. Any one not very sick, will if he has any taste, feel much better by a visit to this new store.

A company of marines detailed from the Brooklyn navy yard for duty on board the Minnesota now fitting for sea at our yard, arrived here on Thursday of last week. One of the number while under the influence of intense religious excitement jumped overboard from the Newport boat and was drowned.

A NEW MONTHLY FOR THE CHILDREN.—The very youngest readers—the little four years folks—have a rare treat in an illustrated magazine called "The Nursery" which has just appeared. It is edited by Fanny P. Seavens, and evinces a rare faculty of writing for the amusement of young children, and it promises to become very popular. The first number is out in season for a christmas or new year's presents to some little favorite. It may be had of Mr. J. H. Foster in this city, or of A. Williams & Co. Boston, publishers.

It has been proposed to change the period of the meeting of the next Congress from Dec. 1, to March the 4th next. Should this prevail New Hampshire cannot be represented in the House, as her Representatives cannot be chosen before the second Tuesday, and the votes are not returnable for several weeks.

ROME, Dec. 11.—The man who gave the information which led to the arrest of Surratt is a French Canadian, named St. Marie. He was formerly a Union soldier, and afterward served in the Papal Zouaves. Both he and Surratt were in love with the same lady in Washington, and St. Marie betrayed Surratt through jealousy. He says Surratt told him that Mr. Lincoln's assassination was a preconcerted plot, that he (Surratt) carried direct from Jeff. Davis' Cabinet at Richmond the principal details of the plot to Washington, and that the assassination was not only in accordance with the desire of Davis' Cabinet, but was done by their directions and orders.

MILD DECEMBER.—Farmers were engaged in ploughing at South Danvers on Sunday, and were ploughing in dandelions in full bloom. Farmers in Greenland were ploughing last week.

GOOD PIGS.—Mr. Ambrose Wiggin of Stratham has slaughtered four pigs, eight months old, weighing 290, 340, 340 and 350 lbs. making 1350 lbs. Pretty well.

SNOW.—A letter from Newbury, Vt., on the Connecticut, dated Dec. 5, says Moosehillock Mt. is covered with a glittering white mantle of snow a thousand feet below its summit.

NEW ADVERTISEMENTS.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents more liberal commission than any other company. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass., Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

Book Agents Wanted.
Now ready for delivery, a great National work—hot political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary and scientific men in the country, including over twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more than its weight in gold to every family or young person; sold by subscription only; has one Subscription Publisher, yet more subscribers are taken for this work, per Agents sent out, than any book ever published. In addition to the largest commission, we pay freights, leaving nothing but personal expenses; also a bonus to Agents of fifty dollars in Gold; one canvasser has by J. W. BOUTON, 416 Broome St., New York sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

The Subscriber, formerly with S. F. COB Co., would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order.
LAMPS altered and repaired.
Having made arrangements with Prof. W. K. DAYTON, we have the excellent agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superiority of these pianos over those long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years of Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale at reasonable prices.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Dayton, the well known teacher of MUSIC, adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

MADAME ZADOC PORTER'S
Curative Cougn Balsam,
PRICE, 25 AND 50 CENTS PER BOTTLE.
The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c. the World has ever produced.
Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

The CURATIVE BALSAM is Warranted, if used according to Directions, to CURE in all cases, Coughs, Colds, Croup, Whooping Cough, Asthma, and all affections of the Throat and Lungs.
Madame Zadoc Porter's Balsam is a Powerful TONIC, TABLE EXPECTORANT, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.
Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.
It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body.
It loosens the phlegm, induces free spitting, and will be found very grateful to the taste. As is not a violent remedy, but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.
If you have a Cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold brings it in the reach of every one, that they may always keep it convenient for use.
The lowest price of a 25 cent bottle will often prove to be worth one hundred times its cost.
Sold by all Druggists.

☞ Some statistical genius declares that "more money is expended in the United States for sugars than for all the common schools in the country." A wag, who is undoubtedly a lover of the weed, seeing the statement going though the papers, gets off the following: "It has been calculated that the cost of washing linen that might just as well be worn two days longer, amounts to enough in this country to more than defray the expenses of the American board of Foreign Missions. The expenses of buttons on the backs of coats, where they are of no earthly use, is equal to the support of all our orphan asylums. The value of tails to dress coats, (of no value in reality for warmth or convenience,) is actually greater that than the cost of our excellent system of common schools. It is estimated that the value of old boots thrown aside, which might have been worn at least a day longer, is more than enough to buy a flannel night gown for every baby in the land. Also that the cost of the extra inch on the tall shirt collars of our young men is equal to the sum necessary to put a Bible in the hands of every Patagonian giant."

A CURIOUS SUICIDE.—Some time since it was announced that a man in Titusville, Pa., committed suicide for the strange reason that he had discovered he was his own grandfather. Leaving a dying statement, explaining this singular circumstance, he says: "I married a widow who had a grown-up daughter. My father visited our house very often, fell in love with my step daughter and married her. So my father became my son-in-law, and my step-daughter my mother, because she was my father's wife. Some time afterward my wife had a son; he was my father's brother-in-law, and my uncle, for he was the brother of my stepmother. My father's wife—*i. e.*, my step daughter—had also a son; he was of course, my brother, and in the meantime, my grandchild, for he was the son of my daughter. My wife was my grandmother, because she was my mother's mother. I was my wife's husband and grandchild at the same time. And as the husband of a person's grandmother, I was my own grandfather." That this was a strange condition of things must be confessed, but we can see no possible reason why it should cause a man to commit suicide.

— General bankruptcy is expected throughout Mississippi. West Tennessee and Arkansas are in a better financial condition, but will see hard times. Great bargains can be had in land this winter.

— One of the sufferers in the Dartmoor (British) prison during the war of 1812–14 is now living in Newark, Vt. His name is Samuel Drew. He is poor, and has never had a pension.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished for Ten Dollars. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any other agency in the country. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, DECEMBER 19, 1866.

☞ The New York papers of Monday evening inform us that "Patrick Farrell, a well known burglar, died Monday morning from a pistol shot fired by a policeman Sunday morning. The deceased was a desperate character, and was under an indictment for illegal registry, it having been proved that at the recent election he registered himself in more than thirty different districts." He was then, it seems, not only a burglar, but also a well-known politician. It is hardly necessary to ask what party he belonged to; and we run no risk in guessing that he helped to swell the city majority for Hoffman & Co., and the Policy.

☞ At Washington, on Monday, in the Supreme Court, opinions were delivered in the Indiana Conspiracy case, which was argued at the last term by Gen. Butler and others. The majority of the Court decided military tribunals for the trial of civilians unconstitutional. Chief Justice Chase delivered the dissenting opinion for himself, Judges Swayne, Wayne and Miller. This majority of *one*, makes a decision more *political* and *partisan*, than legal, as the famous Dred Scott decision was. There is a copperhead majority of one on the bench: and John P. Hale saw how it stood, when he moved, in the Senate, to *abolish* the U. S. Supreme Court, doubtless intending to move afterwards for a *reconstructed* Court. His motion met with no favor,—and the Court is such as we find it above.

☞ A Chicago dispatch of Dec. 17 says: Five convicts escaped from the penitentiary at Joliet on Thursday evening last, by getting into the sewer and creeping into liberty. The heavy iron which protected the sewer, both inside where they entered and outside where they got out, had been sawed off and taken out by some persons outside of the walls. Pursuit was made, but the fugitives were not caught. There are now 1092 convicts in the penitentiary, an increase of 500 in two years.

CONVENTION OF SOUTHERN LOYALISTS. The Southern loyalists met at Washington Monday night, Judge Durant of Louisiana presiding. Delegates were present from every non-constructed State, with one exception. After a full interchange of opinion a programme was adopted which contemplates an entire abolition of the present State governments in the South, and their reconstruction with the loyal element. Judge George Paschal of Texas was appointed to draft a memorial to Congress embodying these points.

THE LATEST ROBBERY IN NEW YORK. The robbery of John Monroe & Co. in New York occurred in this manner. On Wednesday last they sent a young man in their employ, about sixteen years of age, but whose name is at present withheld, to deposit in a certain bank a $10,000 gold bond. It is alleged that in place of the young man proceeding to the bank he went to a saloon near by, where he made a false entry of the deposit in the bank book, forging the name of the receiving teller. He then returned to the office and returned the bank book and soon after left the establishment, since which time nothing has been seen or heard of him. On Saturday, on sending again to the bank, the forgery was discovered.

☞ There are rumors that Maximilian has negotiated an arrangement with Gen. Sherman by which the French creditors are to be paid by the sale of a portion of Northern Mexico and of Southern California to the United States. The President stated that he had no information on this subject, his latest advices from Gen. Sherman being a letter dated at Brazos, December 7, which simply announced his arrival there on the Susquehanna.

— One who is half man, half dog, will bow to the rich, and bow-wow to the poor.

— More than twenty-five ships are now on their way to Boston from the East Indies.

— A lad named Graham was killed the other day on Staten Island. He was playing base ball, and was struck on the head with the bat.

— A gentleman at Indianola, Texas, engaged in canning oysters, turtle and game for foreign markets, recently made a turtle soup for the whole city, doing it by steam.

— A boy six years of age, son of widow Heath, was so severely bitten in the throat by a horse in Thetford, Vt., on the 8th inst., that he died in a few hours.

— Advices from Fort Scott, Kansas, state that over 10,000 head of cattle have passed there during the last ten days, going to market.

— A horse in Bridgeport, Conn., swallowed a carrot the other day, which stuck in the orifice of the stomach and remained nearly thirty hours. A physician removed the vegetable with an instrument three and a half feet long, made of wire covered with leather.

NEW HAMPSHIRE ITEMS.

——The store of E. H. Nutter, on the Landing, had been broken into, and four valuable watches stolen.

—— Arthur Clark, of Sandwich, Mass., was drowned at Exeter, Wednesday, last week, while skating.

—— In Dover, the City Hall has been covered by a temporary roof to protect the interior till spring, when plans will be ready for the entire reconstruction of the building.

—— There was an elopement in Freedom, the other day; the date is not given, but it was the day after the young lady concerned had been whipped by her father for "sitting up nights" with her lover.

—— We learn from the last Morning Star that at a meeting of the corporators of the F. B. Printing Establishment, on the 5th inst., Rev. Silas Curtis was elected Treasurer and Financial Agent, in place of Mr. Burr, deceased, and Rev. G. T. Day Editor of the Star. Mr Day accepted the office of Editor, and has already begun his work.

—— We learn from the Manchester Mirror that Dexter and Horace Locke, sons of Mr. Prescott Locke of Epsom, while riding down hill Saturday night, the harness giving way, letting the carriage upon the horse and causing him to run, were thrown out of the wagon. Horace received injuries upon the head that caused instant death. Dexter, it is feared, is fatally injured in the back. The latter is twenty-eight and the former twenty-three years old.

NEW BOOKS.

OUTWARD BOUND, or YOUNG AMERICA AFLOAT;—A story of travel and adventure; by Wm. T. Adams (Oliver Optic), one of the best books by that author, is just published in a neat volume of 336 pages, by Lee & Shepard, Boston, and for sale in this city at J. H. Foster's Bookstore. The volume is finely illustrated, and will be a great favorite with the Boys, for whose amusement, instruction and improvement it is intended.

FIRST LESSONS IN READING, by the same publishers, is A New Method of Teaching the Reading of English,—by which the ear is trained to discriminate the elementary sounds of words, and the eye to recognize the signs used for these sounds in the established orthography. The authors are Richard Soule, associate editor of Worcester's Dictionary, and William A. Wheeler, associate editor of Webster's. It is but a little book—nevertheless it is worthy of examination by teachers.

THE LADY'S ALMANAC for 1867 appears in its usual fine binding and gold edges, having as a leading feature the Game of Croquet, according to the standard recently adapted by a select committee of experts in England. It is also replete with useful and interesting miscellany. The book is issued by George Coolidge, the author, published by Lee & Shepard, and for sale in Portsmouth by J. H. Foster.

MORNING BY MORNING, or Daily Readings for the Family or Closet: by C. H. Spurgeon. New York—published by Sheldon & Co.; sold by J. H. Foster, Portsmouth. This is a volume of 408 pages, and contains 366 Morning Readings, of a page each, of Spurgeon's best thoughts; also Hymns for Daily Morning Worship for 6 months, and Sabbath Morning Hymns for the same time.

SUNNYBANK—by Marion Harland.—Sheldon & Co., New York, publishers. A Novel of 415 pages, from the pen of an authoress whose name now gives currency to her new works as they appear, and whose admirers will not be disappointed in this. It is for sale by Joseph H. Foster.

WHO BREAKS PAYS, by the author of "Cousin Stella," &c. 302 pages. SKIRMISHING, by the same author. 269 pages. Two interesting stories, worthy the reading of intellectual people, neatly bound in cloth. These books will have a wide popularity. Published by Leypoldt & Holt, 451 Broome street, New York, and for sale in this city by J. H. Foster.

☞ The Christian Convention which met in Boston on Tuesday, was very fully attended;—a large proportion of the congregation were men. The exercises were similar to those in conference meetings generally. Bishop Eastburn offered the opening prayer of the Convention proper—and the Discussion of the forenoon was on the question, "How can the laity in the Church of Christ be made more serviceable?"

— When is literary work like smoke? When it comes in volumes.

IN THE U. S. SENATE, Monday, the death of Senator Wright was noticed in the usual way.

The House adopted a resolution directing the select committee on the New Orleans riots to investigate the alleged frauds in the New Orleans Custom House, and the appointment of rebels therein to the exclusion of Union men, and into all matters connected with the administration of affairs in that Custom House. The House also

Resolved, That the House of Representatives of the Congress of the United States will give unfaltering support to the Executive Department of the Government to vindicate the time-honored policy of this Republic against foreign armed intervention, which tends to the destruction of constitutional liberty, on this continent, and especially commend the tone of the National voice in reference to the Republic of Mexico.

Several attempts to unsettle the National Banks and the currency, were voted down.

Mr. Paine offered a resolution for a committee of inquiry into the seizure of Southern lands. The rules were suspended by a vote of 104 ayes to 28 nays, and the resolution adopted.

Mr. Farnsworth offered a resolution making it the duty of the Postmaster General to submit for inspection all papers and recommendations relating to postmasters, &c. Efforts were made to amend so as to include all the Departments. The House refused to table the resolution by a vote of 21 yeas to 116 nays.

THE BELLS OF MOSCOW.—It is said there are 370 Churches in Moscow,—and that on the occasion of the late Royal Wedding there, all the bells rung a peal at the same time!

A WONDERFUL MICROSCOPE.—The editor of the New York Sunday School Advocate—Rev. Daniel Wise, D. D. says:

"The simplicity, cheapness and great magnifying power of the celebrated Craig Microscope struck me with surprise. Then I was examining a fly's leg by its aid, and was struck with wonder at the skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that this microscope magnified one hundred diameters, or ten thousand times, and could be bought for $2.50, I thought it was one of the many humbugs of the hour, for I had paid $20 for a microscope not long before. But now I find it to be a really valuable instrument, which I should like to see largely introduced into the families of our readers in place of the manifold useless toys which please for an hour and then are destroyed. This microscope would both amuse and instruct them, and I advise every boy and girl who wishes to know the wonders which lie in little things, to save his money until he has $2.75," and send it to GEORGE MEADE, Racine, Wisconsin, and you will promptly receive this beautiful new microscope by mail, postage paid.

NEW MUSIC.—We have received from Messrs. Wm. Hall & Son, 543 Broadway, New York, the following new and popular music:

"My Bud in Heaven," ballad, words by Spencer W. Cone, music by Stephen Massett, This is one of the most beautiful ballads ever written by this composer and is full of tender sadness. Price 35 cts.

Mrs. Howard Paul's great "Sneezing Song." Price 35 cts. These two songs are sung with great applause by Mrs. Paul at her popular entertainments.

"Meet me Darling One to-night," ballad, by M. Heller. Price 30 cts. This is one of the best songs ever written by this well-known composer, and is sung nightly with great applause.

"O Lovely Blossom," Valse Chansonnett, written expressly for Madame Parepa and sung by her with immense success; composed by C. Fradel. Price 50 cts.

"Sea Breeze Galop," by Paul Stionhagen. Price 50 cts. This talented composer is the best arranger of Dance Music in this country, and all his compositions are very popular. "Souvenir of Happy Hours," a collection of 24 pieces arranged as Duetts, for the Violin and Piano, consisting of Opera Gems, Quadrilles, Polkas, Redowas, Mazurkas, Scottisches, Marches, Gallops, &c. &c., by J. J. Watson. Price each 75 cts. Any of the above pices will be sent by mail post paid on receipt of the marked prices. Wm. Hall & Son, 543 Broadway, New York.

Holloway's Pills and Ointment.—Neuralgia—Tic Doloureux.—The doctrine that quinine and carbonate of iron were the only remedies for tic doloreux and nervous disorders, is now exploded. Holloway's Ointment will procure the speediest alleviation of pain, and a few applications suffice for a permanent cure. Thousands who have experienced a radical benefit from its use are prepared to vouch for the correctness of this statement. In gout, rheumatism, lumbago and sciatica, it is equally efficacious. Sold by all Druggists. d15—dawlw

THE HOLIDAYS.—The gayest season of the entire year is now approaching, but whilst we are enjoying this festive season let us not forget that in time of health we must always be prepared for disease. Coughs, colds, sore throat, croup, asthma and whooping Cough are speedily cured by Coe's Cough Balsam. Whilst dyspepsia, constipation, sick headache, sour stomach, indigestion—the most prolific source of ill health, is certainly cured by the timely use of Coe's Dyspepsia Cure. d18—1w

Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.
It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French), causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and relieved in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."
The Life Drops are carefully prepared by

Smolander's Extract of BUCHU!
Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for
Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility, arising from excesses of any kind. Read the following TESTIMONY of a CITY MISSIONARY:
CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass.:
I feel it a duty I owe to you, and to suffering humanity, to state that I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,
City Missionary.

☞ The Portland Transcript has the following paragraph, which (some other paper says) "contains some painful truths for newspaper men:"

"Under the present prices of printing paper, newspapers are published wholly for the benefit of paper makers. Their demands swallow all the profits, and leave editors and publishers minus. We see no remedy for this state of things but for them to share the burden with the public. It isn't fair to put the load all on the publishers' shoulders. Considering the prices of paper and labor, the present rates of advertising and subscription are preposterously low. Nobody is now making any money out of the business except the paper makers;—editors, publishers, printers, are all slaving for their benefit. If the public don't come to the rescue and cheerfully assume their fair share of the burden, publishers many as well as hang up—and let the paper makers see how they can get along with them."

Now this sort of talk is sheer nonsense—begging the Portland Transcript's pardon.—The only way is, for newspaper publishers to do as other folks do—charge a fair profit on all their work. If white paper costs high, it must sell still higher when printed. And customers will pay no more than they must, and just as little as they can,—for anything—be it a newspaper or what not. And the sky will fall and we printers can catch plenty of larks, long before "the public will come to the rescue and assume their fair share of publishers' burdens." Why, man, the public have enough to do to bear their own burdens. Why, don't *you*, Mr. Transcript, rush to the rescue of any other poor devil of a tradesman whom you see is going to fail?

No, no, Bro. Transcript—don't you lay all the blame on the paper makers. We have yet to see any evidence that they get more profit on their business than they ought to have, or charge higher prices than other folks would like to get for their goods. The real trouble is in the very low price of newspapers, for which of course printers alone are to blame. We have always maintained that papers are the cheapest articles in the market; and the craft (though we don't see why they style themselves "craft," seeing that not one in ten of them has handicraft sufficient to make both ends meet,)—we say the profession always seem to strive which shall work the cheapest, instead of who shall make most money, as other folks do.

As to the case in hand—the Portland Transcript, as every body knows, is really one of the very best miscellaneous and literary papers in the land. But it is published at $2. per year, or 5 cts. single copy, when the price should be at least $3 per year, and 7 cts. a copy. No wonder the publisher cries hard times. But he, with all his talent—and we know him well, and take pleasure in saying he is one of the best fellows in the world—he is like a good many other people, and calls for aid from others, before he has tried to help himself. Let him just put up the price of his paper to something nearer what it is worth, *and what it will bring* too; and if he don't find it pay better, we will be bound to make up for all loss caused by following our advice.

We have had some experience in this matter ourselves. When things began to go up, we were foolish enough to wait a year before increasing the price of our paper,—whereby we lost a cool $1200, which the public, (well as they have always done for us) have never yet rushed to the rescue and brought us back, at least not in special form;—and since that, we have always put our prices where they would pay us a fair profit—and we don't see but our subscribers pay our $8 now, as readily as $4 years ago. And really the latter was the more profitable rate for us. But we are not finding any fault,—nor shall we ever, but when our business don't pay, we propose to quit. And when we find our prices are not high enough, we must put them higher, that is all; though we should, rather, rejoice to see specie payments restored, and all hands "come down," but not "by the run." All of which is most respectfully submitted; to our friends of the Portland Transcript or any other man. But don't, gentlemen, pay don't make paupers or public hangers on, of newspaper men. Let them be judged and treated just like other business men. F.

P. S.—Since writing the above, copies of the Boston True Flag and Wide World newspapers lying before us, we notice one is 6 and the other 7 cents per copy—the Flag being the cheaper, though much the older, and we presume stronger concern. And a newsdealer says he finds the higher price is no hindrance to its sale, in the case of the Wide World. If "the laborer is worthy of his hire," why should not such papers be at the Portland Transcript be well supported?

☞ We are indebted to Rev. Mr. Medbery, City Missionary, for a liberal sample of the very nice Celery which he grows in his garden on Market street. Mr. M. is a good gardener, as well as most faithful and devoted public servant.

☞ Rev. E. G. Stockman will lecture at the Pearl Street Church this (Wednesday) evening, at half-past 7 o'clock, in behalf of the Freedmen's Mission. Mr. S. speaks from experience and observation, and his lectures are very able.

POLICE COURT, Dec. 18.—Hannah Norton, for disturbing the tranquility of her boneshold while in a state of intoxication, was sentenced to hard labor in the House of Correction for thirty days, and to pay costs of prosecution, $4.63.

☞ City Marshal Jobson has been quite sick with lung fever for some days, but we are pleased to learn he is now much better.

GOLD, Tuesday, 137 3-4.

☞ Many readers doubtless thought it queer, the other day, when we mentioned that stock-raisers in Texas and elsewhere, who own thousands of cattle, rarely have butter or cheese on their tables, and even then they buy it. And so it is strange, and we think stupid too.

But there are cases similar, nearer home. On the Hayes farm, near this city—which is one of the best and most profitable in the State—we are told there has never been made a pound of butter or cheese since managed by the present owner. A large number of cows are kept—twenty-six being the number now milked—but the milk is all sold to customers in the city. The increase of the aggregate flow, above the average, enables the proprietor to supply a few more customers, as per advertisement. No doubt it "pays" better to sell milk, than to make butter and cheese, in these parts; but most farmers would prefer to make enough at least for home consumption, on their own premises.

THE FRANCONIA MURDERER.—The Littleton Gazette says the supposed murderer of Maxwell is an Englishman named Samuel Mills who had been employed in that vicinity as a miner at the Copper Ore Works. He broke into a trunk at Lisbon the night previous to this murder, and stole a gold watch and from seventy to eighty dollars in money, and left Lisbon on Saturday, saying to some of his friends that he was going to Landaff, and from there to Canada, and tried to buy a revolver, saying that it might be handy for him on his way. He was traced from Lisbon to Landaff, and from thence to Franconia, on the road leading to Mr. Maxwell's house, and minutely described by several persons who saw him on the road, and his boot tracks were traced to the house and from the house to the barn, and there seems to be no doubt that he is the murderer.

HEAVY PLAY.—The New York Herald says it is rumored, and apparently on good authority, that Hon. Ben Wood, State Senator, in a trial of skill with Congressman elect Hon. John Morrissey, at the scientific game of faro, on Wednesday night last, realized the handsome winnings of $140,000.

The Celebrated
CRAIG MICROSCOPE
Combines instruction with amusement and lasts forever. Best, simplest, cheapest and most powerful microscope in the world. Magnifies 10,000 times, or equal to other microscopes costing $20. Made on an entirely new plan, requiring no focal adjustment, therefore it can be readily used by every one—even by children. A beautiful GIFT to old or young. Adapted to the family circle as well as scientific use. Shows the adulterations in food, thousands of animals in a single drop of water, or eels in vinegar, globules in milk, blood and other fluids, tubular structure of hair, claws on a fly's foot, also the celebrated "trichina spiralis" pork worm, which is now killing so many deaths among pork eaters, and in fact the objects which may be examined in this wonderful microscope are without number. All are invited to call and see its great magnifying power. It took the first premium at the Ohio State Fair. Liberal discount to agents, schools and dealers. Price $2.50. Packed in a neat box and sent prepaid to any address on receipt of $2.75. Money can be sent by mail at our risk. Address GEORGE MEADE, Drawer 30, Racine, Wisconsin. d19

DR. SCHENCK'S
NEW OFFICE.
☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.
Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an inflamed throat and catarrh, or from Liver Complaint.
His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.
He keeps a full supply of medicines at his rooms, which can be had at all times.
Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it healing influences more potent than those of the spices of Arabby the blest." We are informed by our principal druggist, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their healthy action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but more formidable and dangerous diseases. While they produce no woeful effects, they are at the same time, in diminished doses, the safest and most physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, but will find not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.
The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's, and take no others. The sick want the best aid there is for them, and they should have it.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

EXTRACT FROM A "NASBY" SERMON, on the times and situations.

And no man putteth new wine into old bottles, else th'new wine doth bust the bottles, and the wine is spilled.

My brethren, wich is the bottles? The Dimocrisy, uv coarse, and the most of em may be considered old ones. We bev actid as bottles, carrying about floods, not precisely wine, but the modern substitute therefor, from our earliest infancy. Wich is new wine? The Ablishnist wich tollered Johnson, uv coarse. New wine is frothy—so wuz they. New wine fizzes—so did they. New wine hez strength for a minit—so bed they. New wine is unreliable—so wuz they. At Philadelphia, the puttin uv this new wine into old bottles wuz accomplished—at that accussed place, anshent Dimocrisy wich beleeves in Ham and Hagar, met and fell onto the nex uv Seward and Doolittle, wich invented Ablishnism, and we mingled our tears together—the new wine wuz put into the venerable old bottle uv Dimocrisy, and notwithstandin we hooped it with Federal patronage it busted, and great wuz the bust thereof; and the fragments uv the bottle wuz prone onto the earth, and the new wine is runnin roud permiscus. So wuz the Skripter fulfilled.

No man also seweth a piece uv old cloth onto a new garment, else the new piece thit fileth it up taketh away from the old and the rent is made worse.

My hearers, Dimocrisy went to Philadelphy in a suit uv gray, wich it had bin a wearin for five years. It wuz trooly old and ther wuz grievious rents in it, made mostly by bayonets and sich. Oh, why wuzzent we content to wear it? Why wuz we not satisfied with it? Agin wuz the skripters fulfilled? We patched up the Confedrit gray with Federal blue; we put onto the back, Seward; onto the knees, Randall; onto the shoulders, Cowan and onto the seat Johnson, and they wuz stitched together with Post Offisis. But it didn't hold. The skripters wuz fulfilled—the old cloth wuz rotten, and one by one the patches fell off, somewhat dirted, and takin with em a part uv the old, and the rents is bigger than before. Our coat is busted at the elbows, our pants is frayed round the bottoms, out at the knees, and from behind the flag uv distress waveth drearily in the cold wind.

My brethren, we will succeed when we stick to our integrity. Wat wuz the yoose uv our accoomin what we did not hev?—Wat wuz the sence uv our askin our people to vote for Kercels for Congris, wich hed, doorin the war, drafted their sons? Wat wuz the yoose uv talkin constitooshnel amendments to men who spozed that Internal improvements and a Nashnel Bank wuz still the isboo? Wat wuz the yoose uv lettin go our bolt on nigger equality, which is the right bower, left bower, andace uv the Dimocrisy, its tower of strength, its anker and cheefest trust, and wich is easy uv comprehension and eminently adapted to the Dimokratic intellect, and takin up questions wich will all be settled ten years afore they begin to comprehend em? In breef, wat wuz the sense, my brethren, in putting new wine in old bottles—uv patchin old cloth with new. Let us be warned and never repeat the fatle error.

☞ The Newbern (N. C.) Journal of Commerce protests against the handful of Southerners who are mischievously engaged in keeping alive the fires of hatred among the people. It says: "We need not name them; the people in every Southern State know them, and have long since marked them, as unworthy of the high honors which they formerly enjoyed, and to which they again aspire; but to which, by the free consent of the governed, they can never hereafter attain.

The political doom which 'the sober second thought' of the masses has pronounced against these men, is richly merited, and commends itself to the future historian, as the righteous verdict of an outraged, insulted and betrayed people."

— General Howard of Cincinnati has contracted to complete within eight months a railroad from Corinth, Mississippi, to Hamburg, on the Tennessee river, near the Shiloh battle ground.

— In Georgia there are seventy-two mills for the manufacture of cotton and woolen goods in course of construction, some of which will also manufacture calicoes.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other house. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our system, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass.; Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competitor; is entirely original; literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most distinguished literary and scientific men in the country, including twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more than its weight in gold to every family or young man. We have sold books faster than any one Subscription Publisher, yet some subscribers are taking of this work, per Agents sent out, than any book we ever sold. In addition to the largest commission, we pay freight, and give nothing but permanent agencies; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address
L. STEBBINS, Hartford, Ct.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern; very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

LOST AT SEA.

Not even a stone to mark his grave!
Down in the fathomless deep he lies;
Above him tosses the restless wave,
And columns of surge to his memory rise;
Unknown to all, yet his sleep is as sound
As if he were buried in holy ground.

No marble scroll of his name to tell—
His name that was—but what recks he now?
It moves him not; there is silence in the Great Fire at Portland were all paid within ten days after the fire, without impairing the soundness of the companies.

Persons wishing sound and reliable Insurance can obtain Policies where losses are promptly adjusted and paid.

Morning Chronicle

Portsmouth N. H.

THURSDAY, DECEMBER 20, 1866.

MEXICO.—The following proclamation, issued by Maximilian, was promulgated i the City of Mexico on the 5th inst.:

ORIZABA, Dec. 1, 1866.

Mexicans: Circumstances of great magnitude relating to the welfare of our country, and which increase in strength by on domestic difficulties, have produced in on mind the conviction that we ought to reconsider the power confided in us.

Our Council of Ministers by us convened has given as their opinion that the welfare of Mexico still requires our presence at the head of affairs, and we have considered it our duty to accede to their request, announcing at the same time our intentions to convoke a National Congress on a most ample and liberal basis, where all political parties can participate, and this Congress shall decide whether the Empire shall continue in future, and in case of assent shall assist in framing fundamental laws to consolidate the public institutions of the country.

To obtain this result our counsellors are at present engaged in devising the necessary means, and at the same time arrange matters in such a manner that all parties may assist in an arrangement on that basis.

In the meantime, Mexicans, counting upon you all without excluding any political class, we shall continue the work of regeneration with courage and constancy, having been placed in charge of your countrymen. MAXIMILIAN.

[If the above is not a very bad translation, then Maximilian does not write very good Spanish.]

MEXICAN NEWS.—The N. Y. Herald's New Orleans special of the 18th says a City of Mexico correspondent, who has just arrived there, reports that on the 2d inst. Marshal Bazaine issued a manifesto in reply to the Emperor's determination to remain, stating that in future the French troops would remain perfectly neutral, taking no part in Mexican affairs.

About Nov. 29th the Liberal forces attacked San Lois Potosi, and were defeated by Mejia with heavy loss in killed and twenty pieces of artillery.

Orizaba, the present residence of Maximilian, has been heavily fortified. On the night of the 4th inst. Gen. Roderghes made a dash with 500 men into Orizaba, and captured 300 mules. He could easily have captured Maximilian and the whole garrison.

A public demonstration was made after the Emperor had declared his determination to remain, the populace parading the streets and shouting "Death to the French, death to Americans."

Marshal Bazaine sent a cordial invitation to Gen. Sherman to visit the city of Mexico and remain as his guest.

The Imperialists at Orizaba claim that Gen. Diaz has given his adhesion to Maximilian with 8000 men.

The above correspondent says he is officially informed that there will not be a French soldier in Mexico after the first of April.

☞ A Troy, N. Y. dispatch says, the bogus clergyman, L. M. Flacher, who officiated recently in a couple of pulpits in that city and fleeced Trojan tradesmen to some extent, arrived there Tuesday night from Providence, R. I., in charge of Detective Hurlbut. He is now in the station engaged in writing a sermon. It is thought he is insane, and he is said to have escaped from Utica Asylum, being a member of one of the first families in that city. His age is about 20, and he is a man of commanding presence.

— Henry Byrd Lewis, a near male descendant of George Washington, was convicted on Saturday at King George's Court House, Virginia, of voluntary manslaughter in killing Dr. Ross some five years ago. He was sentenced to three years and six months in the Penitentiary.—*Exch.*

We would like to know in what line he *descended*—as we have always understood Gen. Washington had no children. This bad Bird Lewis might be a descendant of some cousin, or friend, or admirer of Washington,—but not of the General himself.

VIRGINIA LEGISLATURE. — At Richmond, Dec. 18, the Senate passed the Usury bill, increasing the leading maximum rate of interest from 6 to 10 per cent. The House passed the bill appropriating $30,000 to the purchase of limbs for maimed and indigent Confederate Soldiers in the State of Virginia.

HEAVY FAILURE.—The Portland Price Current announces the failure of Messrs. Bradley, Coolidge & Rogers, one of the heaviest corn and flour firms in that city. The liabilities are not yet ascertained; but are very heavy—a large portion of them being "honorary," that is for money borrowed of individuals, very little of which was secured.

☞ A Wilmington, N. C. dispatch of the 18th, says, "the recent order of General Sickles prohibiting corporal punishment was served on the Solicitor of this District yesterday. It is universally regarded as an unwarranted interference with the Judiciary of the State, and a revocation by the President is predicted."

NEW HAMPSHIRE ITEMS.

—— Moulton, Ranlet & Putnam of Laconia, gave sixty-six turkeys to that number of men in their employment the day preceding Thanksgiving.

—— William M. Parker, of Concord, Superintendent of the Northern (N. H.) Railroad has accepted the position of General Superintendent of the Boston, Hartford and Erie Railroad.

—— The dead body of John Foster of Hancock, was found on Thanksgiving day about three-quarters of a mile from the premises of Charles Hayward, whence he departed three months ago. He was found within twenty feet of where searching parties had passed.

—— The Lebanon Free Press says: "There seems to be quite a revival of interest in the temperance cause in this vicinity, as well as throughout the State. The friends of the cause are waking up, and determined to make a renewed effort to save our young men and boys from the ravages of the terrible evil of intemperance."

—— Judge Silas Morris Cochran, Associate Justice, Court of Appeals, Maryland, died in Baltimore Sunday morning after a brief illness. He was a native of Windham, removed some years since, and was elected in 1860 to the bench for the term of fifteen years. The constitution gives the Governor the appointment of a successor until the next general election.

—— Mr. Ansell Tucker, the Proprietor of the New Hampshire Hotel at Dover, has fitted up that establishment in good shape, and removed there with his family. Mr. Wiggin, the former excellent landlord, remains as manager, and the keeping of the house and its arrangements are second to none in the State. The people of Dover and the travelling community are to be congratulated that the New Hampshire is in such good hands.

—— Speaking of the State Temperance Convention, the Concord Statesman says, the President read a carefully prepared paper, giving a multitude of facts regarding the results of liquor prosecutions throughout the State: taking up county by county, and giving the figures of each. It appears, notwithstanding the opposition under which indictments have in many cases been procured and suits carried on, that the fines and forfeitures are largely in excess of the costs of prosecution. The Convention was large, the proceedings important, and the purpose of all present strengthened to use present laws for making an end of the sale of strong drink as a beverage. A body of men of higher personal character rarely if ever met in Concord.

☞ It is now said, (we know not how truly,) that Mrs. Burdell Cunningham, who was reported among those lost on the Evening Star, is at present residing in San Francisco, Cal., having seven years ago married a gentleman named Hayes, who is possessed of considerable property at Loretto, Lower California.

☞ John Gray, one of the soldiers of the Revolution, of whom nothing has heretofore been publicly known, is living in Noble county, Ohio. He is one hundred and three years old; was born in Fairfax county, Va., and enlisted in the Continental army in 1781, serving for three months. His period of service was so short that he is not entitled to a pension.

— In Philadelphia, last week, coal declined 25 cents per ton, on account of anxiety of shippers to clear their wharves, and decline in freights.

— With nitro glycerine for blasting, the Hoosac Tunnel was advanced at the rate of about 138 feet per month. With gunpowder 64 feet per month is the best they can do.

— An unknown man was found lying insensible in a field on the borders of Salem, near Swampscott, on Saturday, and was taken to the police station. He was completely chilled through, and all efforts to restore him were unavailing. He died during the afternoon. He was about 40 to 45 years old, and had $25 in his pocket.

— A delegation of Virginians request the President to annul an order issued by General Schofield directing the trial at Richmond by military commission this week, of Dr. Witbon, charged with having killed a negro man. It is claimed that the Doctor has already been tried in accordance with the laws of Virginia and acquitted.

— The appointment of General Howard, Assistant Commissioner of Freedmen's Affairs for the District of Columbia, to a position in the Regular Army as Colonel of one of the colored regiments, has been revoked by President Johnson, on the ground it is said, of the hostility of Gen. Howard to the policy of the President.

— It is stated officially that the counsel to recover the Tennessee school fund, report to the Governor that they have received from the Tennessee National Bank at Memphis $346,052.25 in State bonds, and that they have made satisfactory arrangements for securing the remainder—about $300,000. They also report the condition of the bank entirely solvent.

WASHINGTON ITEMS.—On Tuesday, the Senate had a brief executive session to receive a large batch of appointments by the President, and to refer them to the appropriate Committees. There will not probably be any confirmations until after the recess; but meanwhile the private and political character of the nominees will be carefully looked into.

The Maryland friends of Dr. Mudd are endeavoring to obtain his release under the recent decision of the Supreme Court, and application will be made to the District Judge of the Florida District to have the Doctor before him on a writ of *habeas corpus.*

[The Maryland frauds, the copper judges, and the tenant of the White House, form a beautiful Confederacy.]

Commissioner Theaker, of the Patent Office, estimates that the number of patents issued this year will be nearly, if not quite 10,000. The Patent Office is not only self-sustaining, but has a large surplus in the Treasury to its credit.

Chief Justice Chase does not approve of the refusal of the Clerk of the Supreme Court to permit stenographers to take notes of the decisions, and he says that they may do so in future.

Gen. Howard has received a report of the freedmen's schools in Washington, showing that there are forty-five schools with over three thousand scholars.

FREEDMEN'S BUREAU.—Gen. Howard, in his annual report gives account of what has been done by the Bureau during the past year. He expresses satisfaction with the general workings of the present plan of government guardianship over the freedmen and regards the continuance of the Bureau, or some similar agency, necessary for the welfare of all classes of people at the South until the system of free labor shall be practically understood and be protected and sustained by impartial laws, faithfully executed, and by the sentiment of the community. The number of rations issued to freedmen from June 1, 1865, to September 1, 1866, was 8,904,452, and there were issued to white refugees during the same time 4,507,922 rations, making a total of 13,412,374. The average monthly expenditure of the Bureau is about $350,000, and the estimated expenditure for the fiscal year ending with July, 1867, is $4,200,000. There was $6,513,965 in funds available for the uses of the Bureau on September 1 last, and an additional appropriation of $3,836,300 will be sufficient for the expenses of the Bureau until July of 1868.

The report considers and discusses the subject of schools for the freedmen at length and the General expresses himself convinced of the success of the school system which has been thus far adopted. The negroes are anxious to learn, and many of the schools were continued without interruption during the hot summer months, when white schools were generally discontinued. He estimates that there are now as many as 150,000 freedmen, of all ages, engaged in the study of books, and the schools will be more crowded than ever during the year to come. The whole number of regularly organized schools for the freedmen, exclusive of night, private and Sabbath schools, is 975, with 1405 teachers and 90,778 pupils. The opposition that was at first manifested toward the establishment of schools for the colored population has greatly diminished, but has not been entirely withdrawn. It no longer comes, however, from leading and intelligent people, but is the outgrowth of passion and prejudice in uncultivated minds.

Gen. Howard alludes in his report to the Steedman-Fullerton investigations, and recommends that those officers who were brought to trial at the instance of these gentlemen, and have since been honorably acquitted, be re-assigned to duty, that they may have an opportunity to relieve themselves of the imputations that have been cast upon them.

The Freedmen's Bureau has been doing incalculable service to the freedmen of the Southern States, and no small part of the good that has been done has been owing to Gen. Howard's intelligent and earnest management. He has never knowingly or intentionally employed unprincipled men as agents, and no abuses have been encouraged or sheltered by him.

THE "ATLANTIC" FOR JANUARY.—The Atlantic Monthly enters on its nineteenth volume with an array of distinguished names and sterling articles that promise well for the coming year. The January number contains the first instalment of Dr. Holmes's story, "The Guardian Angel." Ticknor & Fields, publishers, Boston.

DIVIDENDS OF N. H. FACTORY CORPORATIONS.—The Cocheco Manufacturing Company at Dover pays a dividend of $50 per share, now payable; Great Falls Mfg. Company, Jan. 1st, 3 per cent.; New Market Company 10 per cent.; Stark Mills 10 per cent.; Langdon Mills 20 per cent.

— Gen. Schofield has decided that Dr. Watson, who was tried by the civil courts of Rockbridge county, Va., for the murder of a negro and discharged, shall be tried by a military commission.

☞ In New York city, Tuesday evening, the New Bowery Theatre and a number of adjoining buildings were destroyed by fire. The flames broke out about 4 o'clock under the stage. At 5 o'clock the roof fell in. Shortly after the rear and northern walls fell in, and the remaining walls soon fell with a tremendous crash.—The theatre was owned by James R. Whiting, and was insured. It was valued at $80,000. J. W. Lingard, lessee, loses $40,000; M. B. Clarke, stage manager, $1000. Losses in the stores adjoining, about $50,000. The theatre contained a large stock of scenery, some of which was being prepared for the new Academy of Music.

☞ A New Orleans dispatch says, the District Court of Opelousas have found 44 true bills and ignored 105, which were mostly against freedmen for sundry offenses.

Emigrants from Louisiana to Texas are returning, satisfied that the former State offers superior advantages for agricultural purposes.

— An obituary notice of the late Tycoon, in the Japan Herald, says: "For the good of the country, a much more able man was requisite." Plain-speaking is not a vice of obituaries in this country.

CURE OF CHICK IN THE BACK AND LUMBAGO.
LYONS, N. Y., July 4, 1862.
Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.
Dr. Green, No. 363 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & CO.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Diseases of the Kidneys, Bladder, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility,
arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:
CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass.:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,

☞ We forgot to state sooner, that the fire which we mentioned at Kittery the other evening, was the burning of the house of Mr. Robert Newsome, at Navy Yard Village, Foreside, near the bridge. He was an old gentleman, and lived alone, and the fire is said to have caught from a barrel of ashes—the Pandora's box from which often comes evil—unless your barrel be iron, as it should be.

☞ The sleighing in the rural districts is quite poor, the snow having been blowed about on Monday so that in many spots the roads are quite bare, and wheels are in general use; while in the cities good sleighing is enjoyed.

☞ A Report to the Treasury Department of the U. S., states that "the Custom House at Portsmouth is in good repair, with the exception of the roof and gutters, which should be reconstructed as soon as practicable.

POLICE COURT, Dec. 19.—Casper Sherburne, arraigned on a charge of drunkenness, plead guilty, and was fined $8 and costs $3.86, in default of which he was committed to the House of Correction.

☞ The steamer Resaca, Com'r Bradford, sailed from this port about the first of October for San Francisco, and we believe has not yet been reported or heard from. The Resaca was very heavily sparred for her tonnage, beside being quite narrow, and fears that she has met with disaster are rife, as she was to report to the chief engineer at this yard as to her propelling capacity and the efficiency of her machinery.

☞ A treat indeed it is, to all "horsemen," to see an old "whip" like Sherb. Somerby draw the reins over a tandem team—which to our mind is the only team worth driving; but it needs a live leader at one end of the ribbons, and a neat reinsman at the other.

☞ "There's many a slip 'twixt cup and lip," but 'twas for want of the *slip* that a trio from this city failed in a piscatorial excursion on Wednesday. Carefully providing themselves with minnows, lines, and all the fixtures for a day's pickerel fishing through the ice, they gaily rode forth, anticipating a triumphal return with heavy strings of fish. Their sleigh glided smoothly until they had got a distance of three miles from the city, and then the roads became so perfectly bare that the gentlemen turned about, reaching home with no larger fish than those they took for bait.

☞ If anybody sells better Figs than Fayette Laighton, we have had no *proof* of it. See his advertisement of goodies.—Verily, Laighton's motto is a good one—"Quality is the test of cheapness."

"*Eds. Chronicle*:—I notice an item in your paper of Dec. 17th, stating that the majority of the Congressional delegates in this 1st District already elected are in favor of Ela. I send you the exact statement and *figures* of the different candidates, as they really stand to-day. M. M. C."

GOLD, Wednesday, 136 3 4.

— The sum of $70,000 per week is paid to mechanics employed on the buildings now erecting in place of those destroyed by the great fire at Portland, Maine.

— Four of the Tennessee delegation in the House voted for the District of Columbia suffrage bill, viz: Messrs. Maynard, Stokes, Hawkins and Arnell. Mr. Raymond of New York voted aye.

— It appears from a card published in a Chicago newspaper, signed by one of the Local Employment Committee, that that city is overrun with men in search of work. A similar complaint comes from all the large cities of the United States.

— The "Confidence Man," the bogus "Doctor from Montreal," who has been swindling the Boston physicians, and who was sent to the House of Correction last week, has been operating in Groton. He fleeced twelve dollars out of one doctor, and made the attempt on others. He was ejected from the cars at Groton for not paying his fare.

— A Washington dispatch says that the vote of Senator Foster of Connecticut against the District of Columbia suffrage bill will hasten his removal from the Presidency of the Senate. The Republicans do not think he means to betray or leave them, but that his course is prompted by a conservative nature and education.

DROWNED.—The St. Albans Messenger says that Mr. Henry Asseltyne was drowned on Saturday evening while skating from Alburgh Springs to North Hero, Vt., with the mail bag upon his back. He skated into an air hole, and his cries for assistance were heard and answered from the shore, but too late to save him. His body was recovered by means of grappling irons.

☞ On Tuesday, three railroad accidents happened near Nashville, Tenn.; no persons were killed outright, but a number injured.

— The ship yards of St. John are all closed, and the ship carpenters are discharged. A difficulty has arisen in consequence of a demand for higher wages.

Holloway's Pills and Ointment.—Neuralgia—the Indication—The doctrine that quinine and carbonate of iron were the only remedies for tic doloreux and nervous disorders, is now exploded. Holloway's Ointment will procure the speediest alleviation of pain, and a few applications suffice for a permanent cure. Thousands who have experienced a radical benefit from its use are prepared to vouch for the correctness of this statement. In gout, rheumatism, lumbago and sciatacs, it is equally efficacious. Sold by all Druggists. d16—dawly

THE HOLIDAYS.—The gayest season of the entire year is now approaching, but whilst we are enjoying this festive season let us not forget that in time of health we must always be prepared for disease. Coughs, colds, sore throat, croup, asthma and whooping Cough can be speedily cured by Coe's Cough Balsam. Whilst dyspepsia, constipation, sick headache, sour stomach, indigestion—the most prolific source of ill health, is certainly cured by the timely use of Coe's Dyspepsia Cure. d18—1w

SCHENCK'S MANDRAKE PILL.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile, and it likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, derangement of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.
The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of alceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some powerful medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 32 Hood street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of illnesses, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the sceptre of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

Morning Chronicle.

RUSSIA AND THE U. S.—Some time ago, Congress passed a resolution complimenting the Emperor of Russia for emancipating the serfs. His answer has been received, and read in the House, as follows:

"ST. PETERSBURG, 17th August, 1866.

I have received from the hands of Mr Fox the resolution of the Congress of the United States of America on the occasion of the providential grace of which I have been the object. That mark of sympathy has moved me sensibly. It is not alone personal. It attests once more the sentiment that binds the American nation to that of Russia. The two peoples have no injuries to remember, but only good relations under all circumstances. Proofs of mutual benevolence are added. These cordial relations are as conducive to their interests as the designs of Divine Providence, whose will is peace and concord among all nations. It gives me a lively pleasure to see these ties constantly strengthened more and more. I have imparted my sentiments to Mr. Fox. I pray you to be my interpreter to Congress and the American people whom it represents. Tell them how much I appreciate, and with me the whole of Russia, the testimonies of friendship they have given me, and how happy I will be to see the American nation grow in strength and prosperity by the union and constant practice of the civilities that distinguish it.

Accept at the same time the assurance of the high consideration with which I am your good friend. ALEXANDER."

☞ A Scotch paper tells the following story: "In a church not a hundred miles from Keith, a porter, employed during the week at the Railway station, does duty on Sunday by blowing the bellows of the organ. The other Sunday, wearied by the long hours of railway attendance, combined, it may be, with the soporific effects of a dull sermon, he fell asleep during the service, and so remained when the pealing of the organ was required. He was suddenly and rather rudely awakened by another official, when, apparently dreaming of an approaching train, he started to his feet and roared out, with all the force and shrillness of stentorian lungs and habit, 'Change here for Elgin, Lossemouth and Burghead.' The effect on the congregation, sitting in expectation of a concord of sweet sounds, may be imagined."

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.
Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.
Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass., Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (no rebellion in it,)—is standard; will never lose its interest; has no competitor; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly praised by over 1,000 of the most celebrated literary and scientific men in the country, including over twenty Presidents of Colleges; is equally interesting and useful to all classes of readers; is more than its weight in gold to every family or young man. We have sold books faster than any one Subscription Publisher; yet more subscribers are taken for this work, per Agents sent out, than any book we ever sold. In addition to the largest commissions and lowest freights, we offer nothing but personal expenses; also a bonus to Agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address
L. STEBBINS, Hartford, Ct.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutina, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter, suffice it to say that the sales of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

The Chronicle.

A FAST YOUNG MAN.—The young Duke of Hamilton, the premier nobleman of "the kingdom of Scotland," and the representatives of the Stuart family, three years ago succeeded to his title and to an estate which realized $350,000 per annum. He took to horse-racing and other means of lavish expenditure, and now he is a pensioner of his creditors, with every acre of his lands, his palaces and residences in the hands of Jew lenders, where they will probably remain till the next heir of entail succeeds to the title.

— An English jury has decided that when a man who is smoking in a railroad car refuses to remove his cigar at the request of his fellow passengers, they have the right to knock it out of his mouth; and the Judge that the blowing of tobacco smoke in the face of a fellow passenger might be considered an assault.

— It is estimated that from 3500 to 4000 houses have been built in Cleveland, Ohio, in 1866, and yet there are no houses to rent.

N. H. STATE MUSICAL CONVENTION.—The fourth annual session of the New Hampshire State Musical Festival will be held in Eagle Hall, Concord, and continue four days, commencing Monday evening, Jan. 7, 1867. Conductors: in the Oratorio Department, Mr. Carl Zerrahn; in the Church Music and Glee Departments, Mr. L. H. Southard. Soloists: Mrs. H. M. Smith, Soprano; Miss Addie S. Ryan, Contralto; Mr. James Whitney, Tenore; Mr. M. W. Whitney, Basso. Orchestra, the Mendelssohn Quintette Club, with the addition of a double bass. Pianists; Mrs. Martha Dana Shepard, Mr W. W. Graves.

Half fare on the Railroads, as heretofore. Return checks will be accepted only on Friday and Saturday, the 11th and 12th. The same liberal deduction in the Hotel rates, as in previous years, will be made; and accommodations, both there and in private families, should be secured in advance.

Tickets; members, $1.00; concerts, each, 50 cts; rehearsal tickets, 20 cts; season tickets, admitting visitors to all exercises, including three concerts, $2.00.

The study of Oratorio Music will be made a speciality. A large and beautiful variety of music, never before attempted by this festival, will be given from the works of Handel, Mendelssohn and Rossini. There is, evidently, an earnest and growing desire among our people, to become familiar with the standard works in this department. The study of the magnificent compositions selected for the use of this Festival cannot fail to afford to its members genuine satisfaction and delight, as well as to inspire a deeper feeling of appreciation of the grand and beautiful in the world of music. Let the remembrances of the glorious Festival of 1866, numbering upwards of one thousand voices, stimulate to efforts worthy the occasion. The Church Music department will receive its full share of attention. In this connection, Mr. Southard will introduce his "Offering," a new work of acknowledged merit.

The Glee Department will be rich, full and varied. The customary allotment of time for social musical exercise, will be made each afternoon. The exercises will, as heretofore, be conducted with a view to the improvement of all, rather than the glorification of a few. In other words, this Festival will, as in times past, be a gathering "of, by, and for the people." The attainment of the object thereof, involves certain obligations on the part of its members, viz: an early, prompt and continued attendance upon the rehearsals. Let this week be one of arduous labor as well as of the highest and purest enjoyment.

Three Grand Concerts will be given on Wednesday, Thursday and Friday evenings, January 9th, 10th and 11th. Wednesday Evening Concert, Miscellaneous. Thursday Evening Concert, Miscellaneous. Friday Evening will be given the larger portion of the "Messiah;" selections from Rossini's "Stabat Mater," with selections from Mendelssohn's "Elijah." B. B. Davis, John Jackman and J. H. Morey are the managers. For further information, address J. H. Morey, Teacher of Music, Concord, N. H.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. His long courses of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, DECEMBER 21, 1866.

IN SIXTY DAYS IT MAY BE TOO LATE. We continue (says the New York Tribune) to receive evidence of the imperiled condition of the Wool Manufacture of our entire country. In a letter from Franklin, Essex county, N. J., dated Dec. 4, the writer says:

"I am quite largely engaged in manufacturing woolen goods in this State and in the State of New York, and well know the condition of the Woolen Interest of our country this day. It is extremely precarious. I tell you that unless Congress relieves us *immediately*, there will be untold suffering. Manufacturers will be ruined, and operatives have to beg for bread. What we want is help—*help now*. Sixty days from this time, it may be too late to do us any good.

The Tariff Bill now pending should become a law, and when it becomes a law, I want to see its provisions honestly enforced. We are now cheated out of the little incidental protection the existing Tariff should afford us, by fraudulent invoices and undervaluation. I only yesterday heard of a case of heavy, fine Austrian cloths invoiced at $1.50 a yard, sold in New York by the importers at $8 a yard! The importations are really more than double, yes, more than treble, what the Treasury statements indicate."

The Secretary of the Treasury confesses in his Annual Report that, on account of a "systematic undervaluation of foreign merchandise imported into the United States," &c., "twenty per cent. at least should be added to the imports, which would make the balance for the past year against the United States $100,000,000."

From the evidence published, this then is the case: The Woolen manufacturers of this country, with aggregated capitals amounting to $59,000,000—giving employment to 80,000 male and female operatives—sustaining with wages directly and indirectly 400,000 persons—doubling and trebling the value of agricultural land and of farm products in circles of from 20 to 50 miles diameter around each and all of them—furnishing freight to railroads, canals and steam vessels—giving infinite business to machine shops, foundries, mechanics, merchants, and agents—this immense industrial interest is in immediate danger of being destroyed by foreign importations.

The concurrent statement of the American Woolen Manufacturers is that their business must inevitably and speedily perish if the House Tariff Bill, or a bill like it in principle, and equivalent to it in protection, is not taken up by the Senate and made the law of the land.

THE U. S. SENATE, Dec. 19, debated the bill for admitting Nebraska into the Union.

In the *House* a bill to amend the act granting lands to Oregon to aid in the construction of a military road from Eugene City to the eastern boundary of Oregon was read three times and passed—79 to 25.

Mr. McRuen, from the Com. on Public Lands, reported a bill granting lands to Oregon to aid in constructing a military wagon road from Dalles City, on the Columbia river, to Fort Boise, on the Snake river. On motion of Mr. Thayer an amendment was inserted that the grant made by the bill should not embrace any mineral lands of the United States. The bill was passed, 76 to 35.

Mr. Holmes, from the same Committee, reported back the bill to amend the second section of the act to authorize the Legislatures of Illinois, Arkansas, Louisiana and Tennessee, to sell school lands.

Mr. Ashley of Ohio, said he should not vote for any bill recognizing any of those rebel Legislatures or bogus States. He suggested a proviso that the act should not apply to any of the late rebel States.

The amendment was agreed to and the bill was passed.

FROM GALVESTON.—General Kidds arrived Dec. 19, and takes charge of the Freedmen's Bureau, relieving Major Lothrop. Capt. Craig, of the Veteran Reserves, and Bureau agent, has been arrested and committed to jail by Judge Ireland and the civil authorities of Guadalouge county, for destroying the bonds given for the appearance of his predecessor before the civil court. Capt. Craig acted under the orders of Heintzleman. Gen. Griffin has ordered his release.

☞ Government detectives are as yet unable to ascertain the present whereabouts of L. Lad, the tavern-keeper at Surratsville, who gave evidence in the assassination case, and subsequently left Virginia. He is now wanted to give his testimony in the case of John H. Surratt. George Wilkman, another witness, has also disappeared, although he held a public office as deputy clerk.

FIRE AT NEWBURYPORT.—The chemical works of Mr. Edward Richmond, on the Turnpike in Newburyport, near the railroad crossing, were destroyed by fire on Tuesday evening, about seven o'clock. Loss $5,000. Insured for $4,000 in the Metropolitan and Home companies of New York, and the Hope, at Providence.

NEW HAMPSHIRE ITEMS.

—— The citizens of Pittsfield, have voted four to one, in favor of raising a loan of $31,000 to aid in building a railroad from Suncook to Pittsfield.

—— Mr. Usher, editor of the Nation, a temperance paper published in Boston, is to publish the whole proceedings of the N. H. Temperance Convention in a pamphlet, which will be sold for 15 cents per copy. With a view to a still wider circulation he will print the address and proceedings in the Nation, for Dec. 25, and supply these papers to friends in New Hampshire for five dollars per hundred, if ordered before Christmas Day.

REMOVALS FROM OFFICE.—The Boston Advertiser's Washington correspondent says:—

"The extent to which the President exercised the power of removal from office for political purposes during the vacation, is very faintly comprehended by the country at large. Many new appointments were published when made; but, some time in September, correspondents here were denied the privilege of seeing the list of daily removals. This order of denial was issued because of the sharp criticism evoked by the President's action. Hence, thereafter, comparatively few cases of removals and appointments got into the newspapers. The work of the Executive in the Internal Revenue office is shown by the list of persons recently appointed in that branch of the service. From this it appears that during the summer vacation of Congress,—that is, from July 31, 1866, to December 1, 1866.—there were appointed to fill vacancies, mostly made by removal for non-agreement with the President's views, 214 assessors and collectors, of whom all but 11 were from the loyal States. The whole number of internal revenue officers in the country is but 480, and it thus appears that nearly half of them were turned out during these four months. The whole number in the loyal States and territories is 384, of whom 203 were removed or forced into resigning. In this period the removals were heaviest in the Central and Western States. The number made in August was 89, in September 68, and in November, after the elections, but 12."

[For this wholesale usurpation and abuse of the power of removal,—the President richly deserves to be himself removed. Congress should, by law, put it out of the power of this President or any one in future, to play such mean tricks.]

THE NEW GERMAN PARLIAMENT.—It is a singular fact that a citizen of Illinois, Col. Frederick Hecker, is supported by the German Liberals of the city of Marburg for a seat in the new German Parliament. He is a native of the Grand Duchy of Baden, but has resided in Illinois for the last seventeen years, and has been a naturalized citizen of the United States for twelve years. Col. Hecker showed his appreciation of true Republican principles by organizing and leading a regiment in our late war of the rebellion, and it is in no small degree creditable to him and his record that the German Liberals have gone out of their own country in the selection of a candidate whom they deem a proper exponent of their principles. There is no limitation of residence necessary for candidates for the German Parliament, and the people of the Liberal party there seem to have resolved to select the most worthy men, without regard to their residence. Col. Hecker's competitor for the representation of Marburg is none other than Count Bismarck himself.

☞ If the rebellion of Shays in Massachusetts, and of the Whisky People in Pennsylvania, had been punished, as it is now proposed to punish the rebels of the South, both Massachusetts and Pennsylvania might now be mere Territories, in lieu of States.—*Boston Post.*

The Post endangers its reputation for historical accuracy, by such wild and extravagant assertions as the above. The cases which it assumes to be parallel, are as unlike as a horse-chestnut and a chestnut horse. "The rebellion of Shays in Massachusetts" was merely the rising of a mob against the State authorities. What resemblance is there in these facts to the course pursued by any disloyal State during the rebellion? The whisky insurrection in Pennsylvania, also, was only the rising of a mob against the State authorities, occasioned by the imposition of a tax on whisky. Being favored by the democratic politicians of that day, headed by Albert Gallatin, it assumed more formidable proportions than Shays' rebellion, and required the aid of the General Government for its suppression. But, instead of being a rebellion *of* the State, as the Post implies, it was a rebellion *against* the State, and was suppressed by the State, with such aid as President Washington afforded.—*Salem Gazette.*

☞ A New York item says the ship Gen. McClellan, ashore near Patchogue, had 150 passengers and an assorted cargo. Fifty tons of pig lead were thrown overboard to lighten the vessel. No lives were lost. The vessel will probably be saved.

☞ The report of the Board appointed to examine breech loaders says, that all arms in the service should be fitted for the same cartridge, and that Col. Berdan's plan of alteration should be adopted; but it is unable to recommend any of the breech-loaders presented to it for examination.

—— A gentleman who lately moved into St. Landry Parish, La., from South Carolina, was accompanied by twenty of his former slaves who refused to part with him.

—— East Tennessee can spare one million bushels of corn for export.

WASHINGTON ITEMS, Dec. 19.—Mr. Stevens jocularly informed the Representatives that all who had speeches to deliver on any subject can have the free use of the Hall during the recess.

The President had an interview with the North Carolina delegation, and informed them that Secretary Stanton had ordered General Sickles to rescind his instructions to the United States officials in their State that corporal punishment under the State laws was not to be permitted. He also informed them that he had given instructions to General Howard that officers of the Freedmen's Bureau in North Carolina were not to interfere with the apprenticeship of orphan children.

Senator Wilson has procured sixty agents to a call for a meeting to organize a Congressional Temperance Society.

☞ The Massachusetts Christian Convention, at Boston, on Wednesday, discussed these three questions:—

"How can our Sabbath Schools be made a more efficient means of winning souls to Christ?"

"How can our devotional meetings be made most interesting and profitable to the unconverted?"

"What are the duties of Young Men's Christian Associations?"

☞ There are quite a large number of Southern men in Washington at the present time endeavoring to ascertain the feeling of Congress on the question of restoration; and it is said that as a result of their investigations, several of them will unite in a statement for publication, setting forth that the constitutional amendment furnishes the best terms which it is possible for the South to obtain from this or the Fortieth Congress.

☞ Mr. Ebenezer Eastman of East Concord, spent several years in Nashville, Tenn. He is a democrat of the hard shell pattern, and when news came that the Republican National Convention at Baltimore had nominated Andrew Johnson for Vice President, Mr. Eastman remarked to a prominent Republican at the North End, "Your folks have nominated a poor creature for Vice President. I know him well."—*Statesman.*

☞ The Leonard Scott Publishing Co., New York, continue to re-publish the leading British periodicals as promptly as they appear in England. Their list includes Blackwood's Magazine, and The North British, Westminster, Edinburg and London Quarterly Reviews. They furnish these at $4 a year singly, or $15 a year for the five.

☞ Tuesday night, at Jersey City, Kansas, the old commissary buildings were entirely destroyed by fire, together with 75,000 barrels bacon and a large amount of *good* clothing. The books and papers of the Quartermaster and Commissary were mostly saved.

☞ Wednesday evening, at Hartford, a shocking accident happened from carelessly handling kerosene oil, which resulted in burning to death Alice Gilmore, eight years old, the daughter of Mr. George Gilmore.

— Edward Pritchard's chemical works, in Newbury, Mass., were destroyed by fire on Tuesday. Loss between $4000 and $5000. Insurance $4000.

— A barn in Newburyport belonging to Mr. Litch was set on fire and entirely consumed on Tuesday morning. Several head of cattle perished in the flames.

— The operatives in the mills at Lewiston, Me., have petitioned the agents and managers to reduce the hours of labor from eleven to ten per day.

— A mission chapel was dedicated last Friday evening, in Norwich, Ct., the ground and building being a gift from Governor Buckingham.

— In Toronto, last Thursday evening, a young girl's life was saved by her hoops. She was skating and broke through the ice, when her hoop skirt becoming inverted, caught on the sides of the hole and supported her head above water until help came.

— A Swiss watchmaker named Jeanerett, of Norfolk, Virginia, recently committed suicide after placing quite a sum of money in the hands of one person for distribution among the poor, and another large sum in the hands of another person for his brother.

— Montgomery Blair has been tendered the position of General Foreign Agent or Attorney, to take charge of the collection of claims against the late Southern Confederacy. He has not yet accepted. It will require a residence of several years in England and France.

— George Fisher was mortally wounded by a panther at Shaftsbury, Vt., a few days since, which he had shot, but only slightly wounded. The animal lacerated his side so shreds, tore his left arm from its socket, and injured him so that he lived but a few hours.

— A woman in Winona, Wisconsin, who had not heard from her husband for ten years, recently got a divorce on the ground of desertion. On the same day that this was accomplished, the husband made his appearance, and they were re-married in the evening. The mystery of the man's long absence is not explained.

— Miss Virginia Penny, of Louisville, whipped her pupil, Adam Haag, severely, and the senior Haag sued her. He recovered one cent and costs.

— It seems Prof. Agassiz's "climbing fish" is no new discovery, after all. The Charlestown Advertiser described it ten years ago.

— Gen. Grant has sent a check for twenty-six thousand dollars to a real estate man in St. Louis, to be used in the purchase of the old farm owned by his father-in-law, ten miles from the city, as a final homestead for himself and family.

— A man named Hunt, living in Pelham, Mass., was killed while chopping wood last Tuesday. While chopping down a tree on which another had lodged, the latter fell and one of the limbs pierced his body, going entirely through it into the ground, and killing him instantly.

LAME BACK.
New York, Nov. 28, 1859.
T. Allcock & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.
CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.
Messrs. Allcock & Co: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.
Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 22d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and cured her in two days of a most distressing pain in her back and loins.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the testimonial returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, MASS.
"ORRIN SKINNER & CO.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."
The Life Drops are carefully prepared by

THE RESACA.—We have now heard from the steamer Resaca, by the recipients of half a dozen or a dozen letters, some of which reached this city three weeks ago,—but which were never mentioned or communicated to any paper till now.

She went out under sail all the way, (after clearing the land) and arrived at Point Petre, Guad., in 20 days from this port: behaving tolerably well,—and officers and crew all right, and think "the vessel may do better than was anticipated."

POLICE COURT, Dec. 20.—Charles W. Moulton, who like many another, took something warm to ward off the effects of the cold, "got hot," and this morning was required to disburse $6.86 as a penalty for being found intoxicated in the street.

☞ Auct. Morse sells an assortment of new furniture, in store Nos. 14 and 16 Daniel street, this morning.

☞ The attention of lumber dealers is called to the advertisement of G. W. Cobb & Co.

☞ This is the last day of Dr. Dessauer's stay at the Franklin House.

EXPERIENCES OF A STATE CONSTABLE.—Major Blood, State Constable, who has taken possession of the Stevens House in Fall River, Mass., on account of violations of the liquor law by the proprietor, finds his temporary home anything but pleasant. The Fall River News thus tells of his experiences:

"Adjoining the bar-room is another room which connects with a tenement in the rear, occupied by the family of Mr. Greene. During the afternoon, yesterday, some one placed in this room a shovel full of hot coals, on which had been sprinkled a bountiful supply of asafœtida and red pepper. The fumes soon came pouring over the partition, the top of which was two or three feet from the ceiling, and filled the bar-room with a horrible stench. The Major, however, was not to be so easily ejected, and, with his assistants, threw water over the partition on to the fire. An hour or two later and it was discovered that some one had removed a joint of the stove pipe, and the room was soon filled with smoke. Then followed another shovelful of hot coals, with delightful odors similar to those in the early part of the afternoon. The coals had been placed in a box in the middle of the room, and as they blazed up quite brightly, the Major supposed an attempt had been made to fire the premises. The door was fastened with a heavy chain, but the Major, regardless of chains or locks, broke the door down, went in and extinguished the flames.

During the evening a number of old soakers came in for their customary drams, but were taken all aback when they discovered the Major behind the counter, temperance pledge in hand, inviting them to sign."

☞ Mexican intelligence states that Maximilian is still at Orizaba, and it is very improbable that he will take any permanent step until the millions of money promised shall have been paid in full. Three-fifths of the Mexican people south of San Luis Potosi favor Juarez. Ortega has no party, and has sent a commission to the United States to open negotiations with Ortega relative to the future government of Mexico. All the French troops are concentrated between the city of Mexico and Vera Cruz, except a few hundred in the interior.

☞ The Tribune's Jefferson City dispatch says Gen. Grant left St. Louis for the East Tuesday. Before leaving he sent a company of U. S. troops to Lexington to protect the Bushwhackers from Gov. Fletcher's militia. Gov. Fletcher has gone to take command of the militia in person. He says he outranks Gen. Grant in Missouri, and the end is not yet.

☞ About a month since, a man named Driscoll interfered with a Portland police officer who was making an arrest, and received a pistol shot wound for his pains. The wound was not considered dangerous at the time, and Driscoll was committed to jail for want of bail. He died Wednesday afternoon from the effect of the wound.

☞ On Wednesday morning between 4 and 5 o'clock, at Memphis, Tenn., the confectionery store of Joseph Specht took fire and was nearly destroyed. In the 3d and 4th stories of the building, 25 persons were lodging; 14 of whom were burnt to death or suffocated.

GOLD, Thursday, 135 1 2.

— Mr. J. Davis is greatly troubled by persons who aspire to possess his autograph. As he does not comply with many requests, he is making a nice little pile of postage stamps with which to begin the world again on his release from the house of captivity.

— Joseph E. Davis, of Mississippi, having been pardoned by the President, and an order issued for the restoration of his property, consisting of two plantations, at the end of the present year, has leased the said property for a term of years, to B. T. Montgomery and his associates, colored people.

— It is said that the Attorney General of the United States is about to perpetrate an immense joke. He is preparing a report to demonstrate the impossibility of supplying Congress, as it requested, with the names of those persons pardoned by the President, unless the clerical force in his office is greatly increased.

☞ The Democratic members of the House seem to be indisposed toward participating in the investigation of the New Orleans massacre. One after another has been appointed, but like the men in the Parable who were bidden to the feast they have all "with one consent begun to make excuse"—one was sick, the second had important business, the third and fourth had a similar excuse, and, at last, after trying five times, one was found in the person of Mr. Boyer of Pennsylvania, who consented to serve. It is, of course, rather an unpleasant matter, as it now looks, for a Democrat to inquire into, but the inquiry has got to be made, and the facts given to the public whether the Democrats serve on the committee or not. We are glad that Mr. Boyer has consented to serve and hope that he will be vigilant in seeing that the truth and the whole truth is brought forth.

No wonder Mr. Johnson's friends desire to put an obstacle in the way of inquiry into what was done under his inspiration in New Orleans. But the Democratic recusants are not so foolish as to suppose they can prevent an investigation; they purpose by keeping off the Committee, to raise a cry against the report, when presented, as a partisan statement. They believe their Democratic constituents stupid enough to be imposed upon by a device so shallow as this, and as they know their own party better than we can, we shall not accuse them of under-estimating its intelligence. But other people will see the sham.

☞ Rub, a member of the last New Jersey Legislature, convicted of legislative bribery on Monday, was sentenced to hard labor in the State Prison for one year, and to be forever after disqualified from holding any office of profit or trust in the State. Chief Justice Beesley, in delivering the sentence, the Supreme Court denied Ruh's application for a new trial.

— It is stated that of the clergy of the English Establishment, 2500 men now use lights in their churches, on the altar, at holy communion.

Holloway's Pills and Ointment.—Neuralgia—Tic Doloureux.—The doctrine that quinine and carbonate of iron were the only remedies for tic doloureux and nervous disorders, is now exploded. Holloway's Ointment will procure the speediest alleviation of pain, and a few applications suffice for a permanent cure. Thousands who have experienced a radical benefit from its use are prepared to vouch for the correctness of this statement. In gout, rheumatism, lumbago and sciatica, it is equally efficacious. Sold by all Druggists. d15—dawlw

THE HOLIDAYS.—The gayest season of the entire year is now approaching, but whilst we are enjoying this festive season let us not forget that in time of health we must always be prepared for disease. Coughs, colds, sore throat, croup, asthma and whooping Cough are speedily cured by Coe's Cough Balsam. Whilst dyspepsia, constipation, sick headache, sour stomach, indigestion—the most prolific sources of ill health, is certainly cured by the timely use of Coe's Dyspepsia Cure. d15—1w

SCHENCK'S MANDRAKE PILL.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities, thus indispensably necessary to health in the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, the skin and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.
The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities as it progresses; the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia, or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,
will strengthen the system, purify the blood, and ripen and mature the morbid matter so that it can be easily cured by the timely use of Coe's Dyspepsia Cure.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 for the half dozen. Mandrake Pills 25 cents per box.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used Perry Davis' Pain Killer, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the bowel diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever strained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it balm and healing influences more potent than than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell one of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* dl—daw 1m

THE PRESIDENT AND THE DISTRICT SUFFRAGE BILL.—The District Suffrage bill has not yet been presented to the President for his signature, and probably will be kept at the Capitol until next week. If it is sent before the commencement of the recess it will be lost under that clause of the 7th section of the Constitution which provides that if any bill shall not be returned by the President within ten days, Sundays excepted, after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return, in which case it shall not be a law. By keeping the bill at the Capitol until Christmas, Congress will be in session again prior to the expiration of the ten days allowed for consideration. [So says Perley: and we should say, better keep it till Congress is again in session, lest the unscrupulous and crafty quibblers of the White House Confederacy should attempt some evasion on subterfuge.]

AN UNFORTUNATE LOTTERY SPECULATOR.—One Nelson B. Odell of New York has brought an action against certain lottery ticket men for defrauding him out of $35,000, which he has been fool enough to invest in that kind of flash paper during the past two years. John Morrissey, M. C., and Ben. Wood, are in the list of parties named in Odell's affidavit, which, with charming innocence, deponent says he is able to prove (as if the thing were not already notorious) that by the private arrangements of the lottery companies, the holders of the winning tickets were made to draw blanks in cases where the managers would lose too much. A reformed lottery swindler, it is said, appears in the case, which is expected to bring forth some rich developments.

THE POPE AND THE FENIANS.—Cardinal Antonelli has expressed his regret to Mr. King, the American Minister, for the article which appeared in the official journal of Rome, denying the statement made by the Holy Father in regard to Canada. Cardinal Antonelli explains that what the Pope intended to say was, that if the Canadas were to be given up by Great Britain, it was better that they should fall into the hands of the United States than into those of the Fenians. With this explanation the Minister of the United States was entirely satisfied.

— The Jesuits are openly preparing to depart from Rome.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Can also procure Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove this; none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and models of all patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on behalf of rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

NEW ADVERTISEMENTS.
Agents Wanted
FOR THE MOST POPULAR
And best selling subscription Books Published!
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.
Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.
Old agents, and all others, who want the best paying sinecures, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass.; Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

Book Agents Wanted.
Now ready for delivery, a great National work—not political or sectional, (as every one knows in it,) is standard; will never lose its interest; has no competition; eight distinguished literary men were employed in writing it; time from commencement to close, over four years; is endorsed and highly commended by the most celebrated literary men in the country; sells in the country, includ over twenty Presidents of Colleges; is equally interesting and useful to all classes; is worth more to the family than a library of poetry; is a young man. We have sold books faster than any one bookcription Publisher, yet more subscribers are taking for this work, per Agent, than for any other, than any book we ever sold. In addition to the largest commission, we pay freights, leaving nothing to be deducted; we also have books at agents of fifty dollars for every Canvasser they start who sells one hundred copies. Experienced and successful Agents wanted; others need not apply. For full description and terms, address
L. STEBBINS, Hartford, Ct.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Books, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the agency for the sale in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comment. Of the latter, suffice it to say that the sale of over fifty of them within the last two years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of this musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

MADAME ZADOC PORTER'S
Curative Cough Balsam,
PRICE, 25 AND 50 CENTS PER BOTTLE.
The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c. the World has ever produced. Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.
The CURATIVE BALSAM is Warranted, if used according to Directions, to CURE in all cases, Coughs, Colds, Whooping Cough, Asthma, and all affections of the Throat and Lungs.
Madame Zadoc Porter's Balsam is a POWERFUL VEGETABLE EXPECTORANT, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.
Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.
It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body
It loosens the phlegm, induces free spitting, and will be found very agreeable to the taste. It is not a violent remedy, but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.
If you have a Cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold brings it in the reach of every one, that they may always keep it on hand for use.
The timely use of a 25 cent bottle will often prove to be worth one hundred times its cost
Sold by all Druggists.

REWARD FOR A BRAVE DEED.—The Humane Society of Massachusetts have awarded a valuable silver medal to Master Wm. C. Lee of Brighton, son of Lieut. John Lee, late of the 19th Regiment Massachusetts Volunteers, for rescuing from death by drowning, in Baptist Pond, Newton, Z. Taylor Cushman and Chas. Leavitt, on the 16th of July, 1866. A high degree of courage and discretion was displayed in the act for which the medal was awarded. The lads had become locked in the drowning struggle, when Master Lee came to the rescue. After separating them, and while carrying one to the shore, the other sank and remained under water, and was found by the rescuer after diving twice.

LOUISIANA.—Maj. Gen. Thos. J. Wood, commanding the District of Mississippi, has issued a circular thanking Northern charitable societies for what they have done to educate the negro, and also the many planters who have assured them that they would establish, during the coming year, plantation schools for the education of the children of their colored laborers, and make arrangements to have religious instruction given to the whole. He renews his recommendation and request to all planters to pursue the same course, and makes the following stirring and impressive remark as to the necessity of more being done to prevent the negro race from lapsing into barbarism. He says: "The race must advance or retrogade. Shall it be said in the future that in the nineteenth century, in a Christian nation, any portion of its citizens were allowed to deteriorate in mental and moral culture? What a stain this would be on the fair fame of the nation."

☞ Mr. Forney, in withdrawing from the contest for the United States Senatorship, says "it is the simple truth to add that the sentiments and suggestions of Thaddeus Stevens triumphed more completely in Pennsylvania in the recent election, and contributed more powerfully to that triumph than the sentiments and suggestions of any living American." Gov. Geary is also said to be in favor of Mr. Stevens for the Senatorship.

— It is a shame for a rich Christian to be like a Christmas box, that receives all, and nothing can be got out till it be broken in pieces.

— There are now in various schools of Pennsylvania, receiving care and education at the expense of the Commonwealth, between three and four thousand little boys and girls, orphans of Pennsylvania soldiers and sailors who perished in the war for the Union.

— The New York Nation says that John Morrissey is the "first penitentiary convict who has ever sat in the legislature of a Christian country. According to the official record, Morrissey has been eight times indicted for assault with intent to kill, assault and battery, and burglary, and has served nine months at hard labor in the penitentiary for three several breaches of the public peace."

Morning Chronicle.

Portsmouth N. H.

SATURDAY, DECEMBER 22, 1866.

IN THE U. S. SENATE, Thursday, Dec. 20, Mr. Wilson offered a joint resolution directing the President of the United States to instruct officers of the army and navy and of the freedmen's bureau to prevent and prohibit the infliction of corporal punishment for crimes and misdemeanors in the lately rebellious States until their civil governments shall have been organized and ratified by Congress. Ordered to be printed.

The Senate had a brief executive session and confirmed a budget of regular naval promotions, with one New York Revenue officer; so the Executive appointees have all a fortnight longer in which to enjoy their pay and perquisites. Then nearly all of them must prepare for rotation.

Mr. Sumner carried his point, and the Senate adjourned for the recess without action on the Nebraska bill. The Senate was the more willing to be warned by him, as it was his earnest remonstrance which prevented the reception of Louisiana with a constitution equally odious as that of Nebraska, although Mr. Trumbull and others urged it.

It is probable that after the recess the harmonious action of the entire Republican party to a bill for the admission of Nebraska may be secured by the adoption of some such proviso as was advocated by Senator Edmunds of Vermont.

The *House* considered a resolution directing that, until otherwise ordered, it should be unlawful for any officer of the United States Government to pay any account, claims, or demand against the Government accruing prior to April 13, 1861, in favor of any person who promoted, encouraged or in any manner sustained the late rebellion, or in favor of any person who during such rebellion, was not known to be opposed thereto and distinctly in favor of its suppression. The resolution was read three times and passed.

Mr. Stevens offered the following:

Resolved, That a committee of seven be appointed to report a bill to establish a system of free schools for the District of Columbia, from which no child six years old or more, residing in said District, shall be excluded, except for improper conduct; the schools to be supported by taxes impartially levied on accessible property of the District, together with such fixed annual appropriations as Congress may grant. Adopted, and the committee consists of Messrs. Stevens, Patterson, Walker, Boutwell, Moulton, Ashley and Hubbell.

Both Houses adjourned until Thursday, January 3, 1857, at ten o'clock A. M.

AMERICAN PRINCIPLE. — Mr. Davis, who is, as they say in *Erin*, a knowledgeable man, besides being a Senator of the United States, was good enough, a day or two since, to tell us that "it is a fixed American principle that suffrage pertains exclusively to white men." This looks promising at first, but when you scrutinize it, you find that Davis is talking as loosely about fixity as the rest. Either Mr. Davis don't know what he is talking about, or else, he lies. There never was the smallest authority for his glib assumption—if we except the dictum of Judge Taney, which, indeed, has long ago ceased to be authority at all, if it ever was, which is a matter of grave doubt.

In New Hampshire, men of all colors not only enjoyed the right of suffrage, but exercised it before Mr. Johnson was born. Ever since the foundation of the Government, in many States, the black men have been voting. Massachusetts, one of the oldest of States, one of the creators of the nation, whose great men were among the framers of the Constitution, has never dreamed of confining suffrage to white men, never made in this matter the least distinction on account of color. Don't they know "an American principle" in Massachusetts when they see it? New York requires colored men—i. e., men colored black—a certain special qualification, but, possessing that, they vote. So, too, in North Carolina for years qualified blacks were voters. What was "the American principle" doing all this time? Was it discarded? Not at all. Nothing can be discarded which never existed.

— The people of Kingston, Jamaica, will not give more than sixty-six cents for an American silver dollar, or fifteen cents for a quarter, although the English government only insists, in an order to that effect, on a depreciation of one-fourth their value.

— It is reported that A. T. Stewart is gradually withdrawing from active business. The details of his immense estates furnish business enough for one man's time. Mr. Stewart is computed to be the richest man in America.

— The Taunton Republican says the recent appointment of a bitter Copperhead as Postmaster at Mansfield naturally awakened a strong feeling of indignation on the part of the citizens. Efforts were immediately made to secure a revocation of his appointment, and they have been so far successful as to induce the Postmaster General to recall his commission.

NEW HAMPSHIRE ITEMS.

— Mr. Stephen C. Fletcher has been ordained pastor of the Baptist Church in Wilton.

☞ The trial of George W. Gayle, the Alabamian charged with inciting the murder of the late lamented Lincoln by an advertisement offering a reward for his body, has been commenced in Montgomery, but continued to the next term of the court.—*Exchange.*

What a farce, to try this man before an Alabama jury. He should have been tried by military commission, before five copperhead judges committed suicide.

☞ The organization heretofore known as the "Methodist Church South" has ceased to exist, the majority having voted for a change of name. It will hereafter be known as the Methodist Episcopal Church. *Exchange.*

This is a curious move,—these Rebel Methodists took the name *South*, of their own accord, and now they reject it. As the regular old church is the Methodist E. Church in the United States,—these new lights seem to consider themselves out of the Union, by their new title.

MEXICO.—A dispatch from New Orleans says that on Monday week Escobedo gave Mr. Campbell and Gen. Sherman a brilliant ovation at Matamoras. Escobedo was to start immediately for Monterey and Mr. Campbell would probably accompany him.

General Sedgwick was at Brownsville, is still under arrest, and was to be tried for his occupation of Matamoras.

An order confines Ortega to the United States territory. Should he attempt to cross the Rio Grande he will be arrested.

THE APPOINTING POWER.—If we rightly interpret the action of the Senate Judiciary Committee upon the House Pension Agent bill, the purpose of the House to restrict in all constitutional ways the appointing power of the President is to find support in the Senate. The Judiciary Committee is a very conservative one; it is hardly likely that the Radical majority will fail to go at least as far as the Committee. Other measures designed to arrest the usurpations of the President are to come before the Senate. The question of removals, of the evasion by the President of that constitutional provision which requires the advice and consent of the Senate to make the nomination of the President a perfect legal appointment, the perversion by Mr. Johnson of his powers for partisan purposes; the prostitution of his office to obstruct the will and defeat the declared purpose of the people—all these *offenses*, (says the Tribune,) must come before the Senate in its consideration of the measures already devised for the restoration of the safeguards of the republic and the welfare of the country. We ardently hope the promise now made is to be fulfilled, and that the Senate means to keep step with the House. The appointing power must be exercised by the concurrent authorities in whose hands the Constitution places it, and must be used henceforth for the service and no longer for the destruction of the Government and the country.

☞ To a delegation of New Yorkers, the President on Wednesday said that his confidence in the correctness and integrity of the course he had adopted and had been pursuing hitherto was unshaken, and that he was determined to be guided in the future wholly by the spirit of the Constitution. [He seems to have been guided by various kinds of spirits as he swung round the circle from Moses to Pharoah, and from the republicans to the copperheads. Nobody can place any reliance in him;—and his opinions are now not worth a straw to any body, except that he happens to be President.]

☞ Dr. Harris, in his report to the N. Y. Board of Health, notices the fact that 21 persons were burned to death in that city last week, and justly says that for the deaths of the 14 persons who perished in the burning of tenement houses, "a later generation and wiser laws will hold the people and the laws of our day guilty of homicide." Dr. Harris asks if the sad lesson will go unheeded. The Legislature will soon be called upon to answer.

☞ The Saco Union says, Miss Martha L. Ferguson has been appointed postmistress at South Berwick, perhaps for the reason that postmistresses are appointed in the South—because there are no men in that section not republicans who can take the iron clad oath of loyalty. Mr. C. C. Hobbs was appointed a few weeks since to that position, vice Mr. Dennis Ferguson removed, but we believe he never received his commission. Mr. Hobbs wants to know, as do all his friends, "if he was so soon to be done for, why he ever was begun for," and that is a question of vital importance. Tenure of office under this stupid and bungling administration is "mighty onsartin."

— The profits of the London Times last year were $250,000.

— There never was any sect, party, or faction in which the most ignorant were not the most violent.

☞ In political economy, the encouragement of home manufactures has ever been held one of the strongest pillars of the wealth of a community, especially when an article of equal or a lower price can be made at home.

In 1865 a company was formed in New York with ample capital, for the purpose of manufacturing lead pencils. The success of their enterprise and the estimate in which their productions are held, may be judged of by the facts that they now employ 175 men and finish 300 gross of pencils per day. We have for some weeks been testing specimens of the American Lead Pencil Company's work, and have no hesitation in pronouncing them fully equal to the best of foreign manufacture. In the Executive Departments at Washington, in the public offices of many of the States, and from a multitude of private individuals they have received high commendation. Mr. Louis Bail, Professor in the Sheffield Scientific School at Yale College, writes that he prefers them to any others in use for sketching, ornamental and mathematical drawing, &c.; he adds that they are all that can be desired in a pencil. The company (whose advertisement may be found on another page) makes every variety, from the highly finished artist's pencil to the more common kind, some of which are sold as low as $1.50 per gross. Seventy-eight different varieties were exhibited at the recent St. Louis Fair, and the company are now engaged in preparing samples for exhibition at the great Paris exposition next summer.

Heretofore the marking of linen has been a tedious and complicated job. Now the Northampton Indelible Pencil Co. manufacture a little article that does away with brushes and bottles, pens and stencil plates; and while the pencil costs but fifty cents, it will mark more linen than almost any person is likely to possess in a common lifetime. See notice in special column.

WASHINGTON ITEMS, Thursday.—Lewis H. Weichman, who was one of the witnesses for government in the case of Payne, Atzerott, Harrold, Mrs. Surratt and others, the assassin conspirators, was before the Grand Jury to give his testimony as to the complicity of John Sqratt in the murder of President Lincoln.

The friends of Mr. Colfax propose that Gen. Howard, of the Freedmen's Bureau, be nominated as Vice President on the ticket with him.

There is a general exodus of members—those who cannot pass the Christmas holidays at their homes going to New York or New Orleans. The Senate Committee on Finance will be alone at the Capital, but the members declare that they intend to finish the consideration of the tariff bill so as to report it when Congress re-assembles.

It is understood that the advocates of the Territorial government measure for rebel States have been canvassing the two Houses, and, doubting their ability to carry it this session, have concluded to postpone the matter until the next, when they expect to have strength to push it through without fail.

☞ The debate on the Appropriation bill, which took place in the House Wednesday, elicited several opinions and facts which are noteworthy. Mr. Wentworth opposed an amendment striking out a provision for a "Clerk of Pardons," inasmuch that as the President had been called upon for information on that point, it would be impossible "to rake out all the pardons with his own hands." The visit of the Florida Legislature to the Dry Tortugas, for the purpose of hunting up subjects for Executive clemency, was considered by Mr. W. as an instance in proof of the Executive need of a special clerk. Mr. Schofield heightened the opposite view of the question by stating, not as it appears on any given authority, that all the pardons expressed South were marked "$300," and the sum collected. Mr. Bingham took occasion to remark that when the President made a removal from office corruptly he was guilty of a high crime and misdemeanor, and answerable to Congress. The amendment, that assessors and collectors shall not receive pay unless confirmed by the Senate, was adopted.

— The annual report of the Light house Board shows that the number of lights discontinued by the rebels on the Southern coasts was 164, of which 94 have been rebuilt or repaired and relighted. Those which remain to be reestablished are chiefly small and unimportant stations, the work done comprising about four-fifths of the labor and expense of renovation originally required.

— Returns received at the General Land Office from Junction City, Kansas, show that eleven thousand two hundred and ninety acres were disposed of during the month of November last. Eight thousand acres were entered for actual settlement and cultivation under the homestead law, and the remainder located with agricultural college scrip and military land warrants.

☞ Bishop Whipple, of Minnesota, who has unrivalled opportunities for observation among the eighteen thousand Indians in his diocese, ascribes their demoralization greatly to their contact with the whites, and particularly to the government agents. He says that they are familiar with the whites. The atrocities practised on them for years by government agents have tended to exasperate them, and have led to acts of cruelty and bloodshed. Though these Indian agents have a salary of but $1500 a year, the Bishop says they frequently retire at the end of four years, having amassed a fortune of $50,000.

— He who was never wise enough to find out any mistakes in himself, will not be charitable enough to excuse what he reckons mistakes in others.

— Jerrold was at a party when the park guns announced the birth of a prince. "How they do powder these babies!" he exclaimed.

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.
T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.
CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.
Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart,
L. H. SHERWOOD.
Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.
Sold by all Druggists. n29—dawlm

Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, color of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.
It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to cleanse the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce or size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age, cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against "privary" (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. Let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."
The Life Drops are carefully prepared by

Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility, arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:
CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the cures that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,

☞ Rev. Mr. Gage is to preach at the North Church, to-morrow.

☞ Rev. Lemuel Willis is to preach at the Universalist Church, to morrow.

☞ Messrs. Dean, Dudley & Co., of of Boston, are now canvassing our city for a new directory to be published forthwith. The many changes since the issue of the last directory will render this a great convenience to our business men. As an advertising medium it offers advantages unsurpassed, from being preserved as a work of reference.

☞ The Biddeford Union not long since gave a glowing account of the great quantity of stone which one James M. Andrews was getting out of his granite quarries in that town. Mr. A. is pretty well known here as a contractor for stone at Fort Constitution—and while he is about it, we wish he would just get out enough rocks to pay that $20 he owes us for advertising, and the "quarter" expense on the same, which Tripp demanded of us.

☞ Harper's Magazine for January is even richer than usual in illustrated articles, having five of them. The contents, as ever, are varied and good. Received from A. Williams & Co., Boston, and for sale by Jos. H. Foster.

OLIVER OPTIC AS A NOVELIST.—Lee & Sheperd, publishers, Boston, have just issued "The Way of the World. A Novel. By Wm. T. Adams (Oliver Optic)." 464 pages 12mo. This well told tale, embracing a great variety of incident, will be as popular, among "children of a larger growth," as Oliver Optic's juvenile series are among the Boys. For sale in this city by Joseph H. Foster.

WOMEN VOTING IN NEW JERSEY.—During the debate in the Senate, a few days ago, on Cowan's amendment to strike out the word "male" in the Franchise bill for the District of Columbia, inquiry was made of Mr. Frelinghuysen whether women ever voted in New Jersey. His reply admitted that they once did so in local elections." But the fact is that, for many years, women were recognized there as voters on precisely the same terms as men. Lucy Stone and H. B. Blackwell, citizens of New Jersey, have made an investigation, the result of which is remarkable, and proves that previously to 1776 only men voted, but that in 1776, the original State Constitution conferred the franchise on "*all inhabitants*" (men or women, white or black) possessing the prescribed qualifications of £50 clear estate and twelve months residence, and this Constitution remained in force until 1844.

In 1790 the Legislature, in an act regulating elections, used the words "he or she" in reference to voters. In 1797, another act relative to elections repeatedly designates the voters as "he or she." In the same year, 1797, 75 women voted in Elizabethtown for the Federal candidate. In 1800, women generally voted throughout the State in the Presidential contest between Jefferson and Adams. In 1802 a member of the Legislature from Hunterdon County was actually elected, in a closely contested election, by the votes of two or three women of color. In 1807, at a local election in Essex County for the location of the county seat, men and women generally participated, and were jointly implicated in very extensive frauds.

In the following winter of 1807–8, the Legislature, in violation of the terms of the Constitution, passed an act restricting suffrage to free, white, male, adult citizens, and in reference to these virtually abolished the property qualification of £50, thus extending it to all white male tax-payors, while excluding all women and negroes.—In 1820, the same provisions were repeated and remained unchanged until the adoption of the present Constitution in 1844.

It thus appears that women and negroes possessed and exercised the right unquestioned under the Constitution of New Jersey from 1776 to 1807, 31 years, and that from 1807 until 1844 they possessed the right, but were arbitrarily deprived of its exercise 37 years more. This is, we believe (says the N. Y. Tribune,) a fact unparalleled in the political history of the world, and was probably due to the strong Quaker influence in West Jersey, then, as usual, exerted in behalf of Equal Rights. New Jersey enjoys, we believe, the distinction of having been the first State which conferred upon all its citizens equal political privileges, without restriction of sex or color.

☞ Somebody sent to the Biddeford Union, a glowing account of the property of the North Berwick Co., (a woolen manufactory,)—which is rectified as follows, by Mr. Hobbs, the agent, who happens to know how depressed are almost all families of the woolen manufacture in this country, being overborne by imported goods.

This Company is intending, another season, to build a new dam—is compelled to by the dilapidated condition of the old—they are not intending to build any "fine block of six tenement, three story, French roof houses" nor to relay their canal. Neither are they running "full time and half, turning out 2900 yds. per day, nor have they been at any time. They are running usual time only, and very moderately at that, producing for the past month an average of 1418 yds. per day run—less than half the quantity named—a very moderate quantity for the machinery employed, and if practicable to produce less and reduce expenses proportionably, would be glad to do so.

☞ Rev. Dr. Albro, pastor of a church in Cambridge, Mass., died at West Roxbury on Thursday afternoon. He was struck down with paralysis or heart disease while preaching last Sunday, in Dr. Laurie's pulpit at R. He was a graduate of Yale and Andover, highly esteemed and able. His age was 66.

SCHENCK'S MANDRAKE PILL.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.
The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, Mass., A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of illnesses, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influence more potent than the balm of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than of any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

MORTALITY.

"And we shall be changed"

Ye dainty mosses, lichens gray,
Pressed each to each in tender fold,
And peacefully thus, day by day,
Returning to their mould;

Brown leaves, that with erial grace
Slip from you branch like birds a-wing,
Each living in the appointed place
To bed of future spring;

If we, God's conscious creatures, know
But half your faith in our decay,
We should not tremble as we do
When summoned clay to clay.

Bar with an equal patience sweet,
We should put off this mortal gear,
In whatsoever new form is meet
Content to reappear.

Knowing each germ of life lie grave
Must have in Him its source and rise,
Being that of life being live,
May change, but never die.

Ye dead leaves, dropping soft and low,
Ye mosses green and lichens fair,
Go to your graves, as I will go,
For God is also there.

— A man died last week in Shrewsbury, Mass., who had become so far advanced in his second childhood, that for some months he had persisted in carrying to bed with him each night a rag doll which belonged to one of his grandchildren.

— Prentice, of the Louisville Journal, has been dangerously sick, but has so far recovered as to be able to say, without a relapse, that when John Morrissey gets into Congress, we shall have one Muscleman there, but very few Christians.

— "Denis, did you hear the thunder last night?" "No, Pat; did it railly thunder?" "Yes, it thundered as if hiven and airth would come together." "Why in the divil, thin, didn't ye wake me, for you know I can't sleep whin it thunders."

— Miss Fannie Paine, thirteen years of age, has, since May last, performed the duties of paymaster at the Eagle Work Manufacturing Company at Chicago. In eight months the young lady paid out a quarter of a million of dollars. She keeps the time sheets, pay-rolls, and a private account book with and for each of the three to four hundred men employed.

— The death of a remarkable rabbi of the Jewish Church of Germany is announced. M. Frank was a native of Wilna, born in the year 1758, so that he had attained his one hundred and eighth year. At that advanced period of life he was without any of the infirmities of old age; his hearing was perfect; he read without spectacles, and took long walks up to the last week of his life.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the safest as well as the latest remedies for those diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Nose, Face, Tender Shin Bones, Cutaneous Eruptions, Blisters, Ulcers, Abscesses and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that make life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Sleppy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the care of those diseases upon which he now treat

TO THE LADIES

Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 8 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. In cases warranted. No charge for advice.—A. B.—No students or boys employed. Notice N., address all letters to

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantage of dealing directly with the publishers.

Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.

Old agents, and all others, who want the best paying series of books ever offered for circulation, see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass., Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Departures of the 1st and 21st connect at Panama with Steamers for the UNITED STATES and CENTRAL AMERICAN PORTS. Those of 1st touch at MANZANILLO.

Departure of 11th each month connects with the new steam line from Panama to AUSTRALIA and NEW ZEALAND.

Steamer of Dec. 11th, 1866, will connect with the first steamer of the Company's China Line, leaving San Francisco Jan. 1, 1867, for YOKOHAMA and HONG KONG.

A discount of ONE-QUARTER from Steamers' rates allowed to second cabin and steerage passengers with families. Also, an allowance of ONE-QUARTER on through rates to clergymen and their families, and school-teachers.

One Hundred Pounds Baggage allowed each adult. Baggage-masters accompany the cars through, and attend to ladies and children without male protectors. Baggage received on the dock the day before sailing, from steamboats, railroads, and passengers who prefer to send down early.

An experienced surgeon on board. Medicine and attendance free.

For Passage Tickets or further information, apply at the Company's ticket office, on the Wharf, FOOT OF CANAL STREET, NORTH RIVER, NEW YORK.

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Melodeons, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Pianos of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments from the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves of Superior quality of their manufacture. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same.

ANECDOTE OF GEN. SHERIDAN.—The scene of this anecdote of the dashing Sheridan is laid near Appotomatox Court House, during the last campaign in Virginia, just before the surrender of Lee, and it bears "internal evidence" of being true:—

The General dismounted at the fence of a stiff old gentlemen who was sitting on his high piazza and scowling severely as we rode up. He was the typical southerner of fifty years; his long gray hair fell over the collar of his coat behind his ears; he was arrayed in the swallow-tail of by gone make, a buff linen vest, cut low, and nankeen pantaloons springing far over the foot, that was nearly encased in morocco slippers; a bristling shirt frill adorned his bosom; and from the embrasure of his wall like collar he shot defiant glances at us as we clattered up the walk to his house. Prince Edward Court House was a stranger to war, and our indignant friend was looking now for the first time on the like of us, and certainly he did not seem to like our looks. He bowed in a dignified way to the General, who bobbed at him carelessly, and sat down on a step, drew out his inevitable map, lighted a fresh cigar, and asked our host if any of Lee's troops had been seen about here to day. "Sir," he answered," as I can truly say that none have been seen by me, I will say so; but if I had seen any I should feel it my duty to refuse to reply to your question. I cannot give you any information to the disadvantage of Gen. Lee." This little speech, clothed in unexceptionable diction, which no doubt had been waiting us from the time we tied our horses at the gate, missed fire badly. It was very patriotic and all that, but the general was not in a humor to drop patriotism just then, so he only gave a soft whistle of surprise, and returned to the attack quite unscathed.

"How far is it to Buffalo river?"

"Sir, I don't know."

"The devil you don't! How long have you lived here?"

"All my life."

"Very well, sir, it's time you did know. Captain, put this gentleman in charge of a guard, and when we move, walk him down to Buffalo river and show it to him."

And so he was marched off, leaving us a savage glance at parting; and that evening tramped five miles away from home to look at a river which was as familiar to him as his own family. Doubtless to this day he regales the neighbors with the story of this insult that was put upon him, and still brings up his children in the faith for whose dogmas he suffered.

☞ Trieste, a city scarcely known in the United States, and whose inhabitants barely exceed a hundred thousand in number, boasts of a steam marine more numerous, costly and powerful than that of all the States of New England. One single company in that metropolis, whose moles and quays are constantly thronged with Hebrews, Greeks, Armenians and Americans, owns not less than seventy steamers. It is called the Austrian Lloyd Company, and was founded as far back as 1833; and some idea may be formed of the variety and extent of its transactions, from the fact that it runs twelve regular lines of steam vessels every month, and is at once a great marine insurance and a financial company; that it has agents in every bourse in the world, supports enormous printing and engraving offices, publishes three journals in two different languages, has ship-yards, boiler-shops, arsenals, in a word, a naval organization vast enough to make the Austrian seaport, where it is located, almost a nation.

Morning Chronicle.

Portsmouth N. H.

MONDAY, DECEMBER 24, 1866.

THE AMENDMENT AT THE SOUTH.—The Washington correspondent of the N. Y. Tribune says the rumor is very current at Washington that leading Republican Congressmen and members of the South Carolina Legislature have agreed upon the adoption of the amendment, by the South Carolina Legislature, and the admission of the State to representation in Congress without any further condition. The recent vote in the lower branch of that Legislature—95 against the amendment to 1 for it—does not look much like its adoption at present.

A Montgomery correspondent of the Mobile Register says the amendment would probably have been ratified by the Alabama Legislature, had not ex-Governor Parsons urged its rejection. His reason for urging its rejection was, that he wished to have the State agree with the President, rather than with Congress, on reconstruction matters.

"MURDER" BY ACCIDENT.—Wednesday afternoon, in Poughkeepsie, New York, William Buckley and Thomas Casey were leaving the Exchange House when, on reaching the sidewalk, Casey saw a number of pigeons on the roof of the house, and exclaiming, "Oh, see what a lot of pigeons," drew from his pantaloons pocket a single-barrelled breech-loading pistol, intending to fire at the birds. In some way or other the weapon discharged prematurely, the ball, a conical one, passing through one of Casey's fingers and entering Buckley's body. The wounded man placed his hands on his stomach and exclaimed, "I am dying," and soon after expired. The jury of inquest returned a verdict of accidental shooting, appealing to the authorities to take some action in relation to persons carrying concealed weapons.

☞ In 1863 and 1863, county taxes were assessed upon the banks of New York as usual, without regard to the class of securites composing their capital stock, which included a large proportion of United States bonds, &c., that were exempt by act of Congress from taxation. Some of the banks paid the assessment without formal objection when it was found impossible to avoid it; others paid it under protest; and many banks, declining to recognise the tax as legal at all, allowed their property to be levied on by the City Marshal. The insurance companies which held United States securities were taxed in like manner.—Meanwhile suits were instituted against the county for a return of the money, in all a mounting to about two and a half million dollars; nearly two million for bank taxes alone; and the cases were carried to the United States Supreme Court, where judgment was given in favor of the banks and insurance companies. The money is now being refunded by the county.

— A new iron steamer, built on the Clyde, will be put together at Newport, Vt., next spring and launched on Lake Memphremagog. She cost $40,000 in gold.

— The President has informed the Missouri Senators that United States troops have been sent to that State as a precautionary measure, Gen. Grant having regarded the message of Governor Fletcher as foreshadowing trouble.

— Texas has exported, says a late number of the Houston Telegraph, within a short time, a million dollars' worth of cattle. Beef and cotton are struggling for supremacy in Texas. The money brought into the State by the sale of cattle is immense and increasing.

— The Arkansas Legislature has appointed a committee of fifteen to proceed immediately to Washington for a conference with the government as to the political situation of the country, and report on the reassembling of the Legislature on the 10th of January.

— The Collection of Customs at Cleveland, Ohio, has notified the Treasury Department that he seized at that city over forty thousand pounds of steel carriage springs, which were brought from Canada at a much less value than they were sold in the State. By this method of defrauding the United States revenue, the persons engaged in it are enabled to undersell our own manufacturers.

— At Raleigh, N. C., Dec. 20th, Col. Bromford, commanding the United States military forces in the State, interfered and prevented corporeal punishment on the person of a negro. Judge Daniel D. Fowler decided to indict all military officers who were concerned in the transaction. The negro was released after receiving eight lashes, and the soldiers left the ground. The indictments will be issued against the officers. The negro was to be whipped the next day. Judge Fowler has called on the Governor to carry out the laws of the State.

NEW HAMPSHIRE ITEMS.

—— Sylvanus Powell of Grafton, killed a cow a few days since, which weighed, dressed, 850 lbs. and from which was taken 75 lbs. of rough tallow.

—— Rev. Frank Haley, late pastor of the Orthodox Society of Enfield, has received and accepted a call from the Orthodox Society of Concord, Mass., at a salary of $1400 per annum.

—— The work of making bricks in winter is to be attempted in Concord, the temperature to be kept up by steam pipes laid in sand a few feet beneath the earth in the building. Small lots of bricks have been sold this fall at $11 a 12 per thousand.

—— Rev. Judson Fisher, of Alstead, has received and accepted a call to become pastor of the Unitarian Society, in Lebanon, will be installed on the second day of January. The society will worship in the Universalist Church.

—— Lieut. Charles T. Robbins died at Hillsboro' Bridge Nov. 30, of consumption. He was a private in the 13th Mass. Vols., and lost his left arm in the battle of Thoroughfare Gap. He was afterwards 1st Lieut. in the 3d Mass. Heavy Artillery, and last February was appointed clerk in the 3d Auditor's office at Washington.

—— In October last Noah M. Proctor of Franklin, committed suicide while laboring under a fit of temporary insanity. On the 10th inst., Isaac Proctor, father of the deceased, and one of the most respected citizens of Franklin, was claimed by death. Grief over the tragic end of his son was supposed to have hastened the father's decease. On Tuesday last William Proctor, the last surviving child of the family, passed from among the living. They belonged to one of the most respectable families in Franklin.

ATTEMPT AT ROBBERY.—Friday morning at eight o'clock, a man thirty years of age went into the store of Lincoln & Shaw at Concord, to sell some mink skins which he had in a small package. After some talk with the clerk he concluded to wait till the proprietor came in. A few moments afterward the clerk, who had gone for a moment toward the front of the store, happened to look around and discovered the visitor helping himself to mink skins on hand in the store. The clerk then charged the man with robbery and caught him by the collar, but was himself knocked down and threatened with a bullet. The man then ran out on the sidewalk and up the street, with several persons after him crying "stop thief." In his hasty flight he threw off his overcoat, and in his shirt-sleeves ran down to the intervale, crossed the free bridge and struck for the woods.—He was pursued by the police to Suncook river, a distance of three miles, where they lost track of him. In his overcoat were found six furs, being four which he had attempted to sell and two which he had stolen from the store. It was a bold, but losing game for the thief.

☞ On Tuesday last, at LaGrange, Duchess county, N. Y., a terrible affair occurred. A lady named Overacker, seventy years of age, had been for some time laboring under paralysis, being unable to speak or move about. On the day mentioned she was seated in front of a wood fire, when a spark set her clothing on fire. Being unable to give any alarm, she sat there unable to move, and was burned to a crisp. The smoke escaping through crevices of the door and windows, attracted the attention of some of the household, when they rushed into the room, and found her dead.

☞ The French Government, it seems, is getting into new trouble. It must have a more efficient military organization, unless it consents to be vastly inferior as a military power to Northern Germany; but the measures which have been prepared for reforming the military system are spreading discontent among all classes of the population. After the Mexican and Roman fiascos, a general discontent in France forebodes serious danger to the Napoleonic Government.

☞ At Galveston, Dec. 20, Gen. Kiddoo of the Freedmen's Bureau announced his intention to furnish transportation to negroes from States where there is a superfluity of labor to those where it is scarce. He will extend universal facilities to planters desiring laborers.

☞ Quarters are building at Grenada, Mississippi, for a permanent garrison for the United States troops. It is said that Jackson, Vicksburg and Natchez are also to be made permanent posts. The Major General commanding says it is simply to assist the civil authorities in maintaining law.

— The Lowell Courier says that Franklin W. Abbott died at Tyngsboro on Wednesday of lockjaw. He had served in the army during the rebellion, losing part of the fingers of his left hand. Sometime since he removed to Tyngsboro', he having purchased a small farm which he was cultivating. While at work in a saw mill Thanksgiving day he caught his left hand in a saw and cut off the balance of the fingers, which resulted fatally as stated. The deceased leaves a widow and two children.

GEN. HOWARD'S LETTER TO THE PRESIDENT in reply to the charges against the Freedmen's Bureau by Gens. Steedman and Fullerton, is able and interesting, but quite too long for our columns.

After Mr. Johnson had quarreled with the country, he thought to make his quarrel good by demonstrating that the Freedmen's Bureau was superfluous. Steedman and Fullerton were sent on a tour through the South, nominally to report on the condition of the Bureau, really to support of a conclusion before the start. These Presidential agents not only did, but over did, their tasks, and when observation failed they eked out with invention. A more one-sided unjust report was never made than that which they had the sagacity to offer the President, the effrontery to submit to the people. They spent four months in wandering through the South, hunting for abuses which did not exist, and the result of their excursion is a beggarly catalogue of trivial facts, and a monstrous deduction therefrom. The insincerity of their pretended investigation is shown by their neglect to examine the records of the Bureau in General Howard's possession. They asked him no questions, and then complained that they could not find in the Southern States the documents they desired. Gen. Howard says "there is not a Bureau in Washington with a more complete set of report books, records, &c., than can be produced at this office for inspection at any time."

Upon this sham investigation Steedman and Fullerton founded their charge of "an entire absence of system and uniformity in the constitution of the Bureau;" yet the laws that govern it were the work of Congress, and were approved by the President. We presume, however, that these gentlemen meant to speak of the *condition* of the Bureau, and not of its constitution. Even in this respect their charges were vague and without grounds, and we almost regret that Gen. Howard's duty compelled him to expose the wretched pretenses by which they attempt to prove that the Bureau exercises judicial powers in one State and declines them in another; that the agents arbitrarily interfere with the matter of wages; that the system of receiving and of disbursing money is loose. They should have known, without waiting for General Howard to inform them, that the system of Quartermaster's Department has been adopted by the Bureau, and that if the pecuniary management of the Bureau is loose, that of the entire Government is out of order. Other specimens of this investigation are the attempts to make the Bureau responsible for matters which existed before its organization, and to cite as present abuses the delinquencies of a few officers who had been suspended or discharged from their offices. After blundering for four months in this way, it is not surprising that Steedman and Fullerton announced that "the Bureau has been, in the aggregate, productive of more harm than good." Their opinion would have had more weight had it been uttered before the inspection, for their known mission, their conduct of it, and their published reports destroyed what little confidence may have existed previously in their honesty or judgment.

General Howard is perfectly right in suggesting that the object of the inquisition, as understood by these officers, was to bring the Bureau into contempt before the country. They made that plain. Had Messrs. Steedman and Fullerton been wiser, they would have known that the best way to maintain the Bureau was to attack it with malice, and ignorance, and falsehood.—Gen. Howard, however, by this thorough exposition of the workings of the Bureau, and demonstration of its necessity, has probably prevented any future attacks of the kind. We could hope that Mr. Johnson will profit by the lesson.

WEST TENNESSEE.—Gen. Lewis, Commissioner of the Freedmen's Bureau, has returned to Nashville from a trip to West Tennessee. He reports that in consequence of the short crops the planters in many instances are imposing on the freedmen, defrauding them of hard earned wages. The civil courts are generally disposed to afford proper protection when appealed to, but as defendants appeal from one court to another, poor negroes are not able to bear the expense of litigation.

HEAVY VERDICT.—The case of Horatio N. Simmons of Millbury v. the New Bedford, Vineyard and Nantucket Steamboat Co., which has occupied the Superior Court at Worcester the past week, was decided Wednesday by a verdict of $9400 for the plaintiff, who was injured by the falling of a small boat on one of the steamboats of the defendants, in the autumn of 1865. One of his arms was paralyzed.

— A man named W. W. Gilmer, who two months since was released from the State Prison at Winsor, Vermont, where he had served out his sentence for horse stealing, has been again arrested in Troy, N. Y., for the same crime, after having stolen thirteen horses. He seems to have a mania for horse stealing.

☞ The Freedmen's Bureau has received a communication from Prince Frederick county, Maryland, stating that a colored man named John Lox had been indicted by the Grand Jury for that county for harboring his children, who had been bound out but were released to him by Judge Bond of Baltimore. It appears that Dr. James Duke, the owner of Lox's wife, had the children taken away by habeas corpus, when Duke went before the Grand Jury and had Lox indicted for enticing his children from their master. Several similar cases are reported.

☞ The steel plates in the January number of the "Lady's Friend" are beautiful. They are "At Sea," and "Werter's Charlotte." A double fashion plate, children's fashions, work-table department, &c., will attract attention. Price (with engraving) $2.50 a year, four copies (with one engraving) $6.00; eight copies (with extra magazine and engraving) $12.00. Address Deacon & Peterson, 319 Walnut street, Philadelphia.

☞ "The Galaxy" for January 1, is enlarged sixteen pages and printed on new type. In the number for February 15th, will be commenced the new serial novel "Waiting for the Verdict," by Rebecca Harding Davis. The price of the Galaxy will remain as before, $5 a year. Subscriptions may commence with any number desired. W. C. & F. P. Church, publishers, New York.

☞ No 52 of "Every Saturday" for Dec. 29 is issued. It opens with an excellent Christmas story by Mary Howitt, has additional chapters of Miss Thackeray's and Edmund Yates' stories, and eight or ten articles of more than usual interest. The present number concludes the second volume of this very interesting and valuable magazine.

ALLEN'S LUNG BALSAM

Is warranted to break up the most troublesome Cough in an incredibly short time. There is no remedy that can show more evidence of its merits than this BALSAM, for curing CONSUMPTION, COUGHS, COLDS, ASTHMA, CROUP, &c.

Physicians having CONSUMPTIVE patients, and having failed to cure them by their own prescriptions, should not hesitate to prescribe this remedy—it has cured cases when all other remedies have failed.

Consumptives, do not despair because all the remedies that you have tried have failed, BUT TRY THIS GREAT REMEDY.

Sold by THACHER, and by all dealers in Medicines.

Five years has this article been before the public and the verdict returned from every quarter from consumers of the half million bottles that have been sold within that time, is, that
IT ALWAYS CURES."
Mark the following, which is only a specimen of many letters we are daily receiving:
BOSTON, Mass.
Mr. SKINNER & Co.—Sirs—Notwithstanding my general prejudice against proprietary medicines, I was induced to buy two bottles of American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Croup, &c. My son, sixteen years of age, was suddenly ill with Diphtheria and barely speak or swallow, his breathing impeded. We were much alarmed, but decided to try Life Drops before calling a physician. The Drops according to direction, he was relieved and the disease entirely broken up. A friend suffering with Rheumatism, also of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he knows. A family near him, suffering from Ulcerated Sore Throat, used some of them, were cured in a short time. Since then my brother, a physician, have part of mine, which he cured a bad case of Diphtheria. Feel constrained to acknowledge that they are

PIC NIC.—December is rather an untimely month for picnics, according to all generally conceived ideas on the subject, but those who participated in the picnic at Irving Hall on Friday night last are unanimous in the opinion that such gatherings may be made fully as agreeable in winter as in summer. A pleasanter party, or one better pleased with their evening's entertainment, it is safe to say has not occupied the little hall since it was built, and this most satisfactory re-union should lead to others of a similar character.

☞ The following premiums on crops were awarded at the close of the late meeting of the Rockingham Agricultural Society, at Hampton:

1st premium on corn, J. Warren Towle, Epping.

1st " on carrots and ruta bagas, N. and G. Gilman, Exeter.
1st premium on wheat, Fr'nk B. Robinson, Exeter.
2d " " " J. D. Stott, Newmarket.
1st " on cabbages, Levi Towle, Epping.

☞ It is stated in the Boston papers that the affairs of the Portsmouth Steam Factory, which was unfortunate in its manufacture of spool thread, and was obliged to wind up, are now being settled by Mr. Albert L. Jones, the assignee, who is paying the creditors, whose claims only amount to about seventeen thousand dollars, forty-five per cent.

SUDDEN DEATH.—A young Englishwoman, residing at the corner of Hanover and High streets, was found dead in her bed on Sunday morning, although she had retired in good health. She was one of the operatives recently brought from Europe for the Kearsarge Mills.

FINE FISH.—As fine a pair of pickerel as ever delighted the eyes or tempted the appetite of epicure were laid upon our table Saturday evening. We are indebted to Mr. Bell for this attention, and certainly Joseph must know where the finny beauties are to be found, to judge by this specimen of a day's angling in Knight's Pond, Berwick.

POLICE COURT, Dec. 22.—Patrick Barsuple plead guilty to a charge of drunkenness, and was fined $3 and costs $3.86. Failing to produce this tax upon his failing, he was forwarded to the House of Correction.

☞ The Secret Service Division of the Treasury Department recently made a large haul of counterfeiters near Niagara Falls. A large quantity of counterfeit currency was found in their possession.

GOLD, Saturday, 133 1-4.

— Christ's Church, the most beautiful church edifice in Rye, Pa., was almost entirely destroyed by fire Friday night. The fire originated in a defective flue. Only the stone walls and steeple are standing.

— Alice Lane, keeper of a house of ill-repute in Boston, on Saturday dangerously wounded one of the inmates of her house, by shooting her with a revolver while in a passion.

— A Brownsville, Texas, dispatch states that Gen. H. Clay Davis, of Rio Grand City, was accidentally killed on the 11th inst., while on a hunting expedition, a few miles from his ranche.

— A movement on foot to present Gen. Sedgwick with a testimonial for his interference on the other side of the Rio Grande, has been dropped at his own request.

— The store of William G. Cochrane & Co., Philadelphia, was broken into Friday night, a brick fire-proof safe dug into, and railroad and Government securities carried off to the amount of over $200,000.

STOPPAGE OF MILLS.—It is announced that all the knitting mills at Cohoes, N. Y., will be closed this week, and between 2000 and 3000 operatives thrown out of employment.

☞ At Columbia, S. C., Dec. 20, the House rejected the Constitutional Amendment by a vote of 95 against 1.

— We hope that prices will tumble soon and be so badly hurt that they can never get up again.—*Lou. Jour.*

— James Calvin, taken to a station, house in Boston in an intoxicated state died in a fit on Friday while in custody.

— Official returns from the Nevada election give Blasdell for Governor 1025 majority and Ashley for Congress 850 majority.

— Arrangements are being made by the colored people of Norfolk and Portsmouth for the celebration of the anniversary of the Emancipation Proclamation.

— A gale, unequaled in severity since that of Jan. 1, 1855, occurred at San Francisco on Thursday night, doing considerable damage in the harbor.

— About 30,000 British troops are now stationed in Ireland, chiefly in the southern counties. This is about the number stationed in Ireland in 1848.

— The Congressional Committee to investigate the New Orleans riot, (with the exception of Mr. Boyer,) arrived in that city on Friday. Mr. Boyer was expected on Saturday.

— The burning of the Ironsides, at League Island, ought to settle the question against the locality as to a Navy Yard. When the tide went out there was no reliance for water, and this expensive Ironclad had to be destroyed. [There's water enough at this yard.]

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the places of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

SCHENCK'S MANDRAKE PILL.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.
The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while the important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 38 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

Morning Chronicle.

BORROWING NEWSPAPERS.—A Maine paper pitches into some people who make a practice to sponge the reading of newspapers without expense to themselves; and we have some such persons here. We have known men of means to hang around a store where the proprietor takes a paper, for the mere purpose of reading the paper, and getting the news without its costing them anything. There are scores of families whose parental heads spend enough in bad rum and tobacco weekly to pay for a dozen newspapers, and still persist in sponging what little information they get of what is going on in the world from their neighbor. Any man who can afford to indulge in rum, beer, cider, or tobacco, can abundantly afford to subscribe and pay for a newspaper for the benefit of himself and family. Is not that so?

COULDN'T DO HIMSELF JUSTICE.—A colored man who had stuck to the rebel army of General Hood through thick and thin, was in very high hopes of being able to march into Nashville and pay his respects to a lady who belonged to the upper crust of the colored society; and when he discovered that the besieging army was retreating, he determined to break through the lines and throw himself upon the mercy of the cruel Yankees. He presented himself to Gen. Thomas, hat in hand, and standing very straight.

"Where are you from?" inquired the General.

"I've jest from de army, sah."

"What army?"

"Mr. Hood's army, sah."

"Where is Mr. Hood now?"

"He's leavin', sah; he's leavin'."

"Ah! I thought Mr. Hood, as you call him, was coming into Nashville."

"No, sah; Mr. Hood thinks he can't do hisself justice in Nashville!"

☞ A Mississippi Judge of the Supreme Court has decided that his State never lost recognization by the war, and that it was in every respect a State *de jure* as well as *de facto*, exercising its functions constitutionally. The least effect of such a decision would be to vitiate Mr. Johnson's plan of reconstruction. In other words, if a State be such a State as the Mississippi judge conceives, reconstruction is an impertinence.

The late act of the North Carolina Legislature, granting "pardon to all officers and soldiers of the State of North Carolina, or of the late Confederate States armies, or of the United States," for offenses against the criminal laws of that State, harmonizes aptly with the Mississippi decision. North Carolina forgives not only her own sins but those of the United States, which shows that her reconstruction, if precocious, is, in one sense, perfect. She is sovereign enough to absolve herself. Could the President do more? and if he did, would it not be necessary to pardon him?—*Tribune.*

— What is that by losing an eye has nothing left but a nose? A noise.

— The Ellsworth American has a good thing in relation to one of the Johnson men of that region. He had been reading some of Nasby's letters, and evidently took them for genuine gospel truth—for he indignantly declared that the writer was an old villain, and the President should never have taken him on his tour.

— An intelligent colored man, who wants to take a trip East, wishes to know if there is any danger that he will be picked up on the road and sent to some Legislature, amongst some rascally white trash. He says he has a pretty good reputation, and don't want to keep bad company.—*Louisville Journal.*

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent office, Washington.
78 State Street, opposite Kilby Street
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal advice or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded in Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any other which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

MR. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that an exception from such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, that they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

FOR THE MOST POPULAR
And best selling subscription Books Published!
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers an extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.
Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and examine and judge the character of our works with those of other publishers.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in cook and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, at the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheet Music, Music Boxes, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering, Sons and Mackaye, Adam & Co. The superior merits of the former have to a great extent been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the Celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the immediate and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

OLD MUSIC.

Back from the misty realms of Time,
Back from the years agone,
Faintly we catch the ringing rhyme,
And hear the melody and chime
Of olden songs, of strains sublime,
Like the carol of birds at dawn.

And ever we hear them, soft and low,
Harping their music of cost,
Songs that we loved in the long ago,
Rippling their liquid cadence to and fro,
Like the fall of fairy feet.

Some faces our heart will ever hold,
Some smiles we may remember yet,
There were flowing locks like the sunset's gold
There were parted lips of cupid's mould,
And the songs they sang can ne'er grow old,
For our hearts can ne'er forget.

Ah, welladay! this a story past,
Which I may not tell again,
'Twas a happiness too sweet to last;
The heavy clods on her graves are cast,
And her voice is still'd, and above her, fast
Falls the Winter rain!

THE FRENCH LINCOLN GOLD MEDAL. When, on the 1st instant, the medal purchased in France by subscription, for Mrs. Lincoln, was delivered by the committee into the hands of Minister Bigelow, he was also requested to take charge of the following letter to Mrs. Lincoln, the closing sentence of which is noteworthy:

"*Madam:* We are charged to present you with the medal struck in honor of the great man whose name you bear, at the desire of upward of 40,000 French citizens, who wish to manifest their sympathy for the American Union by a tribute of respect to the memory of one of its purest and most illustrious representatives. If France possessed the liberties that America enjoys it is not by thousands but by millions that the admirers of Lincoln would be counted."

EGGS.—It is an eggstraordinary fact, eggsamples of which are very frequent, that eggsiginces sometimes eggsist which seriously affect the price of eggs. But why such eggsorbitant rates should be demanded when it is eggsceedingly hard for our people to obtain the necessaries of life, it is difficult for us to see eggsactly. People cannot be blamed if they become eggsasperated because of it, for it is enough to eggshaust their patience, and cause them to make their eggsit from a store or market.

— The Ice Manufacturing Company of Shreveport, La., with two machines, declared at the end of the season a dividend of 18 per cent., "in spite of the inexperience of those who managed them," says the Caddo Gazette.

— An Oriental maxim says: "If a man knows, and knows what he knows, he will lead a happy life. If a man does not know, and knows that he does not know; he may lead a tolerable life.- But if a man does not know; and does not know that he does not know, he will lead a miserable life."

N. H. STATE MUSICAL CONVENTION.—The fourth annual session of the New Hampshire State Musical Festival will be held in Eagle Hall, Concord, and continue four days, commencing Monday evening, Jan. 7, 1867. Conductors: in the Oratorio Department, Mr. Carl Zerrahn; in the Church Music and Glee Departments, Mr. L. H. Southard. Soloists: Mrs. H. M. Smith, Soprano; Miss Addie S. Ryan, Contralto; Mr. James Whitney, Tenore; Mr. M. W. Whitney, Basso. Orchestra, the Mendelssohn Quintette Club, with the addition of a double bass. Pianists; Mrs. Martha Dana Shepard, Mr W. W. Graves.

Half fare on the Railroads, as heretofore. Return checks will be accepted only on Friday and Saturday, the 11th and 12th. The same liberal deduction in the Hotel rates, as in previous years, will be made; and accommodations, both there and in private families, should be secured in advance.

Tickets; members, $1.00; concerts, each, 50 cts; rehearsal tickets, 20 cts; season tickets, admitting visitors to all exercises, including three concerts, $2.00.

The study of Oratorio Music will be made a speciality. A large and beautiful variety of music, never before attempted by this festival, will be given from the works of Handel, Mendelssohn and Rossini. There is, evidently, an earnest and growing desire among our people, to become familiar with the standard works in this department The study of the magnificent compositions selected for the use of this Festival cannot fail to afford to its members genuine satisfaction and delight, as well as to inspire a deeper feeling of appreciation of the grand and beautiful in the world of music. Let the remembrances of the glorious Festival of 1866, numbering upwards of one thousand voices, stimulate to efforts worthy the occasion. The Church Music department will receive its full share of attention. In this connection, Mr. Southard will introduce his "Offering," a new work of acknowledged merit.

The Glee Department will be rich, full and varied. The customary allotment of time for social musical exercise, will be made each afternoon. The exercises will, as heretofore, be conducted with a view to the improvement of all, rather than the glorification of a few. In other words, this Festival will, as in times past, be a gathering "of, by, and for the people." The attainment of the object thereof, involves certain obligations on the part of its members, viz: an early, prompt and continued attendance upon the rehearsals. Let this week be one of arduous labor as well as of the highest and purest enjoyment.

Three Grand Concerts will be given on Wednesday, Thursday and Friday evenings, January 9th, 10th and 11th. Wednesday Evening Concert, Miscellaneous. Thursday Evening Concert, Miscellaneous. Friday Evening will be given the larger portion of the "Messiah;" selections from Rossini's "Stabat Mater," with selections from Mendelssohn's "Elijah." B. B. Davis, John Jackman and J. H. Morey are the managers. For further information, address J. H. Morey, Teacher of Music, Concord, N. H.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, DECEMBER 25, 1866.

☞ A cable dispatch from Florence, Sunday, Dec. 23, says orders have been issued to arm two vessels to support the claims made by Italy on Turkey in regard to the affair of the mail steamer Prince Thomas. Advices from Rome report that the Pope appears to be in a peevish state of mind and little disposed to regard with favor an arrangement with the Italian Government, although he receives counsels from all quarters to incline to moderation and appease Italy. France supports the efforts of Italy, which have as yet been of no avail.

☞ A sheriff on taking possession of a canal boat lying directly under the bows of the Cunard steamship Scotia, lying at her pier in Jersey City, on Tuesday last, discovered stowed away in the hold of the boat one hundred and twenty-five kegs of gunpowder, enough to have blown up the steamer and all the buildings in the neighborhood. The ownership of the powder or what particular purpose it was designed to subserve remain a mystery, though persons of Fenian proclivities are quite certain that it was intended to destroy the British steamer.

☞ Election for delegates to the Republican Congressional Convention are now completed. In the Convention, Rockingham County has 110 delegates, Strafford 56, Carroll 42, Belknap 34. Total 242, making 122 necessary for a choice. Of the whole delegation we are informed that Ela has 126, Wheeler 69, Marston 29, Rollins 18.

EVIDENCES OF RECONSTRUCTION IN FLORIDA.—Recent reports from Florida, which there appears little reason to question, say that officers and soldiers and civilians from the North are subjected to many persecutions and annoyances on the part of the civil authorities. The municipal authorities have frequently arrested General Foster's officers and orderlies for fast riding when they were going no faster than a canter; and when Foster protested against such arrests, the Mayor made no answer. Foster then ordered him to cease making such arrests, and telegraphed to General Sheridan to know if he had done right.—Sheridan referred the matter to the President, who directed that the civil authorities should not be interfered with.

☞ Miss Ellen Vinto, aged 23, was burnt to death on Saturday evening, at Chelsea, Mass., by a lamp which is supposed to have exploded when she attempted to extinguish it.

☞ In Philadelphia, Sunday evening, the lager Beer Brewery of Messrs. Balz, was wholly destroyed by fire. The malt house of Sweetman's Brewery was also burnt in front.

— A train of thirty cars, of Southern build, recently ran into New Orleans, over the N. O. and Jackson railroad.

— Eleven cotton factories in South Carolina are insuccessful operation, runing 27,200 spindles and 996 looms.

— A Mrs. Anna Drummond has been arrested in Davenport, Iowa, for having three husbands at the same time.

— The Spanish religious journals recommend the re-establishment of the inquisition in Spain, as the sole means of saving society.

— The flour mills of Louisville, Kentucky, turn out 2000 bushels of flour daily, consuming annually 3,000,000 bushels of wheat.

— Some of the copperheads of Jefferson county, West Virginia, have refused to pay the taxes of the legislature in order to test the legality of their separation from the Old Dominion.

— A principal agent of a prominent life insurance company recently died and had no insurance upon his life. This is almost as bad as the bald-headed man selling his ointment for restoring the hair.

— "The work of a thousand men for four years," is the inscription upon the immense railroad bridge which has just been erected across the Susquehanna river at Havre de Grace, Maryland.

— The Chambers, (Ala.) Tribune says there is a gentleman doing business in that town, who has upward of six hundred cousins in Chambers county, and don't count beyond second cousins. [He'd have a good-sized family if he included his "foreign relations."]

— Fast young men's motto—Meet and drink.

— A Western paper lately published an address by Mr. Brown, and in its next issue noted the following correction: "For 'dum swizzle,' please read 'prominence.'"

— In a matrimonial advertisement for a husband, the advertiser says that as she "wants a full grown man, none need apply who is under six feet." That is not an unnatural notion for a lady bent on bymen.

For the Chronicle.

CHALLENGE TO OWNERS OF COWS.—I have an Ayrshire cow, ten years old last Spring, that has given a little over 800 lbs. of milk in ten days. In seven days, during the month of June, she made from her milk 28 1 2 lbs. of butter. At that time she ran in a pasture with five other cows, and every night I gave her four quarts of meal, and the average quantity of her milk was 40 quarts per day. I have two heifers from this cow; and one of them, during the months of December, January and February, averaged 15 pounds of butter a week, and was fed and watered but twice a day. I think we shall make 700 pounds of butter from her this year.

I challenge any one in America to match the old cow for butter or milk, for the term of one year, in a forfeiture of five hundred or one thousand dollars, at the election of the person accepting this bet.

All publishers interested in the improvement of our stock of cattle, are requested to give this notice an insertion in their papers.

STEPHEN SCAMMON.

Stratham, N. H., Dec. 22, 1866.

☞ In the [illegible] of Alabama, last week, an amendment was offered conferring suffrage from every male person in the State twenty-one years of age, who owns two hundred dollars' worth of property, who can write legibly and read the State and United States Constitution, and who shall have resided in the State one year, and six months in the county, preceeding the election in which he offers to vote; providing that no person who now has the right of franchise shall be deprived of it by the operation of the amendment. The proposition was laid on the table by a vote of sixty-nine to eighteen.

☞ On Saturday in New York city, five additional distilleries were seized. The revenue officers find that the reputed proprietors are mostly agents of wealthy capitalists. Most of the distilleries in that city have ceased operations in consequence of the great vigilance of the revenue officers. Catherine N. Crosby was awarded $5000 damages for injuries received while on a Brooklyn ferry-boat which collided with a United States gunboat.

☞ At the celebration of Pilgrim's Day by the New England Society in New York City, Governor Hawley of Connecticut, said that although the Blue Laws had been greatly objected to, there was one which allowed no parent to rear a child unless it was taught to read and write. Governor Smyth of New Hampshire and Governor Yates of Illinois also made remarks.

☞ The second annual Re-union and Levee of New Hampshire officers, to be held at Concord, January 1st, will be a grand affair. The order of exercises includes a business meeting for completing organization of "Veteran's Union of New Hampshire," an Oration, Poem, Levee and Ball.

—— Charles Julius Koppe, a German, who had been employed at the Manchester House, Manchester, for one twenty-years, as a waiter, died there on Saturday last.

FROM MEXICO via Havana, we have a budget of rumors, mostly favorable to Maximilian and his empire;—but the rumors are about as shaky as his throne.

THE LIBERAL CHRISTIAN is now the title of the Unitarian paper in New York City, hitherto called the Christian Inquirer. The new paper is nearly twice as large as its predecessor. Its editors say "We shall endeavor to make the Liberal Christian all the Inquirer was, and a good deal more." It has been a very ably conducted paper, and is to be improved as well as enlarged.

— The proprietors of the Nashville Gazette are about to institute a suit against the United States and European News Association, laying their damages at $5000, for the refusal on the part of that association to furnish it with telegraphic reports.

— A story is told of a young man in Freeport, Ill., who was crossed in love and attempted suicide lately by taking a dose of yeast power. [Nonsense! He took yeast powders to "raise" his spirits.]

— Mrs. Joanna Murphy, a widow about thirty-five years old, was found frozen to death in Methuen on Tuesday, with an empty whiskey bottle at her side.

— A man named Hartman accidentally hung himself near Bellevue, Iowa, a few days since, by being caught by his "comforter" while descending from a tree. When taken down life was extinct.

— Two weeks since Mrs. Welland Holden, of South Reading, Vt., drowned herself in a little brook, in only six inches of water, having tied a handkerchief over her mouth and laid herself down in the brook.

— A ward in Boston that pays more than a quarter of the whole taxes in the city, is represented in the Legislature by three men whose united taxes do not exceed [illegible] dollars!

— An effort is making to have the Lighthouses on Plum Island moved to the other side of the Basin. Where they now are they do for lights, but are no assistance to vessels entering the harbor.

— Did anybody ever see a cow with calves to her legs?

THE REVIVERS OF DEMOCRACY.—A curious political sign of the times is to be found in a recent letter of General William Preston of Kentucky. This Preston was our National Minister to Spain just before the war broke out, having always been a prominent Democratic politician. He returned home, entered the rebel army and did what he could do to convulse and ruin the Union. Now, having been suggested by some flattering friends as a suitable candidate for Governor of Kentucky, he writes a long letter, frankly defining his position. "Without doubt," he says, "after the close of the war, the Southern element" [an elegant phrase for "rebels"] "was the most energetic power in reviving the exanimate Democracy of the State." He then goes on to show how the boldness, numbers and activity of the "returned rebels," as he admits they were sneeringly called, succeeded in fully reorganizing the party and securing a heavy victory at the polls. He maintains, therefore, that the true course is to openly honor "the Southern element" in the party, by advancing its representatives and making common cause with them against the radicals. He speaks of "the glorious struggle of the South," and of "the battles of the people which were fought with such admirable courage."

In short, General Preston proposes to march into the Democratic party with the rebel flag flying and all its drums beating, and take complete possession thereof. He uses one phrase which is very significant. He says that the true policy to be pursued is "not to turn the Democratic party into an auxiliary of *abolition* and the constitutional amendment." Is emancipation, then, (asks the *Boston Journal*) to be resisted in the same breath with the amendment, and the Democracy of Kentucky committed to the revival of slavery? Or are the ex-slaveholders of that State beginning a covert movement for securing from the United States compensation for the loss of their slave property? How else is "abolition" to be fought? And then the question arises when the Democracy of Kentucky shall have been thoroughly reorganized on the basis of "the Southern element," what will be its relations to the party in other States? Can there be one Democracy North and another South? That is impossible. The very hunger of the Northern leaders is for reunion with their Southern brethren, which they fondly hope will give them back numbers, the semblance of nationality, unity and direction. It may be laid down in advance that the future Democratic party of the country, like the past, will take its principles and its lead from the South. Hence we have regarded this demonstration of General Preston's, in a State having so large a Democratic majority as Kentucky, as of great significance, which it will be worth while to to keep track of hereafter.

IMPROVEMENTS IN KANSAS.—The Fort Scott Monitor says that one firm of lumber dealers have sawed, at their mills on the Drywood, during the past summer and fall, over six hundred thousand feet of lumber, besides thousands of laths and shingles, most of which have been used in the construction of buildings for immigrants on the Neutral Lands of Kansas. They have filled bills for over two hundred houses on these lands alone. We call this pretty good business for one mill; and it also shows that the country is rapidly filling up with substantial farmers. There are five or six other lumber mills in the county.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been known to mankind. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure Their penetrating property stimulates the vital activities of the body, remove the obstructions of the system, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and invigorating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of the functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.
T. ALLCOCK & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.
Messrs. ALLCOCK & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.
Sold by all Druggists. n29—dawlm

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the testimony returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever tried. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."
The Life Drops are carefully prepared by

Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for *Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility*, arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:
CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass.:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MILLER,
City Missionary.

Local.

☞ There is good prospect of having some sport in Portsmouth, as well as almost everywhere else, next summer. The Rockingham Trotting Park is progressing; the land bought and paid for, and partly graded; and on the opening of spring the fences and buildings will go up. The first payment of $50 per share, is now due, and subscribers to the stock are requested to pay over the same to the treasurer. Besides horse-trotting, it will be a fine place for private driving, or fairs and the like.

☞ They tell a story of a cautious financier of this city, who was in the office of J. E. M. Gilley, Broker, in Boston recently, when a person came in and asked Gilley what was the cause of the decline in gold, and enquired how low it would probably go. Well, said Gilley, some shrewd men on State street think it will go to par right off, others who think we do not know how valuable greenbacks are, predict it will go down to 80, or 20 per cent. below greenbacks!" Our Portsmouth citizen, who has an eye to the main chance, stepped up to the Broker and quietly remarked, "Should it go down to 75, please buy $1000 for me."

☞ Our terms are "cash"—inexorably so, usually, to all strangers and out-of-town "patrons." Once in a while, however, like other folks, we do break over our rule, and for some reason or other, we are green enough to "trust" some distant advertiser—in which case we are pretty sure to get bit. A case in point is one "Dr. J. Bryan," so called, of 819 Broadway, New York, who owes us $17, and we guess will never owe us less, and we know will never owe us more. Look out for the quack, Br. Printers.

☞ Our readers will notice that the sheet we print on this morning, is a little larger than usual, which is rendered unavoidable by the failure of our regular supply for a few days. It is also heavier than some we have been obliged to use at times of late, and which was too thin to satisfy us or probably our readers.

☞ Conductor Wm. H. Alexander, connected in various capacities for a long time with the Concord and Portsmouth Railroad, made his last trip up on Monday evening. He will now run upon the Concord and Nashua road, and his place on the C. & P. road will be filled by Mr. Le Bosquet.

NAVAL. — Acting Master Henry C. Nields has been ordered to the Pawnee.

Actg. 3d Asst. Engineer Jay W. Smith has been detached from the Snowdrop and ordered to the Pawnee.

Actg. 3d Asst. Engineer James Quinn, has been detached from the Jean Sands and ordered to the Pawnee.

These officers are to report Jan. 1.

☞ The three stores in the new Congress Block are now all occupied, by their first-class tenants, who are all well known to our citizens. Messrs. Shores and Preston have already made their bow to the public, and in our next issue Mr. Batchelder (through Mr. Coleman, his very efficient agent,) will have a few words to say of his fine new store.

It would not be easy to find three better tradesmen in town, than these—or better stocks, or prettier stores. Messrs. Shores and Preston have never spared any pains to improve and beautify the city, and well they deserve that their lines should fall in pleasant places. We give them all, a Merry Christmas!

POLICE COURT, Dec. 24.—The case of Michael Buckley for assault on Owen Henwood, continued from the 12th inst., came up. Henwood having acknowledged satisfaction and Buckley having paid costs ($4.70), the complaint was *not pros'd* by consent of complainant.

☞ The second of Mr. Barnabee's series of concerts will be given to-morrow (Wednesday) evening. It is unnecessary for us to say that the entertainment will be satisfactory to the audience, as the large number present at the first concert rendered that verdict in advance at that time.

☞ The warm rain has carried off all the snow and ice, and those who promised themselves a sleigh-ride for Christmas, will be disappointed. The hopes of the skaters will now rise again.

☞ Mine host Philbrick, of Rye Beach, will open his new, elegant and spacious Boarding House in this city, on New Year's. See his card.

☞ What is better for Christmas, than a mess of those fresh oysters advertised for sale by measure at a low price for these days, at the oyter house of W. Freeman.

☞ Philharmonic Rehearsal, this week, on *Thursday* evening, at half-past 7. Both books to be used, and the new Orchestra will probably be in attendance.

☞ The compliments of the season we give to all readers—especially to all good subscribers.

☞ There will be no Daily Chronicle on Wednesday, as we keep Christmas to-day.

GOLD, Monday, 138 1-8.

☞ An 'En-chanting Lay—Hens cackling over an egg.

☞ De Facto, horrid wretch, wants to know if the song, "Those tender blue eyes," refers to a gal with weak eyes?

☞ The Johnsonians at Washington say that Gen. Sherman's mission to Mexico was not a failure.

☞ Chas. H. Chase, aged 25 years, was killed at Lynn, Saturday night, on the Railroad Track, by the train from Portland. No blame attached to the railroad man.

— On the 3d of January there will be a procession of the trade societies in London, which is to occupy ten miles in length of men marching six abreast.

☞ The range lights for entering Pensacola harbor have been re fitted and re-established, as follows:

BAR RANGE.—This range consists of the main light and a beacon light, 37 feet above sea level, 458 feet apart, bearing N. N. W. ½ W from sea. This course leads over the bar.

CAUCUS RANGE.—This range is marked by the two Fort McRae beacon lights, distant 532 feet apart. The front beacon is 22 feet and the inland beacon is 28 feet above sea level, bearing from the front beacon W. N. W.

BARRANCAS RANGE.—This range is marked by two beacon lights, distant 618 feet. The northern or inland beacon is placed on a high bluff, and has its focal plane at an elevation of 55 feet above sea level, bearing from the front beacon N. ½ E. The front beacon has an elevation of 26 feet above the sea, and stands upon a low sand beach about 20 yards from the water's edge

The three front beacons are white-washed, with lantern painted black, while the inland beacons are colored black all over. They are quite conspicuous in the day-time at a distance of six to seven miles, and their elevation and illuminating power will render them efficient at night far beyond the distances required.

will find *Troches* useful in clearing the voice when taken before Singing or Speaking, and relieving the throat after an unusual exertion of the vocal organs. The *Troches* are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having *proved* their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the *Troches* are universally pronounced better than other articles.
OBTAIN only "BROWN'S BRONCHIAL TROCHES," and do not take any of the *Worthless Imitations* that may be offered. SOLD EVERYWHERE.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the remotest, of the known world, bearing with it its healing influences more potent than those of the spices of Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

SCHENCK'S MANDRAKE PILL.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.
To give the public a clear understanding of the mode in which SCHENCK'S *Mandrake Pills* produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.
The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress, then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which looks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz Pulmonic syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. to 1 until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

WHY WILLY WANTS THE CURTAINS UP.

Cold wind, cold wind,
You may rumble shrilly;
Sung and happy in his bed,
Lies our little Willy.

Round moon, round moon,
On the snow you glisten;
You may hear our Willy laugh,
If you will but listen.

Bright stars, bright stars,
How the snow has drifted!
Mother, let the curtain stay;
Let me have it lifted:

For I like to see the stars,
If awake I'm keeping,
And to have the stars see *me*,
If I am a sleeping.

From the Portsmouth Journal

CHARLES TURELL.—We recently heard that this gentleman died several months since in New York, at about 80 years of age. He was a native of Salem. In 1818 he left the Salem Gazette office, where he had learned the art of printing, and took charge of the *Portsmouth Oracle*, which he published until 1821, when the name was changed to the *Portsmouth Journal*. He continued publisher until 1825, when the establishment was transferred to the present senior proprietor, who had spent the seven previous years in the office. Mr. Turell then commenced the publication of the Commercial Advertiser, which, although conducted with much ability, was poorly sustained. After abandoning this paper, he removed to New York about 38 years ago, where he remained to the close of life. He was a printer of good taste, and possessed a good tact as a writer, indeed his most pungent paragraphs were never written, but composed as he put them in type. He was not over fond of work, but took more enjoyment in the social festivities of the day. Our recollections of him personally, are pleasant—for he had many good traits which are worthy of remembrance.

EDWICK EVANS, ESQ.—The papers inform us that this eccentric gentleman, who was a native of Portsmouth, died about a fortnight since in New York, in the 80th year of his age. He formerly practised law in this city. About fifty years ago he made a tour on foot from this State to New Orleans. Starting at a season of the year when

"The Northern blast is on the plain,
And the traveller shrinks in the midst of his journey"—

he arrayed himself in a fur dress, and with his dogs and gun he attracted no little notice as he progressed. He published a volume of 300 pages, giving an account of his adventures, to which a cut of the traveller in costume was prefixed. In 1824, he delivered an Oration on Liberty Bridge, on the 4th of July. Soon after he went to Greece and volunteered his services in their war for independence. After his return he took up his residence in Washington city, making but little noise in the world.

REMARKABLE CASE OF LONGEVITY.—Since the olden days when Methusalah celebrated something more than his nine hundredth birthday, the time allotted for man's terrestrial enjoyment has been gradually decreasing, and now few people live to trespass on time beyond the three score and ten years which are said to constitute old age. The revolutionary heroes who have turned the century are looked upon as possessing great hardihood, and when any one of them would fain enter a second time on his teens it is generally expected that the effort will kill him. Still instances exist of the success of the effort; but when a woman, and an advocate of "woman's rights," at that, completes here 109th year and still lives to denounce mankind as "deceitful and a disgrace to the women," people may well be incredulous regarding mortality.

An old lady, named Mrs. Mary Arnod, has completed her 109th year, and still living hale and apparently hearty in body, and with a mind little impaired by age. Yesterday several gentlemen from New-York visited the old lady, at her son's residence, No. 32 Douglas-st., Brooklyn, and held conversation with her, during which she related many incidents of the Revolution and the war with Great Britain. Her maiden name was Mary Ives, and it remained unchanged until she was 25 years of age, at which time she married, and bore her husband eight children. Five of them, all daughters, are still living, the youngest being 60 years of age. In the house with the venerable old lady her great great grandchildren are living. Her immediate descendants number 157. During the conversation, Mrs. Arnod reminded one of her visitors that three years before he had promised to visit her, and had not done so as soon as she expected. At times she expressed a wish to die, but from her present appearance it is fair to infer that she will yet live several years.—*N. Y. Tribune.*

Mr. Charles Manent, a native of Portsmouth, who now lives in New York, married the youngest daughter of Mrs. Arnod, now sixty years old. Mr. George Manent 2d, of Kittery, and Mr. Charles Manent 3d, of this city, are grand children of the old lady.

MR. BARNABEE'S SECOND CONCERT.—The public will bear in mind that the second Concert by Mr. Barnabee is to take place next Wednesday evening. The liberal patronage extended to him at the first concert of the series, warrants him in anticipating a full house. There will be a change in the performers, with a fine array of musical talent, and a new programme. Mrs. Smith is said to be the leading Soprano of New England, and Mr. Arbuckle the finest performer on the cornet in the country. A pleasant evening is all that is required for ensuring a full house.

NEW CITY DIRECTORY.—Messrs. D. Dudley & Co., of Boston, are at present engaged in getting up a new Directory for this city, and will immediately proceed to canvas for the same. It is about three years since the last issue of a like book here, and the changes which have taken place since, occasion a call for the new issue. The last issue was deficient in neglecting the *Street Directory*, and on that account occasioned much complaint of subscribers.

Mr. Johnson's Ex-Provisional Governor Holden of N. Carolina, now pronounces the Provisional Government system at the South a failure; adding that "all hope that existing Southern organizations will concur in measures necessary to restore the States to the Union, is at an end." If so, they will have to be *governed as Territories*, until they see clearly their best interests.

Great sale of Real Estate.—The Amos Lawrence house and lot on Tremont St., Boston; has just been sold for *thirty dollars* per square foot!—$210,000.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on the market, are unsolicited, and is selling rapidly, both North and South.
Old agents, and all others, who want the best paying agencies, will please send for circulars and *see* our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass., Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

60 FROM 25 CENTS.—The best terms ever offered to Agents on a *New Patented Article. Sure to sell in every family.* A SAMPLE with full particulars sent free by mail for 25 cents, that retails easily for 50. Address G. W. JACKSON & CO., No. 11 South street, Baltimore, Md.

BLUSHING.—For the cause and cure of this painful emotion read the ANNUAL OF PHRENOLOGY, for 1867. 20 cents. FOWLER & WELLS, New York.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the sale of the above articles. Notes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comment, and of the latter, suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the best music teacher.

RIVER SPORTS IN THE SOUTHWEST.—Traveling on the lower Mississipi must be a very pleasing diversion—to people tired of life—as will be seen by the annexed extract of a letter from Yazoo City, Miss., to the Memphis Post, dated Dec. 5:

"At 5 P. M. yesterday I went aboard the little sternwheel packet Emma No. 2, Captain Page master, for Yazoo City. We cast off our lines about five minutes after the Hope, a rival packet, and it soon leaked out that we were to have a race with her. We kept our relative position in the rear for about ten miles. On entering Old River—former bed of the Mississippi—we shot ahead, carrying one hundred and ten pounds of steam. We kept ahead about ten minutes, when our rival steamed alongside, amid a perfect storm of huzzas from both boats. Our boat then rounded-to and struck the Hope a thundering lick amidships that jarred every timber and bolt in her, and sent her port chimney careening on her hurricane deck. I expected every moment to see one or both boats blown to 'Davy Jones' locker;' but our boat only stopped a few moments to ascertain the damage done to her adversary, then steamed away."

THE THREE POWERS.—The press—the pulpit—the petticoats: the three ruling powers of the day. The first spreads knowledge, the second morals, and the last spreads considerably.

— Why is crinoline like an obstinate man? Because it often stands out about trifles.

— Why is a young man's arm like the gospel? Because it makes glad the *waist* places.

— Mother—"Here, Tommy, is some nice castor oil, with orange juice in it." Doctor—"Now remember, don't give it all to Tommy, leave some for me." Tommy (who has "been there.")—"Doctor's a nice man, ma; give *all* to the doctor."

— 'Do you see that fellow lounging there, doing nothing?' said Owens to Jenkins, the other day, 'How does he live? By his wits?' 'Oh, no, he's a cannibal.' 'A cannibal?' 'Yes, a cannibal—*he lives on other people.*'

— As there is no station, however exalted, which can secure a man the approbation of the wise and good, so there is no station, however humble, which will prove a barrier to true eminence, when virtuous and honorable principles are the main-spring of all our actions.

— While ten men watch for chances one man makes chances, and while ten wait for something to turn up, one turns something up; so while ten fail, one succeeds and is called a man of luck, the favorite of fortune. There is no luck like pluck, and fortune most favors those who are most indifferent to fortune.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, inducing the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH,
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, DECEMBER 27, 1866.

LICENSE TO MURDER.—The President, by an order dated Dec. 22, has dissolved the Military Commission, held at Richmond, for the trial of Dr. James L. Watson. The prisoner, who recently murdered a negro in Rockbridge County, Va., has therefore been discharged from custody, and is secured from any punishment. The facts in this case (says the Tribune,) deserve to be universally known.

"A few weeks ago a negro named Echols drove violently against a carriage in which the family of Dr. Watson were riding, breaking it, but injuring no one. The next day Watson went in search of the negro, found him at work in a field, and attempted to beat him. Echols resisted and ran, pursued by Watson, who threatened to shoot him unless he stopped. Echols preferred flight to a struggle, and Watson drew a pistol and shot him through the body. He died in a few hours. The murderer then surrendered himself, and his trial in the County Court resulted in entire acquittal. General Schofield, before whom these facts were brought, issued an order, under authority of the Act of Congress of July 16, 1866, for a Military Commission in Richmond, and on the 19th inst. Watson was brought before it. His conviction, had not the President interfered, was certain, for he confessed that he had committed the crime.

Mr. Johnson, in dissolving the Commission, choose to accept the recent decision of the Supreme Court, that military trial of civilians in the Loyal States is illegal, as his authority. His Cabinet, it is said, agrees with him. This interpretation will surprise no one, though it would have been better had a test case been submitted to the Supreme Court from the Rebel States. We are not yet prepared to admit that Virginia and Indiana stand in equal relations to the Government. But any argument on this point is superseded by the fact that the President's action has taken from the freedmen their last hope of protection, from their oppressors the last fear of punishment. Watson killed this negro brutally. It was a murder without a shadow of justification, and freely admitted and boasted of as an act of courage. Yet the civil authorities of Virginia acquitted him of any crime, and virtually excluded the wanton killing of a negro from the category of murder. He may kill another to-morrow, and there is no power that will punish the act.

This is not an exceptional case; in Georgia, 300 freedmen have been killed since Christmas, 1865, and but three of their murderers have been punished by the civil courts. Our correspondent at Savannah writes, under date of Dec. 19: 'It would be just as easy to get a jury in the State of New York to convict a person of manslaughter for shooting a mad dog, as to get a jury of Rebels to find a Rebel guilty upon a charge of killing a negro.' Sweeping as this assertion may be, the escape of Watson is an instance of its truth, as the New Orleans massacre, the acquittal of Perrin, in Columbus County, Georgia, of the murder of Henry Thomas, and hundreds of other cases are proofs. The civil courts in the rebel States positively refuse to try such cases, while in the few cases where the fear of military interference has induced them to parade the form of duty, the jury has acquitted the prisoner without the pretense of deliberation. No more need be said; we may simply add that the construction which President Johnson puts upon the decision of the Supreme Court, whether it be right or wrong, has left the Freedmen without a particle of legal protection. The whole subject must come before Congress, which will not, we may hope, neglect its duty of immediate action."

[The best immediate action would be, a prompt impeachment of President Johnson, who should be disposed from his office with all needful ceremony and solemnity,—not exactly "kicked out," as he proposed to treat decent office holders, and as he has treated a great many, without any cause, — but he should be, *for his many misdemeanors*, dropped suddenly into private life, when he would at the same moment drop into general contempt. And if the present Senate has not two-thirds with brains or backbone sufficient for the work it, should be accomplished next March by the Senate then in Session.

Deposing the President as the Constitution provides, would *reform* the Cabinet, and, with a little help from Congress, *reconstruct* the Supreme Court by adding enough loyal Judges to outvote the copperheads on the bench.

Other remedies for the evils are possible, but they are only partial, and quite too slow. The great body of the people would be glad to be rid of the man who disgraces the office, and perplexes the nation which he knows not how to govern.]

LIFE INSURANCE COMPANIES. — In a matter so important as that of insuring one's life, is it not strange, that so many men apparently intelligent and enterprising in other business, should be so careless in this transaction; involving as it does the welfare of widows and orphans? There are in this city resident agents of some of the oldest and strongest Life Insurance Companies in the world,—men who have in a score of official years established a reputation for character and stability, and are worthy representatives of institutions, each with over ten million dollars of capital in trust for widows and orphans; companies conducted on the highest principles of equity, security and perpetuity. And yet there are many persons among us who are led away by the syren tones of an *itinerant*, an utter stranger, whose persuasive manner and flattering talk convinces the unwary that the NEW company which he represents is more worthy of trust, and indeed the best repository of their hard earned surplus funds. A stranger to whom one would not lend ten dollars on the security of his word, yet receives the confidence which should be given only to those of long tried integrity.

If there is any transaction in the life of a man about which he should exercise the most discreet caution, it is that of obtaining an insurance upon his life for the benefit of others who are dependent upon him for support, and whose place in a manner the Life policy will take at his decease, to continue that protection which during life he has provided for them.

It has now become a well settled truth in the minds of most intelligent persons, that the class of men who can afford to *neglect* the benefits of Life Insurance is very small. To the business man an insurance upon his life is as much a matter of duty, as that of insuring his stock of goods or other property; but it is far more important that in the former, he should take out his policy with a well-known and firmly established institution, that all the blessings may be reaped which follow like angels of mercy in the track of such institutions.

A NEW MOVE IN LIQUOR PROSECUTIONS.—In the Boston Municipal Court, Monday morning, Chamberlain, J., a young man named George F. Lerock made complaints against the proprietors of the Parker House, Revere House, Young's Hotel and Tremont House for maintaing liquor nuisances: and in behalf of the complainant, N. Richardson, Esq., addressed the Court. He stated that at the request of the complainant and others, he appeared for the purpose of urging the issuing of warrants against the proprietors named, as a matter of justice to all parties. He had been advised that it was not the purpose of the State Constabulary to prosecute wholesale dealers or keepers of the principal public houses, but to confine their prosecutions to the second or middling classes, and by seizure of their stock in trade, and frequent prosecution of them, to break them down, while the upper classes were to be allowed to continue the business and sell as much as they please, without the least restraint. He had no ill feeling towards any of the gentlemen complained of, but as he was now engaged in defending several clients of the middling class, and hoping that his defense would prove successful, he thought in justice to that class, and to all interested, warrants should issue upon the complaints just made, and be made a motion to that effect.

Thereupon the Court remarked that although the State Constabulary were deputed specially to make complaints in this class of cases, he should grant warrants upon complaint of any person showing good cause, and warrants in this instance would be issued.

WASHINGTON ITEMS, Sunday, Dec. 23. The Boston Advertiser's special says, the secession element in this District is rejoicing over the presidential order dissolving the military commission ordered at Richmond by General Schofield for the trial of Dr. Watson, who murdered a negro. It was done after consultation with the Attorney-General concerning the bearing of the late decision of the Supreme Court upon the case. It is understood that Mr. Stansbery is engaged in determining how far that decision affects the past acts of military courts and the condition of affairs generally in the late rebel States.

Information received from the New Orleans excursionists says that a delegation of leading men extended every courtesy to the party. They talk freely regarding political matters, and the indications seem clear enough that there is almost universal opposition to the amendment. Though they take Mr. Johnson's policy, they disdain having any confidence in him. They seem to think the South had better await the turn of events.

☞ The Republican nomination (and of course election) of Governor for this State, seems now to lie between Hon. Onslow Stearns, and Col. Walter Harriman.

GOLD, Wednesday, 131 1-2. Sent to Europe $400,000.

A ROMANTIC AFFAIR.—The Superintendent of Police in New York received, last week, a dispatch from Halifax, requesting him to arrest a lady who would arrive on board an English steamer, and who had assumed the name of Johnson. The arrest was made, and along with the lady a man named Jeremiah O'Conner, with whom she had eloped from Ireland, and both taken to the police head quarters.—The New York Commercial thus gives the finale of the story:

"On arriving at the police office the lady told her story to the Police Superintendent, and expressed her determination to have no other but O'Conner to be her husband. She told him that in order to get here with him she sold her horse to pay expenses, and before leaving Ireland, where she and her lover were born and reared—the one in the lap of luxury, and the other in the obscurity of a poor man's farm—she had borrowed £20 from her brother. She had known Jeremiah O'Conner, the young farmer referred to, all her lifetime, and he had known her for the same length of time. They had been on terms of intimacy for nine years, and they were both not only willing but desirous to get married, a consummation which, however devoutly desired, never could have been accomplished in Ireland, owing to the impessable gulf of rank.

The young lady is the daughter of a landed gentleman, born to estate and great wealth, while the young man is the son of a plain, poor, but respectable farmer. Mr. Kennedy (the Police Superintendent) could see no way out of his difficulty, having detained them, but the right way, so he at once arranged for the celebration of the nuptials. An Episcopal minister was sent for, and as he arrived and the side door which shuts out intruders from Mr. Kennedy's front office was thrown open for an instant to admit him, the lady rose to her feet and exclaimed, 'there is my brother and *my cousin in the* other room.' She had caught a glimpse of them as the door was opened. Mr. Kennedy thereupon went into the other room and asked the gentlemen their names, and found them to be as the lady had said. He announced what was about to take place inside, and told the brother that he was just in time to witness the ceremony of his sister's marriage. He threw his hands up in horror, and exclaimed, 'Impossible! impossible!'

Mr. Kennedy told him that he could not see things in that light; that he was sure he would not want to take his sister back to Ireland with a stain upon her character; that, in fact, he (Kennedy) had taken no step he would not desire to have taken had the lady been his own sister under like circumstances.

The young man asked an opportunity to converse with his sister in private. It was granted. It resulted in his reconciliation to the event, and he and his cousin were witnesses of the marriage they had come from Ireland, by steamer, via Halifax, to prevent.

The lady is well educated, beautiful and energetic, and although engaged to a gentleman now in China, with an income of £30,000 a year, chose the man of humbler rank, whom she learned to when her passions were pure and her love that of innocence."

BRAZIL.—The Emperor of Brazil has liberated many slaves. A Rio paper says the number is several hundred, and that as they belong to the nation, the Emperor could only free them from the usufruct of services, which was his right, and therefore will have to pay for them out of his private purse. His generosity is the further enhanced by the fact that he has taken upon himself the charge of furnishing all that should be necessary for the support of the female slaves and their children. This act of the Emperor is regarded as very important, from the influence it will have in leading the slaveholders to emancipate.—It is said that the Emperor intends to incorporate six hundred slaves into his army. He is not himself a slaveholder.

REBEL PRIVILEGES INVADED.—There is quite a stir in Georgetown about the Cox mansion, which was occupied during the war, after its owner went South, by the "Home for Colored Women and Children," then under the direction of Miss Peabody of Boston. A few months since the owner, Richard S. Cox returned from "Dixie," was pardoned by President Johnson, and Secretary Stanton declining to interfere in behalf of the Home, the managers and children were ejected from the premises.—On Friday Gen. Howard sent a force of men to remove a wooden building erected by Government, but Cox had them arrested on a charge of trespass, and the case is to go before the courts.

FROM MEXICO comes a statement that Canales has executed Escobedo, and that panic and confusion reign at Matamoras. The Pope addressed the officers of the 85th regiment on their departure from Rome. He said: "Your flag now returns to France, but many consciences will not be satisfied. Revolution will come to the gates of Rome. Italy is not complete, as has been said, because this scrap of territory remains. When this no longer remains the flag of revolution will float over Italy's capital. I pray for Napoleon and for his tranquility, and he also must do something. France is the eldest daughter of the Church, but it does not suffice to wear the title. The right to wear must be proved by deeds.

☞ On Sunday, a fire in Elmira, New York, destroyed property to the value of $400,000; insured $200,000, chiefly in New York.

☞ On Sunday evening, a great fire in Vicksburg, destroyed about 100 buildings of which 38 were large brick stores. Two white children and four negroes perished in the flames. Six negroes were killed by accident. One hundred families are rendered houseless. The origin of the fire was carelessness in Meyer's bar-room.

DR. JEREMIAH F. HALL,

Has been appointed Medical Examiner of the

Mutual Life Insurance Co.

OF NEW YORK.

The present assets of the Company amount to over EIGHTEEN MILLION DOLLARS.

The subscriber has been the agent of this Company for more than twenty years, and he can speak from actual knowledge of the profitable results which have accrued to the policy holders in this city, not only as a protection, but as a highly remunerative investment.

The custom of insuring life has became almost universal now, among the business men of this country, as it has been in Europe for many years. There is no investment of a small sum of money annually which will pay so well as that which provides a growing fund for the benefit of the widow and orphan; or, under the endowment system, a solid investment for the comfort of maturer life. JAMES P. BARTLETT, Agent.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they surpass all other cathartics in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel diseases. They purge out the foul humors which breed and grow distempers, and when these are disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

ALLCOCK'S POROUS PLASTERS.
LAME BACK.
New York, Nov. 23, 1859.
T. ALLCOCK & CO.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.
CURE OF CRICK IN THE BACK AND LUMBAGO.
Lyons, N. Y., July 4, 1862.
Messrs. ALLCOCK & CO.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.
Dr. Green, No. 863 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and CURED HER IN TWO DAYS of a most distressing pain in her back and loins.
Sold by all Druggists. n79—dawlm

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
BOSTON, MASS.
"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, seven years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Local.

POLICE COURT, Dec. 25.—James Burke for brawl and tumult, was obliged to pay a fine and costs amounting to $7.80.

John Sheehan, for drunkenness, contributed $6.86 to the municipal treasury.

POLICE COURT, Dec. 26.—Julia Gregory, a recent graduate from Mr. Philbrick's Reform School, sought a merry Christmas in the flowing bowl, and this morning, in default of the customary penalty exacted for common drunks, returned to the House of Correction.

☞ The decorations in the churches for our Christmas festivities were rather meagre. The Christian Chapel, on Court street, was beautifully decorated, on Monday evening, under the lead of Mr. Jas. H. Dow. The Episcopal Church was very tastefully decorated, though less profusely ornamented than in some former years. At the Catholice Church, on Tuesday, a very large collection was taken, but the usual ornate trimmings were lacking.

☞ Rev. J. M. Mace, late City Missionary at Washington, now acting as agent for the National Theological Institute for the education of colored Ministers and Teachers, at Washington, D. C., will address the citizens of Portsmouth, at the Temple, on Sunday evening, in reference to the true condition of the freedmen in the District of Columbia, physically, morally, educationally and religiously, and more especially present the claims of the above-named Institute. All are invited to attend. A collection will be taken for the above-named object.

☞ One of the pleasantest features connected with the advent of Christmas, and almost a new one in this locality, was the carroling by a party of English, from midnight until nearly dawn. If this custom be maintained with one-half the pertinacity that has attended the blowing of horns on Guy Fawkes' Night, we will wager that its popularity will far exceed that of the "concord of discord."

☞ The wreck of schooner Frances, driven upon Kittery Point in the gale of Oct. 30, was purchased for $1000 by Mr. Hoyt, and while being towed to the city for repairs, by steamer Fortifire, a few days since, sunk suddenly near Pumpkin Island. The wreck was raised on Sunday and brought to its place of destination.

☞ The fire on Wednesday evening was in the paint shop of Messrs. Coffin & Colley, on Penhallow street. Our fire department confined the flames to the building where they originated, showing that long rest has not abated their vigilance.

☞ The Callao "Commercio" newspaper of Nov. 26th, has a report that the old U. S. steam frigate Lancaster, was sunk in attempting to round Cape Horn; and although the information was not official or authentic, still the bad condition of the vessel (which was on the way home for repairs) gives reason to fear the worst. The Lancaster was built at Philadelphia in 1858, and has always been in the Pacific squadron. She had a crew of about 300 men, and her armament consisted of 24 nine-inch Dahlgrens, 2 thirty-two pound Parrots, and 2 twelve-pound howitzers.—She was commanded by Capt. Dan'l B. Ridgely—Lieut. Commander Wm. B. Cushing; and among her officers was Frank D. Webster of this city, Lieutenant of Marines, who has a wife and sister living here. The New York Herald advises to place little credence in the report, but we fear it is too true; and can only hope some of those on board may have been saved.

☞ The Conventions to nominate Republicans for Congress, in the 1st and 2d N. H. Districts, meet to-day, at Dover and Manchester as usual. The last information seems to be, that Mr. Ela and Gen. Stevens will take the seats now occupied by Messrs. Marston and Rollins.

☞ The new ship recently purchased by Messrs. Jones and others has been named Semiramis.

— The winter style of bonnets consist of two twine strings, with a diamond set in the top.

☞ A court in France has decided that when a railroad fails to transport passengers to a given point in a given time, by the breaking down of an engine or any other accident, the company is bound to pay the expenses of passengers who may adopt other means to reach their destination. A decision like this in America would probably remedy many of the delays on railroads of which passengers so frequently complain.

TEMPERANCE BEST FOR TRAVELERS. Bruce the celebrated African traveler, in giving advice to strangers about to visit the "putrid climates of Lower Arabia, Abyssinia, Sennaar, and Egypt itself," says, "I lay down as a positive rule of health, that spirits and all fermented liquors should be regarded as poisonous; and for fear of temptation, not so much as to be carried along with you, unless for outward application. Spring or running water, if you can find it, is to be your only drink."

☞ The officers of the Susquehanna say that statements published of the civilities of the French officers at Vera Cruz are entirely untrue. The vessel was forbidden to approach nearer the city than Verde Island, and the only intercourse with the French was a message delivered to Mr. Campbell by the officers of the French Navy, that if he wanted chains and anchors they would be happy to supply them. Mr. Campbell replied that he stood in no particular need of such articles himself, and he imagined that United States ships-of-war were generally supplied with them.

Mr. Campbell declares it to be his purpose and expectation to find Juarez within forty days.

THE LADIES' FRIEND.—This soap, advertised by Messrs. Goldsmith & Co., proves on trial to be a very excellent article, and may be obtained at wholesesale at their shop, in the rear of City Building, or at retail of most grocers.

Business Notices.

☞ Philharmonic Rehearsal, this week, on *Thursday* evening, at half-past 7. Both books to be used, and the new Orchestra will probably be in attendance.

Holloway's Pills.—Determination of Blood to Head.—Imprudence or neglect of health is tantamount to constructive suicide—the penalty, a short, quick struggle, and instantaneous death. All who are of full habit or subject to apoplectic or epileptic fits, should never be without a supply of these invaluable medicines, as they will find a safeguard in occasional doses of them. In every instance they have been attended with the most successful results. Sold by all Druggists. d22 1wdaw

THE LADIES',
Gentlemen's, Misses' and Children's Boots and Shoes at T. E. MOSELEY & CO.'S. Summer street, Boston, include their usual assortment of excellent styles for this season's wear. 38

CURE YOURSELF OF DYSPEPSIA.—This most aggravating of all complaints—a disease from which more people suffer and die than almost any other—has at last found its master. Coe's Dyspepsia Cure controls and completely cures it in its worst stages; no one who suffers from dyspepsia, sick-headache, souring and rising of the food, should be without it. Whilst in all cases of hard colds, stubborn coughs, sore throat, and all bronchial affections, Coe's Cough Balsam is the cheapest and best. These two articles are deservedly very popular with the masses. d24

DEATHS.

In this city, Dec. 25, Miss HATTIE N. MARVIN, aged 21 years, 9 months, daughter of Wm. Marvin, Esq.

Funeral this (Thursday) afternoon at 2 o'clock, from the residence of her father.

In Charlestown, Mass., Dec. 20, MARTHA A. DAVIS, aged 26 years, 6 months, daughter of Wm. A. Greenough, formerly of this city. Her remains were brought here for interment.

CARD
To the People of Portsmouth and Vicinity.

Having removed to store **No. 3 Congress Block**, please allow us to return our heartfelt thanks for the liberal patronage bestowed upon us at the Old Stand, and to hope with our better facilities for and strict attention to business, together with fair prices and fair treatment to all, to merit a continuance of the same.

We shall have constantly on hand all of the popular
DAILY, WEEKLY AND MONTHLY
PAPERS, MAGAZINES, &c.,
which we shall deliver at any part of the city, by the year, month or single copy, on the most reasonable terms.
Also, a large and general assortment of
NOVELS, OF EVERY DESCRIPTION.
Our STATIONERY DEPARTMENT
we intend to make a specialty, and those in want of Writing Materials will find it to their advantage to give us a call.
We also have a large and splendid lot of
Memorandum Books and Diaries
for 1867, which will be sold at low prices.
We have also a large assortment of
Fancy Goods,

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal physicians, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

Dr. Schenck, the Lung Doctor.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists.

THE FIDGETY THING.

BY MRS. C. H. GARDNER.

It's just as you say, neighbor Green,
A treasure indeed is my wife;
Such another for bustle and work
I never have found in my life.
But then she keeps every one else
As busy as birds on the wing,
There is never a moment for rest,
Else is such a fidgety thing.

She makes the best bread in the town,
Her pies are a perfect delight,
Her coffee a rich golden brown,
Her crullers and pickles just right,
But, then, while I eat them, she tells
Of the care and worry they bring,
Of the martyrs like to be made of them,
O, she's such a fidgety thing!

My house is as neat as a pin—
You sh ould see how the door handles shine,
And all of the soft cushioned chairs,
And nicely swept floors are mine,
But then she go frets at the dust,
At a fly, at a straw, or a string,
That I stay out of doors just to escape
She is such a fidgety thing!

She doctors the neighbors; O, yes!
If a child has the measles or croup,
She is there with her saffron and squills,
Her dainty made gruels and soup.
But then she insists on her right
To physic my blood in the spring,
And she takes the whole charge of my bile,
O, she's such a fidgety thing!

She knits all my stockings herself;
My shirts are all bleached white as snow;
My wife clothes look better than new
When brought from the tailor's, I vow;
But then if a morsel of lint
Or dust to my treasure should cling,
I'm sure of one sermon at least,
She is such a fidgety thing!

You have read of a spirit so meek,
So meek that it never opposes,
Its own it does never to seek—
Alas! I am meeker than Moses!
But then I am not reconciled
The subordinate manner to sing,
I submit to get rid of a row,
She is such a fidgety thing!

It's just as you say, neighbor Green,
A treasure to me she is given,
But sometimes I fain would be glad
To lay up my treasure in Heaven,
But then every life has its cross,
Most pleasures are mixed with their sting,
She's a treasure, I know, neighbor Green,
But she's a such a fidgety thing.

— An English clergyman recently preached a sermon in which he said that the newspaper was a part of life's earnest self-culture.

— A thief was lately caught breaking into a song. He had already got through the first two bars, when a policeman came up and bid him with a stave. Several notes were found upon him.

— When Sheridan taught school, he had in one of his classes a boy who always read partridges for patriarchs. "Stop," exclaimed the wag a teacher, "you shall not make game of the patriarchs."

— A commercial paper says: "Dry goods are coming down." This is good news although the exhibitions we have witnessed lately, led us to the conclusion that dry goods were on the rise.

AMERICAN AND FOREIGN PATENTS.

H. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1836.

78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on the shortest terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal advice and other aid rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. *Assignments recorded at Washington.*

The Agency is not only the largest in New England, but through it inventors are advantaged for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any other which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFULL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his massive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. H. H. Eddy has made for me THIRTEEN Applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakeably proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made no less *rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

VICTIMS OF REBEL BARBARITY.—The Madison (Wis.) Journal relates the following sad narrative concerning a father and mother made insane by the death from starvation of their son in a rebel prison:

During a visit to the State Hospital for the insane, some weeks ago, our attention was attracted by the peculiarly sad and hopeless expression of one of the patients. He was a man apparently about 55 years of age, with grizzled locks, a sturdy, well knit frame, and decently clad in homespun. His general appearance was that of an ordinary elderly farmer. He was sitting with downcast eyes, wholly absorbed in his thoughts. Nothing diverted his attention. Passing by him several times, we were struck by his motionless posture, his entire abstraction from things around him, and the sick and haggard expression of his face. Inquiring of Dr. Van Nostrand, the Superintendent, he related to us briefly the history of the patient. He was a farmer, in comfortable circumstances, residing in one of the remote counties of the State. When the Southern slaveholders rose in rebellion to overthrow the Government and divide the country, this man had a son, dearly loved, who enlisted to aid in defending the republic against its enemies. For a time he received letters from him occasionally, but during the last year of his term of service these ceased to come. No intelligence reached his parents, however, that anything had befallen him. His regiment was about to return to be mustered out. The parents hoped that all was well with their boy, and that he had only neglected writing. In this hope they eagerly awaited the return of the regiment and its muster out, expecting that their son would return with it. At length the regiment came and was mustered out, when from members of his company they learned that their son had been taken prisoner by the rebels, confined at Andersonville, and had there died of starvation.

The news, made doubly poignant by its suddenness and by coming at the very moment they expected to meet their son, was a blow so terrible that it shattered the reason of both father and mother. Only the father, however, was brought to the hospital, his wife being cared for by her friends at home. He sits moody and abstracted for hours, and again at times has paroxysms of frenzy, when he fancies that he hears his son's voice calling to him for help, imploring him for food, crying out to him that he is starving to death. The same form of delirium characterizes the mother. Both imagine that they hear the voice of their dead son calling to them from the far-off prison-pen of Andersonville, and imploring their aid.

— There is nothing the mind will sooner tear itself to pieces upon than a question of privilege, no matter how trifling.

— Gold is the only idol that is worshipped in all lands without a temple, and by all sects without hypocrisy.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, DECEMBER 28, 1866.

MEAN AND IMBECILE TYRANNY.—The President has suspended, by an order dated Dec. 19, paragraphs V. and VI. of General Orders No. 15, issued by Gen. Sickles in the Department of the South.—We quote the paragraphs.

"V. Corporal punishment shall not be inflicted upon any person other than a minor, and only by the parent, guardian, teacher, or one to whom said minor is lawfully bound by indenture of apprenticeship. Nor shall any person be sold to service as a punishment for crime or for other causes by any authority whatever."

"VI. The laws of the States, respectively, in this Department, defining and punishing vagrancy, applicable to white persons, may be enforced against all persons; nevertheless, no one who shall have used reasonable diligence to obtain employment, or who shall be unable to work, by reason of infirmity, shall be deemed a vagrant."

By this act President Andrew Johnson permits South Carolina to whip her free negroes, and reestablishes Slavery in all the States—the same outrages which in Maryland have aroused the indignation of the people. He has attempted to *nullify the Civil Rights bill*, defies the clause in the Constitution prohibiting Slavery; and has gone out of his way to seek a new issue with Congress. Of all his evil acts, none is worse than this, and none more clearly a misdemeanor, making him liable to impeachment.

WASHINGTON ITEMS, Dec. 26.—There was a large attendance at the Supreme Court, as it had been announced that the opinions on the test oath were to be delivered. They were not forthcoming, and it was announced that the Court would be adjourned from next Friday until the 3d of January.

It is rumored that the Chief Justice will not grant a writ of habeas corpus for Dr. Mudd.

Secretary McCulloch went to New York by the way of Harper's Ferry to call on Mrs. Lewis Washington, whose husband, it will be remembered, was arrested by John Brown, and whose furniture was confiscated but was restored by the Secretary.

Gen. Grant is quite ill, having been confined to his room since his return from the West on last Saturday evening. No serious results are anticipated.

It is understood that a General order is in the course of preparation, to be directed to Department Commanders, acquainting them with the decision of the Supreme Court against the legality of courts martial for the trial of civilians, and directing them to confine themselves strictly to their military duties, leaving judiciary questions to the decision of civil courts, or something to that effect.

[The course of the President, and that of the five copperhead judges, are in the same spirit,—and in consequence the traitors and rebels lift up their hands, and the copperheads utter a joyfully malignant *hiss*. The remedy is plain—viz:—depose their great leader, in the legal way,—and then crush out the whole brood of vipers.]

NEW YORK ITEMS, Dec. 26.—John Calmore was found dead in his bed at 132 Smith street, Brooklyn, supposed from intemperance. James Duaning fell down his basement steps, in Harrison court, and was killed immediately. He was intoxicated.

An intoxicated man, name unknown was run over by a street car and killed, on Furman street.

It is stated that 130 radical office-holders have been removed from the bonded warehouses in N. Y. lately.

SHAMEFUL NEGLIGENCE.—The investigation into the burning of the New Ironside shows that there was only one watchman on duty at the time, and no marines attached to the fleet, which numbered thirty vessels, twenty of them being iron-clads lying in ordinary. This is a very poor show for our National Administration, which needs overhauling from stem to stern.

☞ Another fire at Elmira, N. Y., Wednesday noon, burning a great wholesale tea and coffee store. The fire originated in a coffee roaster in a cellar beneath the coffee and tea store. Loss $70,000; mostly covered by insurance.

— It was reported at Hong Kong, December 1, according to a cable dispatch, that the French naval expedition against Corea, undertaken by an admiral to avenge the murder of missionaries and other outrages, had been beaten off from Kunghan with the loss of forty-five men, and that the imperial fleet had returned to Shanghae.

— A London dispatch informs us there is no longer any danger apprehended of a Fenian revolution in Ireland, and that "confidence has returned to the people," which seems an ironical expression when we consider how many British regiments have been sent to keep the people quiet. That the rebellion has been smothered is confirmed by the tenor of Dublin correspondence.

NEW HAMPSHIRE ITEMS.

—— Hon. J. W. Patterson, representative of the 3d District, has just succeeded in getting three of Burke's appointments set aside, and the republican Postmasters at Fitzwilliam, Charlestown and Canaan have been reinstated.

—— Patrick Wins, Richard Keating and Thomas Ryan, are under bonds at Manchester, for an aggravated assault on Joseph M. Rowell, Esq., of that city, last Saturday evening. Mr. R. was not acquainted with them and knows no occasion for the attack, which was probably the effect of fighting rum. Yet it came near being murder,—but Col. B. F. Martin, who was alarmed by the outcry near his house, came to the rescue, and with John Horrigan, who was passing, saved the man, and secured the scoundrels.

☞ Perley telegraphed to the Boston Journal on Thursday that Gen. Sherman was stopped at St. Louis by a telegraphic dispatch from the President, directing him to return to New Orleans, where he will rejoin Minister Campbell, and the two will again visit Mexico to establish a government by an election. They were directed to do this when they went there before, but the unexpected action of Maximilian prevented their carrying out the instructions given them.

☞ The rumors from Mexico are as chaotic as the Republic, and as unreliable as the Empire.

— B. Gratz Brown, U. S. Senator from Missouri, is out in a letter to the people of that State, in which he advocates impartial suffrage and the enfranchisement of rebels.

— Thirteen objections were once given by a *young lady for declining* a match—the first twelve being the suitor's twelve children, and the thirteenth the suitor himself.

— A large number of brigs and schooners are to be built this winter in our Maine ship yards, notwithstanding the hard competition from eastern builders, occasioned by the customs duties upon materials.

— A writer in Rockville (Md.) Sentinel suggests Gen. Grant for President and Gen. Lee for Vice President of the United States, to be run as the National Union candidates.

— A fashionable lady at Pittsfield, Mass., wore her new bonnet to church last Sunday wrong side before, somewhat to the amusement of the few who knew the difference. None of those religiously inclined noticed the error.

— The recent proclamation of Gov. Fletcher of Missouri, is said to be a trick to depreciate the State bonds for the benefit of parties to whom he sold a railroad for which these bonds were to be taken in payment.

— The Richmond Times says there are to day more slaves in America than when the negroes were bondmen from the Potomac to the Rio Grande, and the worst is that now they are all white; but it seems to forget that "time about's fair play."

— The London compositors declined to join in the trades demonstration in favor of reform. They say that their society was established for trade purposes only, and they object to the employment of its machinery for political objects.

— Gossip says that the Queen of Spain lately determined to raise a tenor singer to nobility, but the ministry threatening to resign if such an outrage be perpetrated, her Majesty was compelled to abandon her design.

— At Normal, a town in Illinois, recently, a petition was drawn up to the Legislature asking for power to perpetually prohibit the sale of liquor in that locality. This petition was subsequently signed by every inhabitant of Normal. If no one wants either to buy or sell liquor in that place, there does not seem to be much necessity for any prohibitory law.

— A young lady named Haskins, who has been teaching school in the neighborhood of Lake Pleasant, N. Y., recently undertook to correct a pupil, a little girl, when she was set upon by an elder sister of the pupil and cruelly beaten. She was thrown down and her skull fractured so that she is now a maniac beyond the hope of recovery.

— A Mr. Butts of New York writes that he can lift two thousand seven hundred and twenty-seven pounds two ounces. He says: "I have eaten plain, simple food—few kinds at a meal—avoided knick-knacks, pork and condiments. I have used mostly vegetable food and milk when that would answer—but I found it necessary, a portion of the time, to introduce solid animal food into my diet."

— On Friday evening last as the train from Richmond reached Petersburg, a small boy jumped from the truck under a car, covered with frozen mud from head to foot. An inquiry revealed that he had slipped under the train when it started from Richmond, and getting upon the rod to which the brakes are attached had placed his arms through the truck, and in this position rode the whole distance.

☞ We have received from E. B. Treat & Co., publishers, 654 Broadway, N. Y., advance sheets of "Farragut and our Naval Commanders," by Hon. J. T. Headley. The work will be comprised in one large octavo volume of nearly six hundred pages, including sixteen engraved portraits of prominent Naval officers, and four full page battle scenes, from new original designs. It will be neatly printed on good paper, from large new type, and finished to subscribers: in extra English cloth, $3.50; in fine leather (Library style) 4.50; in extra half calf (antique) 5.50.

The writings of Mr. Headley have been so extensively read that no comment is needed on his style, and the typhographical execution of the book is excellent, as are also the portraits, judging by those of Farragut and of Rear Admiral Theodorus Bailey. The work is sold only by subscription, for which agents are wanted.

☞ The first number of Oliver Optic's Magazine for Boys and Girls has been issued by Lee & Shepard, Boston. It is to be published weekly and embraces among its contributors, besides Oliver Optic, some of the most talented writers in the country. The publishers intend to make it a first class Juvenile Magazine, and the initial number gives good indications that they will do so. We can promise any boy or girl who may subscribe for it many hours of very pleasant entertainment in its perusal. Each number will contain twelve large octavo pages and will be handsomely illustrated.

☞ Private theatricals and parlor dramas have grown greatly in favor of late, but amateurs have had considerable *trouble in the selection* of plays that do not require more accessories of dress and scenery that can be readily obtained in most cases. To obviate this difficulty, Messrs. Dick & Fitzgerald of New York, have recently published "The Parlor Stage," by S. Annie Frost, a collection of charades and proverbs suited to amateur performances, a very neat book of 368 pages.

MARION HARLAND.—Burleigh says, in his New York gossip," among the most attractive and beautiful things for Christmas is the Christmas Holly, published in superb style by Sheldon & Co. The story—"Nettie's Prayer"—will do any father and mother good to read and make Christmas a cheerful place to every home. The authoress, whose *nom de plume* is Marion Harland, is the wife of a Reformed Dutch clergyman in New Jersey. She is one of the most prolific writers of fiction that we have. She can be seen any day on the fashionable course, where her husband drives a fast horse and takes nobody's dust. The world have little reason to complain of an austere religion, when our leading ministers write novelettes for the press and our parsonages are the founts from whence issue the popular literature of the day."

[Burleigh is probably correct in these latter statements:—but in some minds the query will arise, how are these *lively vanities* to be reconciled with the creed and preaching of the Reformed Dutch Church? These are well known to be mainly like those of the Presbyterians.]

AT NASHVILLE, Tenn., Christmas night, a murderous affray occurred between a party of the 34th Infantry and a party of policemen. The former were cheering for Lincoln and the Union, when the latter came up with answering cheers for Jeff. Davis. A melee followed in which Edward Prego, a soldier, was shot, dying in a few minutes. Sergeant Henry Bishley received a serious wound in his head. Great excitement exists over the affair, and a number of unofficered soldiers are out in search of the murderers, with threats of vengeance, Maloney, who robbed a paymaster of over $8000 last summer, and was sentenced by the Court to hard labor in the penitentiary has escaped with two other convicts.

☞ At New Orleans, the Congressional Committee has been completed by the arrival of Hon. Mr. Boyer. They have examined some fifteen witnesses, the same who testified before the Military Commission, and the testimony so far is the same.

Gen. Sherman expressed himself very decidedly, when visiting the committee, in regard to the insecurity of loyal men brought before the State courts, alluding particularly to the recent decisions against Federal officers in that city and also to the arrest and imprisonment of the Freedmen's Bureau agent in Texas. He also asked the Committee's special attention to this matter, as the military could offer no protection.

☞ At the latest dates, a financial crisis prevailed in Havana. Several banks had suspended specie payments and closed their doors. A general crash was expected.

DR. J. F. HALL

Has been appointed Medical Examiner of the

Mutual Life Insurance Co.

OF NEW YORK.

The present assets of the Company amount to over EIGHTEEN MILLION DOLLARS.

The subscriber has been the agent of this Company for more than twenty years, and can speak from actual knowledge of the profitable results which have accrued to the policy holders in this city, not only as a protection, but as a highly remunerative investment.

The custom of insuring life has became almost universal now, among the business men of this country, as it has been in Europe for many years. There is no investment of a small sum of money annually which will pay so well as that which provides a growing fund for the benefit of the widow and orphan; or, under the endowment system, a solid investment for the comfort of maturer life.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we have found yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children, being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have left their evidence to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Rheumatism, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

ALLCOCK'S POROUS PLASTERS.
LAME BACK.

New York, Nov. 23, 1859.
T. Allcock & Co.—Gentlemen: I lately suffered severely from a weakness in my back.—Having heard your plasters much recommended for cases of this kind, I procured one, and the result was all I could desire. A single plaster cured me in a week. Yours respectfully,
J. G. BRIGGS, Proprietor of Brandreth House.

Cure of Chick in the Back and Lumbago.

Lyons, N. Y., July 4, 1862.
Messrs. Allcock & Co.: Please send me a dollar's worth of your plasters. They have cured me of a crick in my back, which has troubled me for some time, and now my father is going to try them for difficulty about his heart.
L. H. SHERWOOD.

Dr. Green, No. 868 Broadway, New York, informs us he sold, on Monday, June 23d, 1862, two plasters to a young woman suffering very severely from lumbago. On Thursday she called to get two more for a friend, and then stated that the two she had purchased on Monday had relieved her immediately after putting them on, and cured her in two days of a most distressing pain in her back and loins.

Wonderful, but True!
MADAME REMINGTON, the world-renowned Astrologist and Somnambulistic Clairvoyant, while in a clairvoyant state, delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychomotrope, guarantees to produce a perfect and life-like picture of the future husband or wife of the applicant, with date of marriage, occupation, leading traits of character, &c. This is no imposition, as testimonials without number can assert. By stating place of birth, age, disposition, colour of eyes and hair, and enclosing fifty cents, and stamped envelope addressed to yourself, you will receive the picture by return mail, together with desired information.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:
"Boston, Mass.
"Orrin Skinner & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. Elder."
The Life Drops are carefully prepared by

Smolander's Extract of BUCHU:
Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for *Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility*, arising from excesses of any kind. Read the following Testimony of a City Missionary:
Charlestown, Mass., Nov. 25, 1865.
Messrs. Burleigh & Rogers, Boston, Mass:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the cure that, through the blessing of God, you have wrought upon me by using Smolander's Buchu. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk* I took four bottles of *Smolander's Buchu*, and it *cured me*.

Local.

☞ The fire of Wednesday night, in Mr. Coffin's paint shop, appears to have caught near the stove, though there is no apparent cause for it. A 40-gallon can of varnish, which stood near, was burnt, making a very dense smoke; but the fire department wisely keeping the doors and windows closed till they had a stream of water ready, were then able to quench the flames. A barrel of benzine which stood only a few feet from the fire, was unharmed, while a part of a barrel of oil was overturned and spilt on the floor, but did not take fire. Altogether, it was rather a narrow escape from another bad fire in that locality. No workmen were at the shop after 5 o'clock—the fire broke out soon after 9 o'clock.

Besides Messrs. Coffin & Colley's loss,—Mr. W. A. Cate's provision store, and Mr. Mayo's liquor saloon, were considerably stove up and wet down. All the parties are insured. Mr. Coffin, for a rarity, had left his account books in his desk overnight, but they were recovered uninjured. Two horses in the stable attached, were rescued in good season, as was also much of the other property exposed on the premises.

☞ Mr. Barnabee's second Concert of his series, (which he has decided to make four entertainments,) on Wednesday evening last, was a complete success—musically, socially, and pecuniarily. The audience was very large and "select"—if anybody knows what that means; and the performances very fine. Mr. Barnabee we never heard do better (and we certainly never heard anybody *else* do better than he) in his own peculiar forte, which is the humorous, or comic, pathetic and descriptive.—We think we *have* heard him *sing* better than on this occasion—though, as to that, why need a man with his greater and rarer gifts, otherwise, care whether he can sing "classic" music or not?

What greater or better thing can a man do for his fellows, than amuse them innocently, as Warren and Barnabee can do with their words, songs and acting, and Mrs. Partington with her pen? And yet we have an idea that nearly all such mirth-provoking people rather prefer some other character, than the one for which nature has so admirably fitted them. If they agreed with our philosophy—that a man who makes another laugh, is his benefactor—they would think otherwise.

But one thing we must suggest to Mr. Barnabee—that he should extend his *repertoire*, which any one *with his good taste in* selection and his evident faculty of acquiring, would have but little trouble in doing. Three or four times he has presented the same pieces here—and though his admirable rendering of them (on this occasion better than ever) has made the repetition passable, still we think he would hold a much stronger hand, with more trumps.

As for his assistants—Mrs. Smith appeared and sang beautifully, though evidently suffering from a cold, and acquitted herself like the accomplished and pains-taking artiste she certainly is. Mr. Arbuckle's cornet playing was, as usual, masterly and highly enjoyed; and Mr. Dow, at the piano, was smooth and beautiful as ever. All hands were in the best of humor, and answered the repeated and determined encores by giving almost pieces enough for another concert not on the bills.

Mr. Barnabee himself sang for an encore the old "Cal-o-mel" song, and gave it nicely too, of course. He also stated that the extra special, supplementary and complimentary entertainment, "Too late for the train," will be donated free gratis for nothing to ticket holders in his series—No. 3 cards by being shown to the door, or the door keeper, causing open sessame. This will come off Monday, January 7th,—the real third and last concert being appointed for the 16th. Rarely have we had so successful a concert series, as this of Mr. Barnabee's—and we congratulate our former townsman that he is not without honor even in his own country, and are glad to see a young man every way so worthy encouragement, receive it so liberally from those who know him best. d24

☞ What between the audible chatter and clatter of the fools behind us, both of the male and female persuasion, in the Temple gallery, at Mr. Barnabee's concert, and the alarm of fire and consequent hubbub out doors and in,—it was only by the most determined persistence that we were enabled to enjoy the performances,—which, including these extras, were of the most varied and unexpected character. Soon after the first cry of fire, Mr. Barnabee announced its location—but few heard him; and when having sung another piece, which was greatly interupted, he shouted that "the fire was in Mr. Coffin's paint shop in Penhallow street," this announcement caused many other people to be more quiet, but did not seem to have that effect on Ed. himself, who sat directly before the speaker, and it was amusing to see what good time he made from the hall.

☞ Rear Admiral George F. Pearson, U. S. N., is in our city, in good health, and looking finely.

☞ The next Lyceum Entertainment will be a Concert by the Mendelssohn Quintet Club, (instrumental,) of Boston, with Miss Ryan for vocalist—on Tuesday evening, Jan. 1st. It is hardly necessary for us to say more, for everybody knows that this is one of the very best orchestras in the country, and will give a rare treat to all who love good music.

☞ The heavy eastern gale of Thursday made out door business uncomfortable, and many kinds of it impracticable in this city. The severity of the storm on the coast must be productive of some disasters to navigation.

☞ A schooner while trying to make her wharf near the Spring, on Thursday morning, ran into the market, crushing her bulwarks and doing other slight damage.

☞ The freight train from this city to Portland, over the P., S. and P. Railroad, on Thursday morning, ran off the track when about two and a half miles this side of Kennebunk, totally destroying five cars, but injuring no person.

☞ At the Republican Congressional Convention for the Second District, held in Manchester on Thursday, Gen. Aaron F. Stevens of Nashua was nominated unanimously.

☞ The Boston & Maine Railroad pays a semi-annual dividend of 5 per cent. free of government tax, on the 1st of January. The Eastern Road pays 4 per cent.

☞ On Wednesday evening, at Baltimore, *a stove was overturned* in a millinery store,—the store was set on fire, and property destroyed worth $80,000. Insured.

☞ Whence comes the very common tendency to put an *r* into dog (dorg) and leave it out of horse (hoss) in speaking?

Gold, Thursday, 131 1 2.

Death on the Cars.—The Providence Journal states that Mrs. John H. Crapo, of California, died on the steamboat train, Sunday, morning, just as it reached Kingston station. Mrs. C. was going with her husband to visit his home in Dartmouth, Mass. She was a very young bride, being only fifteen, and was prostrated by the long sea voyage from California.

☞ The Nashua Telegraph says, there is a wonderful mutuality of sentiment between President Johnson and the Democracy just now on one point. The former thinks the support of the latter injured his cause more than it benefitted it; the latter are quite sure that the former was like a huge millstone about their necks in the last political campaign. All are agreed that somebody was injured.

☞ Ninety millions of gallons of whisky were made in the United States in 1860, according to the census, while the last report of the Revenue Commissioners returned but ten millions. This enormous deficiency is not to be accounted for by any decrease in either demand or supply, but solely by the fact that the tax on whisky is now two dollars a gallon, and that there is about one gallon taxed for every ten smuggled. It is believed the Government has been cheated out of a hundred millions of dollars since the tax was laid on whisky.

Cure Yourself of Dyspepsia.—This most aggravating of all complaints—a disease from which more people suffer and die than almost any other—has at last found its master. Coe's Dyspepsia Cure controls and completely cures it in its worst forms; to one who suffers from dyspepsia, sick-headache, souring and rising of the food, should be without it. Whilst in all cases of hard cough, stubborn coughs, sore throat, and all bronchial affections, Coe's Cough Balsam is the cheapest and best. These two articles are deservedly very popular with the masses. d24

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used Perry Davis' Pain Killer, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "balmy the blest." We are informed by the principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—dawlm

Dr. Schenck, the Lung Doctor,
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It looks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $3. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. ENGLISH ACCOUNTS.—The following anecdote will show with what nice precision the accounts are required to be kept in the great private banking houses of the English metropolis:

After closing the doors to customers, every clerk makes up his accounts, and a general balance is struck, which must tally to the veriest farthing before the clerks separate. It happened, on the occasion in question, that in one of these great establishments, there was two shillings and ten pence minus in the balance. Every clerk was ordered to revise his account, the silver and copper money in the vast vaults was recounted—but still there was no solution of the cause of the deficit. This was repeated over and over again, still there wanted two shillings and ten pence; the resident partner would not let the clerks depart without a correct balance; gladly would each clerk have paid the difference ten times out of his own pocket. The affair remained unexplained until the next morning, when, on the arrival of one of the non-resident partners, he recollected taking that exact sum out of the till, for the payment of the postage on a foreign letter, but without making the usual memorandum of the same.

CURIOSITIES OF ART.—Send to Prof. B. T. Ames, of the National Business College, Syracuse, N. Y., 25 cts. for one, or 50 cts. for both, of the noted pen-and-ink Pictures—embracing state papers and life-like portraits of Washington, with fifteen of the leaders of the Revolution; Lincoln, his cabinet and generals; in all, 30 portraits for 50 cents.

Says the New York Independent, "They seem to pulsate with life." Albany Evening Journal, "They are the best things ever executed with the pen." People's Journal, "Exquisite in design, and perfection in execution." The American Wateyan, "They are masterly and wonderful, almost beyond credibility." Hartford Daily Times, "They are among the curiosities of art." Utica Evening Telegraph, "They are astonishing and unequalled." Hon. Gerrit Smith, "They speak for art and patriotism." Governor Fletcher, Missouri, "They are enduring contributions to American art." Governor Bramlette, of Kentucky, "I pronounce them a wonder of art." Governor Curtin, of Pennsylvania, "They unite two of the greatest events in the history of our Republic." Governor Fenton, of New York, "They evince great skill and artistic taste." Upwards of one hundred similar expressions have been received from eminent men and the press, sufficient, says the Rural American, "to show that Professor Ames is the greatest pen artist in the world."

Over 10,000 copies of these pictures have been distributed in less than three months. Everybody who has not already got copies should send for them.

FOR THE MOST POPULAR
And best selling Subscription Books Published!

We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.

Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.

Our series embraces the most popular works on all subjects, and is selling rapidly, in both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

☞ The Richmond Times publishes an account of the burning of the New Ironsides under the caption "Yankee iron-clad destroyed by fire," and adds to the account the following comment:

"The Southern people will be able to bear this disaster the more philosophically when they reflect on the fact that the iron-clad in question was a very prominent actor in the events of the war on the Southern coast."

☞ The Cincinnati City Council is taking vigorous measures against gift concerts, gift museums, and the like, and against gambling, which has been very common there of late. The desire to suppress them is very strong. A gambler was fined $300 and costs in the Court of Common Pleas, and sent to jail for three months.

— The Oaks colliery at Barnsley, England, where the most disastrous of the late explosions took place, has a shaft 810 feet deep, and the lateral works extend two miles from the bottom of that shaft. It is one of the most serious catastrophes of the kind on record. Thirty-eight dead bodies were found within the space of fifty yards. A similar disaster occurred in the same pit, twenty years ago, when 75 persons were killed.

To the Supreme Judicial Court.

Rockingham ss.

U. S. Int. Rev. Stamp. cancelled. 50c.

FREDERICK N. DANIELSON, of Portsmouth in the County of Rockingham, respectfully libels and gives the Court to understand that he was lawfully married to SARAH A TIGHE at said Portsmouth, by Rev. A. P Peabody, D. D., a clergyman, on the fourth day of April, A. D. eighteen hundred and fifty-nine, and that he has ever since, and for a long time before that resided, and now resides, in said Portsmouth; and has ever in all things conducted as a faithful and affectionate husband towards the said Sarah;—

Yet the said Sarah soon afterwards, to-wit: on the first day of July, A. D. 1859, willingly absented herself from said Frederick without his consent, and has continued ever since that time for a period of more than three years together, to-wit: down to the filing of this libel, so to absent herself without his consent.

And said Sarah on the first day of July, A. D. eighteen hundred and fifty-nine, without sufficient cause, and without the consent of said Frederick, abandoned him, and has refused for more than three years together, to-wit: from the first day of July, A. D. 1859, down to the filing of this libel, to cohabit with him.

Wherefore he prays that a divorce may be decreed from the bonds of matrimony existing between him and the said Sarah.

FREDERICK N. DANIELSON.

In the Supreme Judicial Court.

Rockingham ss. December Law Term, 1866.

This libel having been filed at this term: *It is Ordered* that said Frederick N. Danielson notify the said Sarah A. Danielson to appear at an adjourned Law Term of said Court to be held at Concord on the twenty-first day of March next, then and there to show cause if any she has why the prayer thereof should not be granted, by causing a true and attested copy of said libel and this order thereon to be published three weeks successively in the New Hampshire Gazette, a newspaper printed at Portsmouth in said County of Rockingham, the last publication whereof to be at least thirty days before said adjourned term.

Attest, C. G. CONNER, Clerk.

U. S. Int. Rev. Stamp. cancelled 5c.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, DECEMBER 29, 1866.

WASHINGTON NEWS.—Communications have been received at the Freedmen's Bureau enclosing a letter of Gov. J. L. Orr of South Carolina addressed to Gen. R. K. Scott, Assistant Commissioner, dated Dec. 14, complaining that about three hundred freedmen, near Kingstree, on the North-eastern Railroad, had organized themselves into six military companies contrary to the order of Gen. Sickles. Gen. Scott sent out an officer and had the matter investigated, when it was ascertained that no companies had been organized, but the colored people had held a meeting to discuss the subject of emigrating to Florida, the planters about Kingstree having combined in an attempt to coerce the freedmen into contracts to work the coming year for from six to eight dollars per month wages.

It is stated that the feelings of the people in that district are so antagonistic to the presence of a Bureau officer, that a number of evil-disposed ones have threatened to take his life. Consequently a garrison has been established there for the preservation of peace and good order.

Gen. Scott says in his communication that all organizations of whites or blacks which are illegal shall be disbanded, and the ringleaders arrested.

Gen. Orr in his communication to Gen. Scott states that he is ready to co-operate with the Bureau in preserving peace and maintaining friendly relations between the whites and blacks. Upon investigation it was found that no desire existed on the part of the freedmen to form military organizations, but the whole thing originated from the fear on the part of the planters that the freedmen would claim proper remuneration for their labor.

IN MISSOURI, the State canvassers have rejected the vote of Calleway county because of a palpable violation of the requirements of the registry law. The registering officer testifies to glaring frauds on the part of the rebels. The certificate was awarded to Anderson.

The Missouri delegation stands eight Radicals to one Conservative.

Governor Fletcher promises to withdraw the militia from Lexington provided the citizens will guarantee to execute the laws against bushwhackers. The leading citizens profess a willingness to do this.

IN CINCINNATI, three persons in one family, named Bemer, died from cholera on Monday, and two other members are still quite sick. It was caused by eating diseased pork.

Two men named Richardson and Batchelder were arrested at Eaton, Ohio, on suspicion of attempting to defraud a life insurance company. They had buried a coffin at midnight filled with broom seed, with the intention, it is supposed, of representing that the coffin contained the remains of a man named McFadder. The latter has not been found. The affair created considerable excitement.

BRAZIL AND PARAGUAY.—The Tribune says the war on the River Platte has for some time been taking a turn specially unfavorable to Brazil. There are indications that there may be still greater troubles in store for the South American Empire. Paraguay has long been in negotiation with Bolivia for the conclusion of an alliance, and the last mail brings a report that a treaty, offensive and defensive, has been concluded, according to which Bolivia will supply to Paraguay a contingent of 2,500 men, carry the war into Brazil, and, if possible, republicanize that country. If this report should be confirmed, Brazil will find it exceedingly difficult, if not impossible, to defend its Western Provinces, the only communication with which in former years was by the rivers now made impassable by the guns of the Paraguayans. It is also confirmed that both the Presidents of the Argentine Republic and Uruguay are powerless to aid any longer in carrying on the war. The latter may any moment be unseated by his opponents at home; and the former is even said to be favorable to the alliance between Paraguay and Bolivia.

☞ Wednesday evening, as the Marblehead train, on the Eastern Railroad, was about a mile from Salem, a man was discovered lying on the track, but as the train was rounding a curve it could not be stopped in season and the man was struck in the forehead, fracturing his skull. He was carried to a police station in Salem. He was alive at last accounts, but was not expected to survive. His name is Thomas Dennison, about 35 years of age, and he came from Gloucester.

SENSIBLE.—The Mobile Advertiser says that the truth of history requires the observation that posterity must unite with the present generation in pronouncing, in view of Mr. Yancey's instrumentality in precipitating the late war upon an unprepared people, that his public career as a Southern statesman was an unmixed calamity to the people of the South.

NEW HAMPSHIRE ITEMS.

—— The salmon spawn brought from New Brunswick last fall, and placed in the Pemigewasett river, are rapidly hatching and doing well.

—— In the Second District, at the Republican Convention in Manchester, Hon. E. H. Rollins of Concord, present member of Congress from the district, came forward, and after a few felicitous remarks, moved that Gen. Aaron F. Stevens of Nashua be nominated by acclamation. The motion was seconded by a friend of James F. Briggs of Hillsboro', and favored by the President. The motion prevailed unanimously and three cheers were given for the nominee and three for the present member. Gen. Stevens accepted the nomination in an able speech. Great enthusiasm and perfect harmony prevailed.

NOMINATION FOR CONGRESS. — The Republican Congressional Convention for District No. 1, met at Dover, Thursday noon. Hon Charles H. Bell of Exeter was made President. A motion to take an informal ballot was almost unanimously negatived. The Convention then adjourned till half-past one. On reassembling, Hon. John D. Lyman of Farmington, briefly addressed the Convention and withdrew as a candidate.

The first formal ballot was then taken with the following result:

Whole number	246
Necessary for a choice	124
Jacob H. Ela of Rochester had	103
Samuel M. Wheeler of Dover had	68
Gen. Gilman Marston of Exeter had	32
Hon. Edward A. Rollins, Somersworth had	33

On the second ballot the

Whole number was	246
Necessary for a choice	124
Ela had	111
Wheeler had	92
Marston had	23
Rollins had	20

The third and last ballot was as follows:

Whole number	247
Necessary for a choice	124
Rollins had	2
Marston had	2
Wheeler had	119
Ela had	124

and Mr. Ela was nominated. The nomination was made unanimous; and the successful candidate was called on to the platform amid loud applause. He made an able and telling speech of acceptance. A series of resolutions were then adopted, and at a little past five the Convention adjourned.

NEW HAMPSHIRE STATE AGRICULTURAL SOCIETY.—The annual meeting was held in Nashua and the following board of officers elected: President, Frederick Smyth of Manchester; Treasurer, George W. Riddle of Bedford; Secretary, Aaron Young of Portsmouth; Directors, Natt Head of Hooksett, David Gillis of Nashua, Edward Gustine of Keene, Warren F. Daniel of Franklin, James W. Cogswell of Gilmanton.

☞ General Sheridan has issued an order complimenting the attendants in the New Orleans Hospital during the prevalence of the cholera. He says: "The faithful performance of duty in a subordinate capacity, while constantly exposed to certain and appalling but invisible danger, and without any of the stimulating influences and excitements of the battle-field, is praiseworthy and noble in the highest degree.—Such conduct, although different in kind is not less in merit, or lower in courage than that of the soldier who, encouraged by applause and incited by the prospect of reward and fame, rushes bravely to the deadly assault. It is with much satisfaction that the valuable services of these men are acknowledged.

☞ A lad named John Miller was drowned in the river at Hartford, Wednesday afternoon. He was sliding on the ice, and broke through. The boy's mother saw the accident from a window in her house, and rushed frantically out, screaming and endeavoring to save her boy; and only by force was she restrained from following him, in her frantic excitement at the impending death of her son.

☞ On Thursday evening, the steamer Fashion, a splendid vessel, engaged in the trade between Vicksburg and New Orleans, was burned about 12 miles above Baton Rouge. Twenty lives were lost. The captain and the other officers of the boat were saved. The cargo, consisting of 2600 bales of cotton, was a total loss.

— The distillery of Judah Fierce in New York, having a capacity of 5000 gallons per day, was seized on Wednesday. It is the largest seizure yet made.

— A project is on foot in London for an immense temperance club, to have a capital of half a million dollars, and a building, that shall contain, beside lecture hall, reading, class, dining and billiard rooms, gymnasium, bath rooms, &c., apartments for about fire hundred resident members.

— A letter from Venice says: "An immense flock of pigeons of the Place St. Mark had been from time immemorial, as is generally known, fed at the expense of the republic. They still assemble from all directions at two in the afternoon, and alighting on the pavement of the square, take the food thrown to them. No one ever disturbs them, and they do not fear even the children. They know that they are sacred."

OUR NEW CONGRESSMEN. — For of course we consider the Republican nominees as good as elected, though they are as yet only in prospectu. A Concord correspondent of the Transcript speaks thus well of them:

Jacob H. Ela, is a resident of Rochester, and was recently removed from the office of Marshal of the District of New Hampshire. He served an apprenticeship to the printing business in the office of the Concord "Statesman" some twenty-five years ago. He is one of the original anti-slavery men of the State; a person of indomitable will; is well informed upon public affairs; a Republican in all weathers, and, will be cordially sustained by the party. Mr. Ela, has been a working member of the Legislature.

Gen. Stevens is a lawyer by profession; a resident of Nashua, of which city he is postmaster; served with distinction in the recent war, in which he received a wound in the foot, the effect of which is perceptible in his gait; and is a gentleman who has the regard of men of both parties. He labored, when a young man, in one of the machine shops of Nashua — proceeding thence, as a student, to a law office, and sustains a high rank as a member of the legal profession in a county where able members are neither few nor far between. As a writer and speaker he has few superiors in the State.

Third District.—This is the "Comet" District of New Hampshire, with a tail longer even than that district in Maine some years ago which bore that name. It consists of the counties of Cheshire, Sullivan Grafton and Coos, and extends from Massachusetts to Canada—about 150 to 175 miles. The conventions are held at West Lebanon, and the day fixed upon this year is Wednesday, January 9. If the weather be not exceeding tempestuous, probably every town, from those adjoining Northfield and Warwick, Mass., to those on the boundary between New Hampshire and Canada, will be represented. The interest in behalf of candidates is perhaps greater than in either of the other districts.

I do not hear of more than three persons who will receive votes in the Convention—Ex-Governor Haile, Levi W. Barton, and Jacob Benton. No public man in New Hampshire has a cleaner record than William Haile; and should he become a Member of Congress, (as now seems most probable,) he would not only sustain himself with credit, but exert a highly salutary influence in Washington. Governor H. is now about 60 years of age, lives in Hinsdale, and is engaged in the woollen manufacture. Messrs. Barton and Benton are lawyers, and both able and staunch men.

COL. CROSS' MONUMENT.—The monument to the memory of the late Col. Cross, has just been erected in Lancaster Cemetary. It is a handsome block of white marble, set in a marble base, the whole resting on a foundation of hammered granite. The slab bears the following inscription:

COL. EDWARD E. CROSS,
5th N. H. Infantry Vols.
Born April 22d, 1832; mortally wounded July 2d, 1863, while leading his command, the 1st Brigade, 1st Division, 2d Army Corps, at the battle of Gettysburg, Penn.

The "Fighting Fifth," raised and disciplined by Col. Cross, performed distinguished service through the war, and was led by him in the battles of Rappahannock, Fair Oaks, Yorktown, Savage's Station, Peach Orchard, White Oak Swamp, Malvern Hill, Charles City, Antietam, Fredericksburg, and Gettysburg.

This monument is erected by his friends, in memory of the accomplished journalist, brave pioneer, chivalric soldier, affectionate son, true friend and faithful craftsman; who, after a life of adventure at the commercial centres, and in the distant Territories of the Republic, died for its honor and integrity, and whose ashes repose amid the scenes of friends of his youth.

Gentle, courteous and brave, the story of his life closes with the fitting record: "Died on the Field of Honor."

☞ At Nashville, Monday night, after the banquet to the Congressional party, General Howard made an address at the Capitol to a large crowd of freedmen. He congratulated his hearers on the evidences of thrift and advancement which he found everywhere among the colored race. Some of their schools, he said, would do credit to the best white schools in the country. He earnestly exhorted all to a life of piety, and to shun vice and sin in every form. He was listened to with the closest attention, and at the close of his address resolutions of thanks to the gallant Chief of the Bureau were unanimously adopted by the crowd.

Not the least significant of the incidents connected with the Congressional banquet was the fact of its being overwhelming by attended by leading rebel citizens. The rebel Generals Cheatham and Maury and ex-Governor Brown made brief speeches, expressing good feeling and love for a reconstructed Union.

HOURS OF LABOR.—Work in the factories of Newburyport will be regulated as follows on and after January 1: Labor to begin at 7 o'clock A. M.; mills to run five hours, till noon. Dinner time one hour—from 12 to 1. Afternoon: work from 1 to 6 1-2, except Saturdays, when they will shut down at 3 1-2. This gives sixty hours in a week, or an average of ten hours for the working days.

FRIGHTFUL ACCIDENT.—A wagon containing four men ran off a bridge near St. Paul, Minn., Monday night, and was precipitated with its occupants a depth of 150 feet. All the men were injured, but only one was killed.

AT NASHVILLE, Dec. 26, in the evening, Wm. Stuffins, a well known German citizen, while intoxicated at a ball, stepped from the open balcony, second story, dislocating his neck and causing death.

☞ A few days ago we noticed the important step taken by the Emperor of Brazil in liberating the national slaves; and now we see Spain taking a move in the right direction. A Madrid letter, published in the N. Y. Tribune, informs us that the Government is resolved to support the Captain-General of Cuba in his efforts to put down slave-trading. Estates in that island are to be visited by officers appointed for the purpose, and all newly introduced Africans are to be summarily set free. More than this—as another proof that Spain is about to do justice to the colored race—we find, from Havana correspondence, that an official order has just been issued by the parent Governent placing the youth of African blood, studying at the colleges, on an equal footing with the white students, and opening to them avenues of professional distinction. These are cheering signs of the times.

DR. J. F. HALL

Has been appointed Medical Examiner of the

Mutual Life Insurance Co.

OF NEW YORK.

The present assets of the Company amount to over EIGHTEEN MILLION DOLLARS.

The subscriber has been the agent of this Company for more than twenty years, and he can speak from actual knowledge of the profitable results which have accrued to the policy holders in this city, not only as a protection, but as a highly remunerative investment.

The custom of insuring life has became almost universal now, among the business men of this country, as it has been in Europe formany years. There is no investment of a small sum of money annually which will pay so well as that which provides a growing fund for the benefit of the widow and orphan; or, under the endowment system, a solid investment for the comfort of manhood.

IMPORTANT QUALITIES. BRANDRETH'S PILLS SO STIMULATE all the interior powers of the system that every poison or impurity is forced from the blood into the bowels, and thus passes off. Recent cases of sickness will often be cured by the effect of 6 or 8 Brandreth's Pills, which, when the operation is full and complete, leave the blood as free from poisonous and unhealthy matter as that of a new-born babe. In colds, inflammatory diseases, and even in cholera, their use restores to health sooner than all other remedies, because they take from the blood and bowels those matters upon which pains, cramps and aches depend for continuance.

Captain Isaac Smith, of Sing Sing, says, thirty of Brandreth's Pills, taken according to directions, cured him of a very severe bronchial affection, after other means had failed, and he wishes his numerous friends to know the fact.

Brandreth's Pills, Principal Office, Brandreth House, New York. Sold also by all Druggists. See my name on Government stamp, without which the pills are spurious.

FREE TO EVERYBODY!
The Guide to Health and Beauty,
JUST PUBLISHED.
It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French), causing the bust to grow round and full, and if the form has been lost by padding, lacing, or maternity, restoring it to more than its original fullness, firmness and beauty. It teaches how to reduce in size the hands and feet; produce corpulency or the reverse; remove superfluous hair; cure Corns, Bunions, Warts, and Moles; renew your age; cure Drunkenness, Catarrh, Dyspepsia, Nervous Debility, &c., how to fascinate and gain the love and affection of any person you may choose, together with other useful and valuable information. No young Lady or Gentleman should fail to send their address to the undersigned and receive by return mail a copy of this valuable work in sealed envelope free of charge. Address

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.
For five years has this article been before the people, and the verdict returned from every quarter, by the consumption of the half million bottles that have been sold within that time, is, that
"IT ALWAYS CURES."
Read the following, which is only a specimen of the many letters we are daily receiving:
"BOSTON, Mass.
"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Diphtheria have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."
The Life Drops are carefully prepared by

Smolander's Extract of BUCHU!
Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for *Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility*, arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:
CHARLESTOWN, MASS., Nov. 23, 1865.
Messrs. BURLEIGH & ROGERS, Boston, Mass.:
I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the OTER that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,
City Missionary.

Local.

☞ A neat white marble monument with simple but fitting inscription, (from the stone works of Mr. Silas Philbrick in this city,) has this week been erected by the family of Dea. Reuben Shapley, on his farm at Rye, near Breakfast Hill, over his two sons who gave their lives for their country in the late rebellion—call it war, we never will. They were members of the 1st N. H. Cavalry—Robert being a Lieutenant, and dying of disease; and John, a Sergeant, was shot in battle. Their record at home and abroad, on the farm or in the service, in life or in death, is most honorable.

☞ Just as we expected—Mr. Ela in this, and Gen. Stevens in the 2d District, are nominated for Congress. But though we were well enough assured of this beforehand, and so stated in the Chronicle of Thursday; still, we should like to have given the vote on Friday morning, but could not make things work right. The trains did not get in here till "afterwards," and a telegraphic dispatch sent us by a friend from Dover, did not come to hand till next morning, on account of the wires being disordered by the storm.

POLICE COURT, Dec. 28.—The case of Charles E. Johnson *et als.*, on charge of infanticide, came up on continuance. The case was further continued until Jan. 2d, next, and the accused were committed, in default of $5000 bail.

☞ During the storm of Thursday night, the driving ice broke off four piles supporting the Concord and Portsmouth Railroad bridge over the river, this side of Newmarket Junction. The freight train passed safely over the dangerous spot, in the darkness of Friday morning, and during the day the damage was repaired.

THE WEATHER here is cold; our sidewalks, many of them, are coated with ice, and a little ashes or sand spread thereon, might prevent some persons from falling and breaking their legs or heads.

We had only an inch or two of snow, Friday morning. In Concord they had 5 or 6 inches; in Albany, N. Y., 22 inches; and between that place and Springfield, Mass., it is badly drifted; so as to stop trains.

☞ The specimens of Penmanship now exhibiting in the Post Office by Mr. J. G. Morse, are elegant. See his notice of Writing School.

☞ Rev. J. M. Mace, late City Missionary at Washington, now acting as agent for the National Theological Institute for the education of colored Ministers and Teachers, at Washington, D. C., will address the citizens of Portsmouth, at the Temple, on Sunday evening, in reference to the true condition of the freedmen in the District of Columbia, physically, morally, educationally and religiously, and more especially present the claims of the above-named Institute. All are invited to attend. A collection will be taken for the above-named object. Services to commence at 7 o'clock.

☞ Steamer Commodore was wrecked in Long Island Sound, Thursday night at 10 o'clock; passengers all saved.

LABOR MARKET AT THE WEST.—The St. Louis Republican, in alluding to the statement recently made that foreign immigrants were returning to Europe in considerable numbers, being unable to find employment at New York, says that labor is scarce and high at the West, especially farm labor. In many cases farm hands cannot be obtained at any price, and laborers and workingmen in almost every branch of industry pursued at the West are in scant supply and great demand. There are abundant opportunities at the West for all who are able and willing to work, and there is no need of immigrants returning to Europe simply because they do not find employment at New York. The best thing they can do is to go to the West, which will give them far better treatment than the overcrowded European States which they have once left behind.

GOLD, Friday, 132 1-2.

— The horse railroad in Charleston, S. C., is a great success. It carries over 2000 passengers per day.

— All the ex rebels in Mexico are said to be in excellent health, but their pecuniary prospects are poor. They are sneaking back to the United States as fast as they can.

— It is said to be a peculiarity of Kamtschatka that the southern portion of the peninsula has no wood whatever, and that as one travels north he first encounters low timber, and that the forests become thicker and the trees taller the further he proceeds toward the north pole.

— Dr. Stone of San Francisco says he is fully convinced that the manufacture and introduction of pure wines into general use will not diminish intemperance as has been supposed. Full two-thirds of all the wine manufactured is converted into brandy, and in the wine growing districts intemperance is on the increase, extending to the youth of both sexes.

IMPEACHMENT.—At the meeting of the Literary Class of the Young Men's Christian Association, Boston, Wednesday evening, the question whether President Johnson ought to be impeached was debated and was carried in the affirmative by a vote of 35 yeas to 11 nays.

Business Notices.

☞ We are requested to state that Mr. J. G. MORSE of Newburyport, (who yeass ago taught Writing Schools here) proposes to open a Writing School in this city, if arrangements can be made for the same. Specimens of his Penmanship may be seen at the Post Office. d29—3t*

Holloway's Pills.—Pregnancy.—During this delicate situation, ladies will experience great relief by using this mild cathartic for the removal of those indigestions and nauseating sickness to which they are subject at this period. They give a gentle stimulus to the circulation, and purify and expel all those humors which irritate the stomach and bowels. They are so mild that the most delicate constitution may take them with perfect safety. For assisting females at the dawn of womanhood, or at the turn of life, they are equally adapted. Sold by all Druggists.

CURE YOURSELF OF DYSPEPSIA.—This most aggravating of all complaints—a disease from which more people suffer and die than almost any other—has at last found its master. Coe's Dyspepsia Cure controls and completely cures it in its worst stages; no one who suffers from dyspepsia, sick headache, souring and rising of the food, should be without it. Whilst in all cases of hard colds, stubborn coughs, sore throat, and all bronchial affections, Coe's Cough Balsam is the cheapest and best. These two articles are deservedly very popular with the masses. d24

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

Dr. Schenck, the Lung Doctor.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with every sound on rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hæmorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 38 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. STARS AND STRIPES.—At the great reform demonstration in London on the 3d inst., three American flags were carried in the procession, without, however, making much of a sensation, for the reason that not one in a hundred of the people of London knows the stars and stripes when he sees them.

☞ It has become a necessity in California to select only married ladies for teachers, because the unmarried ones cannot be relied on for any length of time. So says some exchange—but the reputation of the Golden State as to the fruits of matrimony, would seem to render married ladies still less to be "relied on" for service away from home.

— A person who was recently called into court for the purpose of proving the correctness of a doctor's bill, was asked by the lawyer whether "the doctor did not make several visits after the patient was out of danger?" "No," replied the witness, I considered the patient in danger as long as the doctor continued his visits."

— At the trial of Lamirande, the French bank robber, in Paris, his counsel restored 110,000 francs of the stolen money. Lamirande declared that he had given 191,000 francs to some advocates in New York to resist his extradition, who were to keep 56,000 francs if successful, and return the rest; but they only returned 20,000. The judge said they were not advocates, but thieves.

— In Western North Carolina a petition to Congress is being circulated praying that the loyal citizens of that section may be empowered to form a new State, the votes of such persons only being counted in forming the new State Government and electing members to Congress. If this be impracticable, they ask that the whole State may be reorganized on a loyal basis.

— An act has been passed by the Georgia Legislature, and signed by the Governor, providing that all property of the wife at the time of her marriage, whether real or personal, shall be and remain her separate property; and that all property given to, inherited or acquired by the wife during coverture, shall vest in and belong to her, and shall not be liable for the payment of any debt, default, or contract of the husband.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN Applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company.
Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on all subjects, importance, and in selling rapidly, both North and South.
Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our work with those of other publishers.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, yet nicely fitted, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS AND REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof. W. K. DALY, we have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the instruments have been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last five years in this city, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Daly, who will tune them free of charge, if adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

FIGHTING THE TIGER.—Last week a young man named David B. McIntosh, a resident of Springfield, Mass., complained to the New York police that he was induced to enter the apartment of one Col. Hecker in Chatham street, where a game of "three card monte" was in progress. Becoming interested in the game, McIntosh invested $25, and, having lost that, bet his gold watch, valued at $75. This followed his money, and McIntosh, believing that he had been swindled, demanded the return of his property. He was laughed at, and seeing no other chance of redress he caused the arrest of Hecker, who proposed to settle the matter. This arrangement was declined by the Magistrate, and Hecker was locked up to await his trial. The complainant was sent to the House of Detention as a witness.

☞ A great discovery of salt has been made in Kansas, surpassing in richness and extent anything of the kind ever seen. Its location is in the extreme south-western portion of the State, off the usual great routes of travel, and in a region infested by savage tribes of Indians. This salt covers the ground, completely forming a crust, and can be shoveled up in large quantities. The salt is fit for use in its original state, it being of the very purest character. When cleaned from the surface, leaving the earth bare, it appears again immediately, and in a day or so the saline deposits form a hard crust. These deposits exist in similar abundance over a country sixty miles in extent.

AN INFERNAL MACHINE.—On the 3d inst. Howard Tillinghast, master machinist of the car shops at Youngstown, Ohio, received by express a small box shipped from Cleveland. Not expecting anything of the kind, he was suspicious of its contents, and, instead of drawing the lid, pried open one of the lower corners. A lot of gunpowder fell out. The box was then thoroughly soaked and opened in the side. It contained half a pound of gunpowder and a row of upright matches, so arranged as to explode the powder when the lid was drawn. The murderous contrivance was traced to William Howarth, one of the workmen under Tillinghast. Last month the latter discharged Howarth's son, and the infernal machine was intended to avenge that act.

☞ The family of Frank Culver, near Ripon, Wisconsin, was poisoned by strychnine on Christmas Day. It had been purposely dropped into the teapot and they swallowed it while drinking tea. It is supposed the poisoner is an Italian, who recently had been discharged from service by Culver. All were living up to 8 o'clock Christmas night.

— A message was sent from Yorkshire, a short time since, to a gentleman in London, as follows: "Your son is dead. Be at home to-night." But the telegraph clerk copied it, and sent to the fond parent thus; "Your son is dead beat. Home to-night."

Morning Chronicle.

Portsmouth N. H.

MONDAY, DECEMBER 31, 1866.

WASHINGTON LIQUOR ITEMS. — The Police Commissioners of the District are enforcing the liquor laws, especially that one which prohibits all sale of liquor on Sunday. Hotel keepers are not even permitted to have the back entrances to their bar rooms open on Sunday, and C. C. Willard of the Ebbett House was fined $20 for having violated the law Sunday, Dec. 23.

In the Supreme Court Mr. Sennott of Boston made the closing argument in case the United States, plaintiff in error, v. Nancy Swain, defendant in error. The defendant was convicted of retailing spirituous liquors in Massachusetts, without a license under the revenue laws, and Mr. Sennott took the ground that as by the State laws the business was unlawful, she could not be required to take a license for carrying it on.

A decision, by the Court, on the right or power of Congress to exact an internal revenue license from a distiller or liquor dealer in Massachusetts, where their business is prohibited by a State law, is not anticipated before the first of March.

☞ A Charleston dispatch says that Col. Weatherly, a member of the South Carolina Senate, and who was entrusted with an informal commission to the President, has returned from Washington, where he had a long and highly gratifying interview with the Executive upon the question of restoration and kindred topics, in the course of which the President gave it as his deliberate opinion that the Southern States, through their Legislatures, should reject the proposed Constitutional Amendment, but in such terms as not to give offense to those who are urging it upon the South. Such action on their part, he believes, would be sustained by the Supreme Court—at least he had reason to hope that it would.

FRAUDS BY NEW YORK IMPORTERS.—Frauds upon the revenue are not confined to whiskey distillers. It is known that some large silk and lace importers perpetuated huge swindles upon Government by means of undervalued invoices or other contrivances which they have invented to meet present emergencies. One importing house alone was compelled, a few days ago to pay $80,000 in gold for an attempt to evade the law.

MR. ELA, candidate for Congress, on accepting the nomination, made a speech on National Questions, in which he said: "The settlement of these questions must not be left to men who were not actively loyal in the times which gave them birth, nor to a party which declared emancipation "fatal to all hopes of a restored Union"—who denounced the freeing and arming of slaves to save the nation as "unwise, impolitic and cruel, and unworthy the support of a civilized and Christian people"—and who declared by resolution "that the Democratic party of right should have taken no part in the strife." They must be settled by the great and patriotic party which has carried the country through the perils of a civil war waged with a vigor and persistency such as the history of the world never before witnessed—which policy carried the war to a triumphant issue and saved the nation and its territory from dismemberment, most generously proposes to relinquish the rights conquerors and give amnesty to all rebels if they will only confer the rights of citizenship upon loyal men, and not ask for representation where they deny suffrage—if they will repudiate the rebel debt and help pay the Union debt, with the single exception that those who had sworn to support the Constitution and then perjured themselves should not hold office until the disability had been removed by a two-thirds vote of Congress; or in other words, by a majority of the loyal people.

I would go further than this. While I would not impose punishment that was not imperatively necessary, and might be more lenient than this amendment toward rebels who had violated their oaths to support the Constitution, I would insist that the loyal men, black or white, who fought to save the Government, should have as many rights and as much political power under it as the men who fought to destroy it. (Applause.) That our allies in victory should fare as well as our enemies in defeat." (Renewed applause.)

☞ Mr. E. C. Scranton, President of the New York & New Haven Railroad was instantly killed by falling under the cars on his own road, a South Norwalk, Conn., on Tuesday morning. The train was in motion, and he jumped down from a freight platform, toward the platform of a car, but fell and was crushed. He was a bank president, had been Mayor of New Haven, and was an eminent and worthy citizen.

☞ Lt. Robt. Welles, of the regular U. S. Army, aged 24, shot himself at Glastenbury, Friday evening: melancholy at the death of a brother the same.

GOSSIP FROM NEW YORK.

NEW YORK, Dec. 28th, 1866.

Rufus Choate's celebrated description of a New England spring would apply just now very accurately to the weather in the metropolis. One day the frost whitens the windows; the mercury crouches shiveringly in the thermometer bulb; fingers freeze over blazing grates; the ice thickens eleven inches in twelve hours at the various skating ponds; the ball is run up at Central Park, and the whole city is brisk with oxygen and rapid pedestrians. Forty eight hours later things moderate, overcoats are worn open, windows are shoved up; then a damp begins to develope, followed by drizzle, succeeded by rain. All things are wet, sticky, comfortless. People begin to cough. Handkerchiefs come into requisition. Doctors are happy. The pavements are lined with advertisements of quack panaceas for colds. The Apothecary business thrives.—Theatres, concert rooms and the like fall into a decline. When, pat pat, the wind changes, sidewalks scale over again with ice, a terrific breeze blows down the river, the shiver strikes into the very bones, and presently we are quite sure that winter has come in fact.

Nothing illustrates the pleasure-loving, business-crazy New Yorker better than his equanimity under these trials. Possibly the universal cheerfulness of the holidays helps to brighten the social atmosphere. But then again what with typhus fever, and common council men, gas contracts which yield no light, and street-sweeping contracts which render the town everlastingly dirty, metropolitans have come to take all things with an equal mind and to accept any turn that fortune is pleased to vouchsafe.

The turn vouchsafed for Christmas was, by-the-way, something worth praising. Up to 5 o'clock on Monday afternoon everything was foggy; suddenly the weathercock veered round, the veil that overswept the sky was auspiciously rent, the moon came out, and the stars twinkled their brightest, while the change of the air was just sufficient to dry up the pavements without freezing the life out of one. The next morning was also clear, and merry Christmas took on a cheerier significance than is common. Later clouds began to appear; but everybody was in-doors, and what with music and dinners, nuts and wine, nobody cared about the weather. The holidays are marked this year with an unusual infusion of gayety. More money has been and will be spent than ever before. In the churches also Christmas was ushered in with an amount of decoration and ceremony which quite surpasses previous years. The Catholic demonstration in particular excelled itself.

As to New Year's—we havn't come to that yet; but we are sure to do justice to it. The ladies have been making unprecedented preparations, and I anticipate many stunning toilets. Stewart has had more work for his clerks than they could well perform. Some days it was utterly impossible to squeeze into his retail warerooms. The milliners and dress-makers have had so many orders that their employees are forced to work day and night. In respect to the gentlemen, whose province is to admire; they doubtless are doing their duty. Gloves, neckties, and carriage hires will indicate by the high prevailing rates that the demand is somewhat in advance of the supply. May they all make their calling and selection sure!

The presentation festival of the Soldiers' Orphan fair proved somewhat of a fiasco. The concert was held last Saturday evening. The weather was fearfully bad; but nevertheless a large and somewhat mixed audience gathered at Cooper Institute—waiting patiently the arrangements precedent to the drawing. Suddenly one of the members of the managing committee arose and said that for satisfactory reasons the drawing would be put of till the 14th of next month. Of course nobody appreciated this, and the expressions of disapproval in some quarters were by no means mild. However, it is "all in a good cause," so that people in general concluded that like the rain without, it was something to be gone through with.

Mr. Crosby of the Art Association knows how to manage these things better. The drawing at Chicago will be at once announced East, West and South by telegraph, so that an owner of certificates may sit quietly at home, take up the evening paper, read the figures and know at once whether or not he has had the luck to draw a prize. This will not compel anybody to go through mud and mire, in order to learn his success. Probably it is this consideration which leads so many just at present to buy tickets in the drawing. The gallery in town is daily crowded with people—and the probabilities are that all the tickets will be sold.

Libel suits are the order of the day now. Max Maretzek has gained a suit against the Sunday Mercury on account of an old slander. The Tribune is to be sued by a political opponent. The Reade vs. Round Table case is also up for speedy trial; I. Winwood Reade of African fame being on here to look after his brother's interest in the matter.

Art is always very highly patronized in New York; but the prices paid for pictures at the auction sale of the Artists' Fund Society indicate a falling off from the war standard. Among the pictures meeting a warm reception and realizing good sums, were "A Trade," by G. Johnson, $675; "Morning on the Hudson," by S. R. Gifford, $650; "The Neapolitan Coast," by Kensett, $360; "Scene on the Western Plains," by Whittridge, $280; "Near Point Judith," by De Haas, $210; "The Creek at Stowe," by Huntington, $225; "The Foundry Man," by Weir, $145; and a chaste little cabinet gem by Hennessy, entitled "Placing Flowers," which brought $95.

Some fresh facts relative to the question of wages have recently found their way into a city paper. From the tables I see that house carpenters get $3.50 *per diem*; plasterers, from $4.50 to $5.00; bricklayers from $4 to $6; coopers, from $3 to $4; horse shoers, $3.50. This is certainly good pay, beating the average of professional men even. But all trades do not thrive so well. Compositors in printing make from $10 to $20 a week; car drivers, from $12 to $15; dry goods clerks, from $8 to $20; boot and shoe makers, $12; editors—well their wages are not given in the schedule, but they are almost as bad as some of the latter figures.

The skating carnival still holds back, though the air is cooling fast, and ice is slowly thickening on the ponds. When the day of ice fairly comes, Jerome Park at Fordham, will be the scene of exhilirating excitement. There the aristocracy will take the air, and Auguste Belmont, President of the Jockey Club, promises a splendid festival to the members.

Tammany Hall is not to be sold, although Mayor Hoffman and other gentlemen of the party made a strenuous effort in that direction last week.

Three underground railroads instead of one are promised New York, by the recent Legislative Commission. If the legislature will ratify their decision, we shall soon see Manhattan island covered with houses.

The aerial bridge over Broadway near Fulton street, is to be put up by the first of next February. This is the first in a series of aerial ladders in the crowded parts of New York. Gold medals are to be awarded by the city of Brooklyn, to several of her soldier citizens for services in the front during the war.

Fernando Wood has just started a distillery on his property at the corner of Broadway and Seventieth street.

Miss Newton of the Olympic Theatre is no longer a maiden. She was married a week ago to an Englishman.

The Portuguese Minister died in this city last week, and the new French Minister arrived by steamer, and made the Brevoort house his temporary headquarters.

Miss Emma Hardinge the Spiritualist lady preacher is very sick at her residence in town.

Yours, &c. TOUCHSTONE.

NEW HAMPSHIRE ITEMS.

—— George Ticknor, senior proprietor and editor of the Keene (N. H.) Sentinel, died Tuesday, aged 44.

—— On Tuesday Mr. Lang Swain of Lake Village, N. H., was run over by the cars as he was walking upon the track between Laconia and Lake Village, and was killed. He leaves a wife and eight children.

—— The Universalist Society in Kensington, for the last year under the pastoral care of Rev. Mr. Bradley, held a pleasant and successful social gathering on Christmas evening. Mr. Bradley, who has preached at Kensington and Kingston, has just closed his ministry there, and goes to Ayer's Village in Haverhill, Mass.

—— George E. Todd, of Concord, has been appointed Superintendent of the Northern (N. H.) Railroad, vice Wm. M. Parker, lately made Superintendent of the Boston, Hartford and Erie Railroad. For about ten years past Mr. Todd has been Master of Transportation on the Northern Road.

—— The tall flag-pole erected in 1852, at Concord, in honor of Gen. Pierce's nomination for the Presidency, was blown over by the storm of Thursday night, and mutilated some of the trees in the State House yard. It bore no flag for the United States during all the struggle to put down the rebellion; but on the 4th of July, 1863, when Ex President Pierce made his speech about the "Mausaleum of Hearts," and when on the same day news came of the rebels being repulsed at Gettysburg, an attempt was made to hoist a flag, which stuck, (sad to say,) at half-mast, exactly as Gen. McClellan did afterwards, when they tried to hoist him into the Presidential Chair.

RESOLUTIONS, passed by the Republican Convention at Dover:

Resolved, That our thanks are due first to Almighty God, and then to Grant, Sherman and Sheridan and their heroic compatriots, for the return of peace; for the continued unity of our country; for the glorious enfranchisement of four millions of bondmen, and for the unparalelled honor and unequal benefaction of having subdued a rebellion stronger than ever before had been subdued on earth.

Resolved, That we tender our sincerest thanks to the members of the 39th Congress for the noble stand they have taken for securing the permanent establishment of the great principles of justice, human freedom and civil rights to our whole people. It is our hope and confident belief that the members of the 40th Congress will proudly imitate their predecessors and carry forward to a glorious completion the great and good work which has been so faithfully begun.

Resolved, That we deeply deplore the position which the President of the United States has seen fit to take, and believe that it has very much complicated matters and tended to prevent the early restoration of the States lately in rebellion to peaceful and harmonious relations with the Union, and pray that he may yet listen to the voice of reason, humanity and right, and regard the recent unprecedented patriotic majority of more than 350,000 votes not only as the voice of the nation, but of God.

Resolved, That in furtherance of these principles, for which so many of our heroes have fought, and our brothers bled, we pledge our cordial, united and energetic support to Hon. Jacob H. Ela, this day nominated for our next member of Congress, as a standard-bearer, worthy, able and true.

SPAIN.—The anti-slavery sentiment continues to make headway in Spain. Not long since an official decree was promulgated declaring that a slave coming to the mother country from any of the Spanish dependencies should be free at once. This decree has now been followed up by another, authorizing the Captain General of Cuba to visit the various estates on the Island and free at once all newly introduced slaves from Africa. The Spanish Government has likewise issued an order doing away with what is called purity of blood. Hitherto young men of color have not been permitted to take a university degree, thus being debarred from entering any of the learned professions. This restriction is now removed.

ATTEMPTED ESCAPE OF A MURDERER. Bumgardner, convicted of the murder of E. W. Banks, made an attempt to escape from jail at Marietta, Ohio, Thursday night. He filed his chains and with the ball struck and severely injured Peter Baker, Deputy Sheriff. He was shot in the face and shoulder by Deputy Hicks and afterward secured.

— The last census gives the population of New Zealand, exclusive of the military and their families, at 190,607. There are about 35,000 aboriginal natives, principally in the province of Auckland.

DR. J. F. HALL

Has been appointed Medical Examiner of the

Mutual Life Insurance Co.

OF NEW YORK.

The present assets of the Company amount to over EIGHTEEN MILLION DOLLARS.

The subscriber has been the agent of this Company for more than twenty years, and he can speak from actual knowledge of the profitable results which have accrued to the policy holders in this city, not only as a protection, but as a highly remunerative investment.

The custom of insuring life has became almost universal now, among the business men of this country, as it has been in Europe for many years. There is no investment of a small sum of money annually which will pay so well as that which provides a growing fund for the benefit of the widow and orphan; or, under the endowment system, a solid investment for the comfort of maturer life.

"Horrid Hair,"

and there are thousands of fiery human heads which might be rendered charming by simply changing their hat to a mellow brown, or a perfectly natural black, with

CRISTADORO'S HAIR DYE.

It is ridiculous to carry into society a grey, sandy or carotty head, when five minutes would render it as attractive as Nature could have made it in her happiest mood.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it the healing influences more potent than those of the spices of "Arabby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.* d1—daw 1m

This is of great importance to Dr. SCHENCK, to know the real condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.

It requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their days were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tubes and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hæmorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.

Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.00 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. IMPORTANT QUALITIES. BRANDRETH'S PILLS SO STIMULATE all the interior powers of the system that every poison or impurity is forced from the blood into the bowels, and thus passes off. Recent cases of sickness will often be cured by the effect of 6 or 8 Brandreth's Pills, which, when the operation is full and complete, leave the blood as free from poisonous and unhealthy matter as that of a newborn babe. In colds, inflammatory diseases, and even in cholera, their use restores to health sooner than all other remedies, because they take from the blood and bowels those matters upon which pains, cramps and aches depend for continuance.

Captain Isaac Smith, of Sing Sing, says, thirty of Brandreth's Pills, taken according to directions, cured him of a very severe bronchial affection, after other means had failed, and he wishes his numerous friends to know the fact.

Brandreth's Pills, Principal Office, Brandreth House, New York. Sold also by all Druggists. See my name on Government stamp, without which the pills are spurious.

WITH YOUR WASTE GREASE!

Penn's Salt M'f'g Co.'s Renowned SAPONIFIER:

(Patents of 1st and 8th Feb., 1859,) on

CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Beware of Counterfeits.—*Be particular in asking for PENNA SALT MFG CO'S SAPONIFIER.* d1—sowdawly

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumption of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

Local.

☞ As the old year closes, it is well to look about us and see how much we have to be thankful for—as individuals, and citizens of the town, State and nation.—Much, very much, have most of us, we think, in all these regards. Our country is "at peace with all the world; we maintain our relations of amity with the rest of mankind—a compound sentence, in apposition, and grammatically as strictly correct as it is agreeably and historically true, and was when President Taylor wrote it, with only the difference of "and" in place of "we."

The country as a whole, and certainly our part of it, may be pronounced reasonably prosperous; and those at least who regard the worst peace as better than the best war, "will rejoice that the scourge of civil strife has been removed from us, even if all the details are not arranged to their full satisfaction. Though the folly of some of our rulers may bring shame to the land, and the hand of the wicked may for a time appear to be strengthened; yet we may well be thankful that no great national calamity—neither war, pestilence nor famine, has befallen us, and that the cause of liberty, temperance and the brotherhood of man, is gaining. Let us each and all strive to "do what we can," in the new year that is opening, to promote "the good time coming."

☞ For the Lyceum Concert to-morrow (Tuesday) evening, we give the attractive Programme below. It is unnecessary to add that it will be performed in the best and most finished style, and will be a very rare entertainment, for this or any other locality.

☞ Philharmonic Rehearsal, this week, on *Thursday* evening, at half-past 7. Both books to be used, and the new Orchestra will probably be in attendance.

☞ We should hardly know when the years begun or ended, or how to begin them, without McAdams' moveable calendar—which is for sale by Mr. Shores, at the new Congress Block Bookstore, remember. They only cost a trifle, while one will repay you every day in the year almost, in convenience.

☞ On Saturday last, at Messrs Dearborn & Brownell's spool factory, a man had the thumb and two fingers sawn from one of his hands. The accident occurred while he was trying to remove a block from behind the saw while it was in motion.

☞ The grand finale of the Mercer expedition to Oregon, in which several New England ladies went out in the wilderness, is reported by a Pacific correspondent to have been the finding of a "lodge" by most of them, with a man it.

☞ A piece of wreck, with the word "Sylph" cut into it, came ashore near Holmes' Hole, Friday, with other articles, making it appear probable that the bark Sylph, of Boston, has gone to pieces, and that all hands are lost.

☞ In New York city, Thursday night, eleven houses were unroofed by the gale In Brooklyn two buildings and several chimneys were blown down. Railroads were blockaded in many places.

☞ A man known as the "Rich Pedler" was knocked down and stunned in his wagon and robbed of $2000, by three footpads, on Friday evening, between Marlboro' and Southboro', Mass.

☞ Isaac N. Howland, an express messenger of Abington, Mass., has been fined $20 and costs for illegally transporting liquors.

THE HERALD OF HEALTH, for January, 1867, is, we think, one of the best issued; and deserves a kindly welcome as an efficient aid to the progress of popular education. Miller, Wood & Co., publishers, New York.

GOLD, Saturday, 133 1-2.

— Drained land is generally ten to twenty degrees warmer in summer, than that in which water stands stagnant.

— In Denmark one cannot cut down his own trees without a permit from the Government.

— He who is passionate and hasty is generally honest. It is your old dissembling hypocrite of whom you should beware. There's no deception in a bull-dog; it is only the cur that sneaks up and bites you when your back is turned.

— Henry Knapse, residing in Hamburg, Berks county, Pennsylvania, set up a gun-trap in his smoke house for the benefit of some thieves who had stolen his meat. He forgot that he had set the trap, and was the first one to open the door of the smoke house, when the gun was discharged and he was almost instantly killed.

— Recently the remains of John Stone and his two wives were removed to a new burial ground on the Pontiac road, southwest of Elmwood in Rhode Island. They were in a state of perfect preservation, considering the length of time they have been buried. Mr. Stone has been buried 107 years, his first wife 154 years, and his second wife 106 years.

☞ Quere, how much better than a blockade-runner or any other reprehensible and generally reprehended character,—is a citizen, who would prefer that the war should have continued, and with it the "times" be "good," rather than have peace and comparative stagnation?

— Thad. Stevens has endowed a professorship of moral and intellectual philosophy in the Vermont University.

☞ We are requested to state that Mr. J. G. MORSE of Newburyport, (who passes as taught Writing Schools here) proposes to open a Writing School in this city, if arrangements can be made for the same. Specimens of his Penmanship may be seen at the Post Office. d29—3t*

☞ The January thaw is a "capital institution" for producing Coughs, Colds, and kindred ailments—much worse than severe cold weather—and we advise our readers, particularly those predisposed to any pulmonary weakness, to see to it they are well shod, and allow no change of clothing. If any one is so unfortunate as to contract a Cold, Cough, Hoarseness, or other pulmonary disorder, we know of nothing so efficient as Coe's Cough Balsam. Our advice is, take little and often.

To those who have been living on the fat of the land through the holidays, and have got their stomachs out of order, we would prescribe Coe's Dyspepsia Cure: it has cured some very bad cases of Dyspepsia. d31—1w

Morning Chronicle.

☞ The Atlantic Monthly, as usual, is full of good reading, and contains a sad, comical story of man who stole an old meeting house for a barn. This reminds the Farmington Advertiser of the reported stealing of the town of Alton, or that large part of it formerly known as New Durham Gore. The legend runs thus:

On a time the possessors of the wilderness now comprising the towns of New Durham, Wakefield, Middleton (which included Brookfield,) and that part of Alton known as New Durham Gore, agreed with a certain party to run out and duly bound a certain number of lots, each 100 by 160 rods, and if there was any land left, the party thus running out the land, should have it. The surveyor's name we think was Bryant, but whether he or his employers were the wicked party, we know not; suffice it to say, that instead of laying the lots out with right or square angles, as they were expected to do, the towns were laid out in lots with acute and obtuse angles, like diamonds, and consequently, each contained much less land than was intended by the owners, while the wicked tricksters got for themselves the whole of New Durham Gore. "The evil that men do" did not in this case by any means die with them, for the good farmers of these towns are not only much discommoded by their diamond farms, but the increase in fencing is enormous.

☞ The Roman Catholics in London recently met, Archbishop Manning presiding, to express sympathy with the Pope. The Archbishop held that though the Pope might leave Rome without giving the Church cause of alarm, Rome should still be, for the sake of Europe, the property of the Church. The chief significance of the meeting, however, was its opposition to the English Reform movement. The speakers considered the desire of the Romans to become a part of United Italy, and the demand of the English for the extension of suffrage, as equally wicked and dangerous, and warned Great Britain that in permitting the Pope to be driven from the Holy City, she parted with an important protection against revolution at home.

— The eight hour system doesn't work well in Indianapolis, where it is enforced by the city and foundries. The employes are paid by the hour, and don't earn enough to support their families.

— The people of the city of Nevada are crazy over the discovery that their city is probably built over gold mines. The Italian mine, in the centre of the town and under the principal street, is being worked and the yield is very large.

— James Tuttle, formerly liquor agent of the town of Acton, Me., who has been accused of illegally purchasing and selling intoxicating liquors, and against whom cases are now pending in the courts, has paid to the selectmen of Acton the sum of $600, the amount of his bond, which has been forfeited. He has paid that sum without suit.

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
73 State Street, opposite Ellby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made in American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by any other agency, if not by any agency whatever. The reasonableness of the charges below given, prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, is here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made no less rejected applications SEVEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

Agents Wanted
FOR THE MOST POPULAR
And best selling Subscription Books Published!
We are the most extensive publishers in the United States (having six houses), and therefore can afford to sell books cheaper and pay agents a more liberal commission than any other company. Our Books do not pass through the hands of General Agents (as nearly all other subscription works do), therefore we are enabled to give our canvassers the extra per cent which is usually allowed to General Agents. Experienced canvassers will see the advantages of dealing directly with the publishers.
Our series embraces the most popular works on all subjects of importance, and is selling rapidly, both North and South.
Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address, NATIONAL PUBLISHING CO., Boston, Mass., Philadelphia, Pa., Cincinnati, Ohio, Chicago, Ill., St. Louis, Mo., Richmond, Va.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, as much and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is as simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Guitars, Violins, Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS AND REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of that house, and of Geo. M. Guild & Co. The superior merits of the former house have been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last year, in Boston, Lowell, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. A competent Teacher of MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.
